2022/ 2023

THEMBISILE HANI LOCAL MUNICIPALITY ANNUAL REPORT

Chapter 1

CONTENTS

CONTENTS 2

CHAPTER 1 – MAYOR'S FOREWORD AND EXECUTIVE SUMMARY 7

COMPONENT A: MAYOR'S FOREWORD 7

COMPONENT B: EXECUTIVE SUMMARY 10

1.1. MUNICIPAL MANAGER'S OVERVIEW 10

1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW 18

1.3. SERVICE DELIVERY OVERVIEW 30

1.4. FINANCIAL HEALTH OVERVIEW 30

1.5. ORGANISATIONAL DEVELOPMENT OVERVIEW 32

1.6. AUDITOR GENERAL REPORT 32

1.7. STATUTORY ANNUAL REPORT PROCESS 33

CHAPTER 2 – GOVERNANCE 35

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE 35

2.1 POLITICAL GOVERNANCE 35

2.2 ADMINISTRATIVE GOVERNANCE 40

COMPONENT B: INTERGOVERNMENTAL RELATIONS 42

2.3 INTERGOVERNMENTAL RELATIONS 42

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION 43

2.4 PUBLIC MEETINGS 44

2.5 IDP PARTICIPATION AND ALIGNMENT 63

COMPONENT D: CORPORATE GOVERNANCE 63

2.6 RISK MANAGEMENT 63

2.7 ANTI-CORRUPTION AND ANTI-FRAUD 64

2.8 SUPPLY CHAIN MANAGEMENT 65

2.9 BY-LAWS 75

2.10 WEBSITES 75

2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES 76

2.12 AUDIT AND PERFORMANCE COMMITTEE 76

CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I) 81

COMPONENT A: BASIC SERVICES 81

3.1 WATER PROVISION 82

3.2 WASTE WATER (SANITATION) PROVISION 92

3.3 ELECTRICITY 96

3.4 WASTE MANAGEMENT (THIS SECTION INCLUDES REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND CEMENTORIES) 99

3.5 HOUSING 104

3.6 FREE BASIC SERVICES AND INDIGENT SUPPORT 105

COMPONENT B: ROAD TRANSPORT 105

3.7 ROADS AND STORMWATER 105

3.8 TRANSPORT (VEHICLE LICENSING) 109

3.9 WASTE WATER (STORMWATER DRAINAGE) 110

COMPONENT C: PLANNING AND DEVELOPMENT 111

3.10 PLANNING (INCLUDING OFFICE OF THE MUNICIPAL MANAGER'S UNIT) 111

3.11 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES) 126

COMPONENT D: COMMUNITY & SOCIAL SERVICES 129

3.12 LIBRARIES, EDUCATION, COMMUNITY FACILITIES AND SPORTS. 129

3.13 CEMETORIES AND CREMATORIUMS 132

3.14 CHILD CARE; AGED CARE; SOCIAL PROGRAMMES (HEALTH AND WELFARE) 133

COMPONENT E: ENVIROMENTAL PROTECTION 135

3.15 POLLUTION CONTROL 135

3.16 BIO-DIVERSITY; LANDSCAPE (INCL. OPEN SPACES); AND OTHER (E.G. COASTAL PROTECTION) 135

COMPONENT F: HEALTH 135

3.17 CLINICS 135

3.18 AMBULANCE SERVICES 135
3.19 HEALTH INSPECTION OF PREMISE AND BUSINESS FOR LICENCING 135
COMPONENT G: SECURITY AND SAFETY 136
3.20 POLICE 136
3.21 FIRE 136
3.22 OTHER (DISASTER MANAGEMENT, SECURITY AND SAFETY) 136
COMPONENT H: SPORT AND RECREATION 139
3.23 SPORT AND RECREATION 139
COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES 140
3.24 EXECUTIVE AND COUNCIL 140
3.25 FINANCIAL SERVICES 143
3.26 HUMAN RESOURCE (CORPORATE) SERVICES 149
3.27 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES 156
3.28 LEGAL AND ADMINISTRATION SERVICES (INCLUDING FLEET MANAGEMENT) 158
COMPONENT J: MISCELLANEOUS 164
COMPONENT K: ORGANISATIONAL PERFOMANCE SCORECARD 164
CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART II) 243
COMPONENT A: INTRODUCTION TO THE MUNICIPAL PERSONNEL 243
4.1 EMPLOYEE TOTALS, TURNOVER AND VACANCIES 243
COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE 244
4.2 POLICIES 244
4.3 INJURIES, SICKNESS AND SUSPENSIONS 246
4.4 PERFORMANCE REWARDS 246
COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE 246
4.5 SKILLS DEVELOPMENT AND TRAINING 247
COMPONENT D: MANAGING THE WORKFORCE EXPENDITURE 249

4.6 EMPLOYEE EXPENDITURE 249
CHAPTER 5 – FINANCIAL PERFORMANCE 250
COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE 251
5.1 STATEMENTS OF FINANCIAL PERFORMANCE 251
5.2 GRANTS 253
5.3 ASSET MANAGEMENT 254
5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS 254
COMPONENT B: SPENDING AGAINST CAPITAL BUDGET 255
5.5 CAPITAL EXPENDITURE 255
5.6 SOURCES OF FINANCE 255
5.7 CAPITAL SPENDING ON 5 LARGEST PROJECTS 256
5.8 BASIC SERVICE AND INFRASTRUCTURE BACKLOGS – OVERVIEW 258
COMPONENT C: CASH FLOW MANAGEMENT AND INVESTMENTS 258
5.9 CASH FLOW 258
5.10 BORROWING AND INVESTMENTS 260
5.11 PUBLIC PRIVATE PARTNERSHIP 260
COMPONENT D: OTHER FINANCIAL MATTERS 261
5.12 SUPPLY CHAIN MANAGEMENT 261
5.13 GRAP COMPLIANCE 262
CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS 263
COMPONENT A: AUDITOR-GENERAL OPINION 2021/ 2022 263
6.1 AUDITOR GENERAL REPORTS 2021/ 2022 263
COMPONENT B: AUDITOR-GENERAL OPINION 2022/ 2023 271
6.2 AUDITOR GENERAL REPORTS 2022/ 2023 271

ACTION PLAN 2022/ 2023 499

Chapter 1

CHAPTER 1 – MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: MAYOR'S FOREWORD

1. EXECUTIVE MAYOR'S FOREWORD

The year 2023 symbolizes the continuance of the elected political administration from 2021 to 2026 as directed by the ANC, the community at large, and the ANC local government manifesto under the theme, "Let's Build Better Communities Together", hard work, not justifications and excuses, is how we fulfill the aspirations of our people for improved services and prompt responses to their concerns. Despite our limitations, we worked to ensure competent, high-quality, and above-average delivery of services to our citizens.

People can only truly be liberated when they are able to own and manage their property, cultivate it, clothe themselves, and choose the economic system that will best serve their needs both now and in the future.
We are fostering a sense of collectivism and collective ownership of our city because we are motivated by consciousness and in pursuit of our 2050 vision and the journey, we started in 2021. As we move forward, we will further our philosophy of creating a people-centred and driven government that pledges to act with integrity and account its citizens.

Building a truly African city that is citizen-centered and driven by putting people first, treating people with respect, and treating people with dignity is a part of our mission. As well as being a servant of the public while demonstrating humility, treating fellow citizens as our bosses, and fostering a welcome, solutions-orientated environment. Promoting a culture of professionalism, ethics, and morality, while creating a culture of accountability, commitment, and hard effort. Safeguarding the resources, finances, and the reputation of our municipality at all times, and be the best at what we do. We have further identified five key pillars as the key drivers to improve the socio-economic environment in the city that stimulates the 2022 – 2027 Integrated Development Plan in response to the ANC election manifesto and engagement with the community. This symbolizes that the

Chapter 1

ANC is a people's organization, that cares and listens to its people. The following are the 12 service delivery priority areas that the Municipality identified for the 2023–2024 fiscal year as part of the Integrated Development Plan:

- Water;
- Sanitation;
- Public lighting;
- Roads and storm water;
- Environment and waste management;
- Municipal facilities;
- Spatial planning and land use management;
- Local economic development and job creation;
- Institutional development;
- Good governance and public participation; and
- Youth Development.

These priority areas are a result of our ambition to "build a truly African city that is citizen-centered and driven" and the municipality's motto: "Work conquers everything, every time."

- Our motto states that the best way to meet the aspirations of our citizens for improved services and timely responses to their concerns is through hard work rather than justifications and excuses. We further developed five pillars that would serve as the key drivers of our service delivery five-year strategy. They are as follows: Water and Sanitation
- Roads and Storm water
- Improving environmental resilience and waste management
- Financial sustainability and viability
- Socio economic development

According to one scholar, "setting goals is the first step in turning the invisible into visible," we have made plans to accomplish the supremely noble goal of establishing an African city. We commit to achieving the objectives we set for the Municipality through a combination of brilliant male and female minds in both the political and administrative leadership. We have committed ourselves to the implementation of the following capital projects during 2022 and 2023, and we are continuing with our multi-year projects to ensure water supply security, sustainable roads and stormwater, amongst other basic services, as outlined below:

- Drilling, Refurbishment, and Equipping of Boreholes, Matheyzensloop Booster Pump Station, Upgrading the Water Infrastructure in Tweefontein C and DK, Ntokozweni, Sheldon, Mabhoko, and Moloto. These projects have a collective budget of R 82.6 million.
- In the area of sanitation, work is still being done on the Phase 2 (Multi-Year Project) upgrade of the Tweefontein K Waste Water Treatment Works in Ward 13 as well as the Construction of Alternative Sanitation System with a combined budget of R 3 million.
- Construction of Phola Park Bus and Taxi (Ward 6) with a budget of R 500 000.
- Construction of Kwaggafontein C Link Road (Ward 26) with a budget of R 500 000.
- Construction of Verena A-D Bus and Taxi Route (Ward 08) with a budget of R 7 million.
- Construction of Verena C Bus and Taxi Route (Ward 11) with a budget of R 7 million.
- Construction of Moloto South Bus and Taxi Route with a budget of R 7 million.

- Construction of Kwaggafontein A Link Road (Ward 27) with a budget of R 500 000.
- Construction of the Tweefontein E Bus Route (Ward 15) with a budget of R 5.2 million.
- Rehabilitation of Roads in all Wards with a budget of R 10 million.
- Construction of a Multi-Purpose Centre in Phumula Multi-Year Project (Ward 23) with a budget of R 5 million.
- Upgrading of the Kwaggafontein Stadium Multi–Year Project (Ward 26) with a budget of R 5 million.
- Construction of a Multi-Purpose centre in Moloto North Multi-Year Project (Ward 2) with a budget of R 5 million.
- Construction of the Verena Multi–Purpose centre with a budget of R 5 million.
- Construction of the Kwaggafontein community hall (Ward 31) with a budget of R 5 million.
- Electrification and installation of high mast lights with a budget of R 10 million.

PARTICIPATION

The Municipality uses Ward Committee, Mayoral outreach and stakeholder meetings, radio interviews, loud-hailing, budget and IDP indabas to involve the public in decision-making processes to promote accountability to communities.

AGREEMENTS / PARTNERSHIPS

The primary driver behind the creation of economic opportunities and employment, according to our analysis, is Local Economic Development and Planning. In our term of office between the period from 2021 to 2026 we would have empowered our local SMMEs and created up to 2000 jobs through our infrastructure projects and extended public works program. The municipality has set aside a grant of R1 million for emerging SMMEs for each financial year and will ensure that 90% of our procurement be made locally.

CONCLUSION

Let me take this opportunity to thank the ANC political leadership once more for giving us the chance to lead the development of our municipality for the next five years. We pledge to work with the Nkangala District Municipality and all provincial and national departments to realize the District Developmental Model.

Chapter 1

COMPONENT B: EXECUTIVE SUMMARY

1.1. MUNICIPAL MANAGER'S OVERVIEW

Thembisile Hani Local Municipality (THLM) is in the Nkangala District Municipality (NDM), which is in the westernmost region of the province of Mpumalanga. According to Statistics South Africa (Stats SA) data from 2016, it has 32 Wards and 333 331 people (households), making it the second-largest Local Municipality in the District after Emalahleni Local Municipality (ELM). As a Municipality, we eagerly await the publication of the 2022 Stats SA data.

The Municipality has nine full-time council members, and our TROIKA operates and meets regularly after adopting a meeting and/or program schedule. The Mayoral Committee and Section 80 Committees all meet once a month, whereas Council meets according to the adopted meeting schedule, apart from Special Council meetings, which are called on an as-needed basis. The Municipal Public Accounts Committee (MPAC) and Section 79 Oversight Committees are convened on a quarterly basis.

Since then, the Municipality has conducted a thorough and inclusive public participation process for the 2023–2024 IDP and Budget review, covering all Wards, including our farming areas. These areas have raised valid concerns about how their government appears to be ignoring them when it comes to the provision of basic services and overall development. The business community, young people, individuals with disabilities, traditional leaders, traditional healers, the elderly, religious leaders, former service members, and provincial sector departments are some other groups that have been consulted by the Municipality. In September 2023 - October 2023, there were fifteen community outreach sessions held, and there were fifteen more in April 2023 - May 2023.

Chapter 1

The interaction with the stakeholders has given the Municipality a broad understanding of what residents want and what the biggest challenges are in the municipal area, which continue to be the reliable supply of portable water and the construction of roads and storm drains to support qualitative socioeconomic growth and mobility, hence these are covered as pillars one and two, respectively. A few of the medium- to long-term interventions the Municipality is implementing with the NDM and Department of Water and Sanitation (DWS) respectively include the abstraction of 20 Ml/ Day (million liters per day) from Loskop, commonly known as the Loskop Regional Bulk Water Supply Scheme, and the construction of the Matheyzensloop Booster Pump Station. The former is scheduled for completion in November 2024 and the latter in November 2023. Most of our water-related problems will be resolved after construction is finished.

Currently, the Municipality holds five of the six senior managerial posts. The Social Services Manager position is the only one still open and should be filled at the very least by the first quarter of the 2023–2024 fiscal year. Since then, the current administration has established five pillars that serve as the foundation of the Municipality, in addition to various initiatives and/or programs for the continual implementation of high-quality service delivery.

The five pillars are:

1) Bulk water supply,
2) Roads and stormwater (with emphasis on routine road maintenance),
3) Environmental management (with emphasis on refuse removal),
4) Financial viability (with emphasis on revenue enhancement), and
5) Socio-economic development.

BULK WATER SUPPLY

In our Municipality, three sources of water supply continue to be in use: Bundu Water Treatment Plant, which provides 5 Ml/ Day, City of Tshwane (CoT), which is required to provide 16.6 Ml/ Day but does not, and Rand Water, which provides 32 Ml/ Day. Our overall demand is 99 Ml/day; however, our total supply is, on average, 41.7 Ml/day, leaving us with a 57.3 Ml/day gap. We continue to urge the Metropolitan Municipality to fulfill its contractual commitments and provide Thembisile Hani with the necessary 16.6 Ml/Day because in the past we have experienced severe issues due to CoT's non-delivery, even when there is intermittent intermediate supply.

We must also point out that load shedding severely affects bulk water pumping operations because there is no water being pumped during outages, which makes it difficult to fill our reservoirs, which rely on pumping operations, with water.

Although some areas (especially high-lying areas) are still experiencing operational challenges within the network that lead to non-supply, the Municipality is working around the clock to resolve those challenges for the better to improve our water rationing (vula vala) process with a view to communities getting access to water at least two to three times per week.

The following are our ongoing short- to medium-term and long-term interventions:

1) Supplying non-reticulated areas with water tankers and rationing of water.
2) Installation of water reticulation to non-reticulated areas (in line with our Integrated Development Plan) to reduce the frequency on water tankers and ensure a basic level of service for our communities.
3) Water Harvesting at the level of our communities, which we urge all of us to do during rainy seasons.
4) Increasing the City of Tshwane frequency of supply to 16.6 Ml/ Day.
5) Increasing the Abstraction of Bundu Weir from 5 to 10 Ml/ Day.
6) Installation of a Booster Pump in Matheyzensloop to pump water from the Bundu Water Treatment Plant to the Kwaggafontein Supply Scheme, which will be completed on/ or before the 30th of November 2023 should no unprecedented delays be experienced.
7) Fixing our Borehole Schemes to augment the shortfall by a minimum of 4 Ml/ Day.
8) Augmentation of shortage by 20 Ml/ Day from the Loskop Regional Bulk Water Supply Scheme, and the project is at construction stage, while its completion is estimated at January 2025.
9) Conducting a feasibility study to explore alternative catchment areas for alternative water supply schemes, including ground water (sub-soil) systems, to ensure water security.
10) Reduction of water losses from 34% to below 20% through the Water Conservation/ Water Demand Management (WC/ WDM), commonly referred to as War on Leaks, including the complete eradication of Asbestos Pipes.

ROADS AND STORMWATER

Our road network, which is the backbone of our transportation system and a large portion of which serve as feeder roads to National Road R573, allows us to meet the mobility and socioeconomic needs of our communities as well as the needs of individuals within its jurisdiction.

THLM has made sure that all its strategic planning procedures comply with all relevant laws. Although the Municipality has historically relied on infrastructure grants (such as the Municipal Infrastructure Grant), which have resulted in new roads and stormwater projects, it is working to change this because preventative maintenance is the only way to extend the life of your infrastructure. Since preventative maintenance is the only way to extend the lifespan of your infrastructure, aggressive routine road maintenance programs have been in place since October 2022 and are still actively promoted today. One of these programs' main objectives is to eliminate all potholes in the Municipality by the end of the 2023–2024 FY.

The THLM road network is described as follows in the recently finished roads and stormwater master plan:

1) Total km's = 2 485.1 km's,
2) Total paved (surfaced with asphalt) = 198.9 km's,
3) Total paved (surfaced with 80mm interlocking pavers) = 16.4 km's, and
4) Total unpaved (gravel) = 2 269.7 km's.

Chapter 1

ENVIRONMENTAL MANAGEMENT

According to Section 152(d) of the Constitution, which lists "promotion of a safe and healthy environment" as one of the objectives of local government, everyone has the right to a place that is not injurious to their health or wellbeing.

Our Waste Management Unit (located in the Social Services Department) has been conducting clean-up operations monthly since the start of Operation Keep Thembisile Hani Clean in October 2022. The main goal of these operations is to eliminate illegal dumping sites for the sole purpose of keeping our Municipality clean and the overall protection of our environment.

The purpose of the waste management division is to offer all Municipality residents a garbage collection service that is acceptable, economical, and sustainable. The activities are as follows:

1) Refuse removal,
2) Cleaning of our streets and/ or road reserves,
3) Clearing of illegal dumping sites and/ or areas, and
4) Cleaning of our Cemeteries.

The primary objective of the Municipality's Integrated Waste Management Plan (IWMP) is to integrate and optimize waste management to maximize waste management system efficiency and minimize the negative effects and monetary costs associated with waste management, thereby enhancing quality of life.
To use this data as the foundation for future waste management planning, the goal of the status quo, or gap analysis, which serves as the first stage in the creation of an IWMP for THLM, is to qualify and quantify all aspects of the current waste management services and practices provided by the Municipality. As a result, the paper provides a situational analysis of the main solid waste management themes that are pertinent to THLM e.g. the areas serviced, the waste management services rendered, their efficiency, cost effectiveness, social and environmental acceptability, etc.

Kwaggafontein, the first landfill site built in Thembisile Hani, has one Class B approved Landfill Site, and the Department of Forestry, Fisheries, and Environment (DFFE) is working with the Municipality to license the KwaMhlanga and Verena Landfill Sites.

Consequently, the Municipality has launched the Waste Pickers Database to assist Waste Pickers in all 32 Wards. Through the Department of Forestry, Fisheries, and Environment (DFFE), the Municipality has currently provided relief funding and personal protective equipment (PPE) to over 100 waste pickers. In addition, the Municipality is in the process of implementing a recycling project in all its facilities by installing separation at source bins that will have different colors for all types of waste.

Under the auspices of the Extended Public Works Programme (EPWP), the DFFE has also partnered with the Municipality to address environmental challenges by concentrating on illegal dumping sites, street cleaning, and clean-up campaigns, while also creating much-needed jobs in the environmental sector. The Expanded Public Works Programme (EPWP) officially began

on May 22, 2023, with the recruitment of 190 volunteers who would remain on the program for 24 months and represent all 32 Wards of the Municipality. To reduce the cost of traveling from one Ward to another, the program has been and will continue to be implemented in each Ward while making sure that beneficiaries work in or close to their own Ward.

Numerous awareness-raising programs were run, and environmental educators were hired through the EPWP's "Green Good Deeds" program during a 24-month period. The successful execution of environmental awareness campaigns and other programs was positively impacted by this initiative. To improve waste collection services in the community, businesses, and schools, the Municipality purchased two compactor trucks, two skip loader trucks, and forty skip bins. These acquisitions help the Municipality collect waste effectively and efficiently in accordance with our waste collection schedule.

SOUND FINANCIAL MANAGEMENT

The sound financial management priority areas are as follows:

1) Preventing Unauthorised, Irregular, Fruitless and Wasteful Expenditure.
2) Ensuring that the municipal billing system is accurate to improve revenue collection, thus strengthening measures to generate revenue and improve revenue collection from 5% to a minimum of 60%.
3) Improving the Municipal Audit Opinion from Unqualified with Matters to Clean Audit.
4) Building internal financial capacity to eliminate outsourcing (e.g., use of consultants).

Thus, THLM has seen an increase of 6% in its annual revenue collection, which stands at 22% for the 2022–2023 FY. However, we as a community can do much better by meeting the Municipality halfway, which will go a long way toward delivering adequate services and socio–economic programs, as our overall target remains a minimum of 60% collection on an annual basis.
After several consultations with our communities and stakeholders, it has since come to light that a sizable portion of our communities are unaware that the Municipality purchases water from its bulk suppliers (Rand Water and the City of Tshwane), despite operating expenses linked to the operation of the Bundu Water Treatment Plant.

The Municipality held its inaugural Revenue Enhancement Indaba on April 21, 2023, and the results were sound and strategic resolutions to find long-term revenue collection solutions that will improve the Municipality's financial health. No Municipality can be able to sustain itself only from conditional grants that are disbursed by the National Treasury, so we are making a strong appeal to our communities to help the Municipality in the payment of services.

In addition to some of the exciting initiatives that we have been able to implement working together, the suggestions we got from community stakeholders are very appreciated and help to get all of us closer to the goal of eliminating the difficulties at hand.

Four conditional funds that the Municipality was able to use—the Municipal Infrastructure Grant (MIG), the Integrated National Electrification Programme (INEP), the Water Services Infrastructure Grant (WSIG), and the Energy Efficiency and Demand Side Management Grant—all saw 100% performance (EEDSMG). A further R13 billion and R2 billion were given to the municipality for WSIG and EEDSMG, respectively, as part of the halting and reallocation process and in response to the municipality's successful performance.

SOCIO-ECONOMIC DEVELOPMENT

Many of the former Kwandebele Homelands, which were established under the apartheid regime, are in THLM. Despite land invasions, which continue to be a major challenge for the Municipality, and even though our communities have security of tenure, most of these areas have undergone spontaneous development with settlements being sparsely distributed along the R573.

Remedial measures include, among others:

1) Transfer of Land Parcels from the Mpumalanga Provincial Government to the Municipality.
2) Land Tenure Upgrading in Kwaggafontein A (Tittle Deeds for 3 300 Stands), and
3) Survey and Registration of a General Plan in Mabhoko and Sheldon.

Local Socio-Economic Development (LED) initiatives at play in the Municipality are detailed below:

1) Rejuvenation of township businesses with initiatives to transform townships and villages from labour and consumption reserves into thriving productive investment hubs.
2) Facilitation of growth and job creation through the LED Forum, and the promotion of investment opportunities in the Municipality.
3) Fast tracking the Mbuduma EARN Hub, KwaMhlanga MA Mix-Use Development, KwaMhlanga Mix-Use Development and Khazamula Mix-Use Development initiatives.
4) Fast tracking the Venera Smart City development, which is aligned to THLM's Vision and 2050 Mission, where most of the civic, retail, commercial, educational, and public transport facilities are in terms of the concept document. Residential densities decline from Verena outwards with the low-income residential areas being located on the periphery, and these residential settlements then extend into agricultural holdings and farms.
5) Supporting the Local Tourism Sector in kind to stimulate economic activities and growth in the Municipality, i.e. Development of Tourism Information Centers at our Malls.
6) Revitalization of the KwaMhlanga Show to promote economic activities and tourism and will be done through IGR Structures (DEDT), albeit this is planned for implementation in the outer financial year(s).

LED Social Programs that have been initiated include the following:

1) Palesa Mine with THLM have identified 20 impoverished families at the farms next to the mine and they are benefitting

from this program of human settlements as part of the Social and Labour Plan (SLP) with an allocated budget of R 3.5 million.

2) Small, Medium and Micro-Enterprises (SMME) Support:
   a) During the month of August 2022, THLM held a Women in Construction Seminar and almost 30 SMMEs were in attendance and benefitted from the different presentations that were made.
   b) As part of Tourism Awareness, THLM hosted a tourism seminar during September 2022, and 51 SMMEs were in attendance and benefitted from the information shared or presented.
   c) THLM recently supported 37 SMMEs through the purchase of tools of trade (equipment) with a budget of R 1 000 000.00.
   d) Provision of support to SMMEs, Cooperatives and the Informal Sector with a budget of R 200 000.00 in the 2022/ 23 FY, which has been increased to R 5 000 000.00 in the 2023/ 24 FY to stimulate economic activity and promote job creation.
   e) Provision of training to 21 young people in agriculture, working closely with the Mpumalanga Regional Training Trust (MRTT).
   f) The Department of Small Business Development in conjunction with THLM handed out 39 local SMMEs with tools of trade (equipment).
   g) A SMME funding conference in partnership with Moripe Holdings was held on the 26th of January 2023 (and will be held annually), and 10 SMMEs have been adopted by Moripe Holdings for assistance in funding and mentorship.

Thembisile Hani Standardized Names, which have since been gazetted, should be used by the community at large, as subsequently advised by our sister department, the Department of Culture, Recreation and Sports.

Finally, and in accordance with the Strategic Planning Session that took place from February 8 through February 10, 2023, a pledge for all Municipal Staff has since been prepared, and it is as follows (in plural form):

1) We will put our people first,
2) We will treat our people with respect and dignity,
3) We will show humility as servants of the people,
4) We will treat our citizens as our bosses and create an environment that is welcoming and solution orientated,
5) We will pride ourselves in a culture of professionalism, ethical and high moral behaviour,
6) We will pride ourselves in a culture of hard work, commitment and accountability,
7) We will at all times, protect the assets, finances and image of the Municipality, and
8) We will be exemplary when performing our duties.

Further to the above lies other important themes, mottos, et al. that the Municipality has since adopted, and they are detailed below:

Chapter 1

THLM's Revised Vision: To Build a Truly African City that is Citizen Centred and Driven.

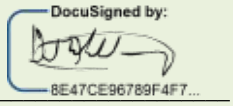

THLM's Revised Mission: Developing a 2050 Strategic Plan which will be Anchored on a Thriving Economy, Improved Standard and Quality Service Provision, and a Habitable and Healthy Social Environment.

Our Motto: Work Conquers Everything, Every Time. No Explanation, No Report, No Clarity, but Work.

2023 Theme: The Year of Innovation, Creativity and Dynamism.

While acknowledging that today is better than yesterday and that future must be better than today, we continue to kindly urge all members of the public to continue working with us as we grow this magnificent Municipality.

Until Victory, Always!

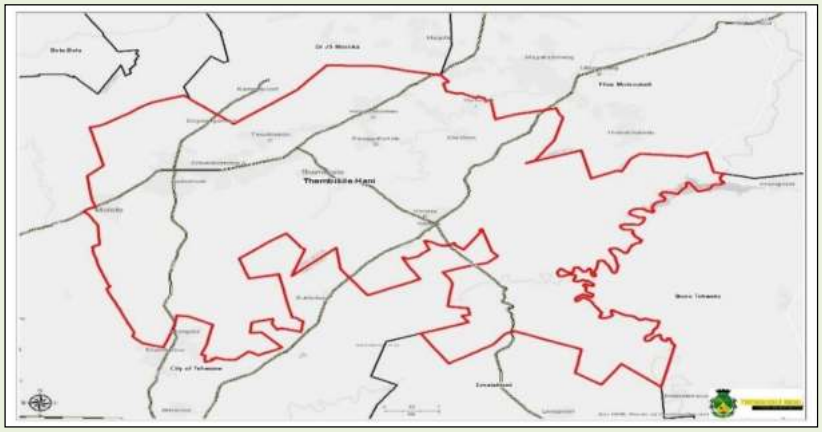

Mr. D.J.D. Mahlangu
Municipal Manager

LOCALITY MAP – ADJACENT LOCAL MUNICIPALITIES

SOCIO-ECONOMIC OVERVIEW

Matheyzensloop, Boekenhouthoek, Bundu, Enkeldoornoog, Goederede, Moloto North & South, Sun City A-C, Phola Park, Buhlebesizwe, Vlaklaagte 1, Mzimuhle, Sybrandskraal, Vlakfontein, Witnek, Skoongesight, Modderfontein, Valchspruit, Blesbokfontein, Taaifontein, Rietfontein A, Rietfontein (Bly N Bietjie), Papskuil, Vandykspruit, Loopspruit, Nooitgedaght, Serengkop, Rooipoort, Swaartkoppies, Waterval Farm, Rooiground, Gemsbokfontein.

The majority of the urban areas are informal settlements with limited infrastructure. Urban sprawl due to un-contained and unplanned extensions of settlements is apparent and leads to challenges in providing bulk and reticulation infrastructure. Population density in urban areas is high and low in rural residential areas. Matheyzensloop, Kwaggafontein, Verena, Milliva, Kwamhlanga and Moloto can be regarded as principal business nodes with a neighbourhood shopping centre with some anchor tenants such as chain stores in each node. Secondary nodes exist along the R573 provincial road leading to Marble Hall. Similar nodes exist along the R25 provincial road, which links Kempton Park, Bronkhorstspruit and Verena to Groblersdal. To some extent, the two above mentioned Provincial Roads Act as regional activity spines.

Most of the urban, peril-urban and agricultural settlements are situated along the R573 provincial road also known as the Moloto road. The road serves as a major communication and transportation route for the Municipality, linking it with Marble hall and Groblersdal to the east and Gauteng to the south- west. Many future residential and economic developments in the region are planned along the Moloto road.

The economic analysis of the area indicates that Thembisile Hani Local Municipality's local economy is dominated by community services, trade (formal & informal, with the latter performing higher than the former) and manufacturing. The remaining sectors are all relatively small. The Municipal area's economy is very small when its gap is compared to that of the other Municipalities. Agriculture has a high potential and needs to be nurtured. So is eco-tourism encompassed with rehabilitation of dilapidating tourist destinations and formation of a tourist belt? Therefore, specific actions need to be undertaken to broaden the tax base and improve participation in these activities.
There are a few mining activities around the area and these contribute to the creation of jobs and their service levels programs need to contribute to the upliftment of the community of THLM. This issue is pursued by both Council and Municipality. There is a need to sign MOU's by the Municipality and mine owners. The application for expansion of the Palesa mine is receiving the attention of the Municipality and the Department of Energy.

Chapter 1

VISION AND MISSION

VISION

"To build a truly African City that is citizen centred and driven ".

MISSION

"Developing a 2050 strategic plan which will be anchored on a thriving economy, improved standard and quality service provision and habitable and healthy social environment."

MUNICIPAL PLEDGE TO THE CITIZENS

- Putting People First
- Treating people with respect
- Showing humility and humbleness as servants of the people
- Treating citizens as our bosses and creating an environment that is welcoming and solution oriented
- Establishing a culture of Professional, Ethical and Moral Behaviour
- Cultivating a culture of hard work, commitment and accountability
- At all-times, protect the assets, finances and the image of our Municipality
- Be Exemplary when performing our duties

DEMOGRAPHIC PROFILE

Population Size

According to Stats SA (2011 census), 310 458 people were recorded in 2011 which accounts for 23.7% of Nkangala's population. The population grew by 1.9% p.a between 2001 & 2011. The population number is estimated to be in the area of 447 250 people by 2030 given the historic population growth rate per annum. Of the total population 52.4% are female and 47.6% are male and approximately 99.2% are Africans. Youth up to 34 years of age is estimated at 68.7% of the population and the number of households is 75 634 which amounts to 4 people per household and 21.2% of the total households in Nkangala. Female headed households are estimated at 46.1% and child headed (10-17 years) households at 0.9 % in 2011. The Municipality's population has increased by about an additional 33 000 households in 2015. To date the total number of households in Thembisile is 109 282. According to the Community survey 2016 the population growth now stands at 333 331 and is estimated to reach 416 282.

Population Composition

The gender composition

The gender composition of the Municipality indicates that 47.6 % of the population is male and 52.4 % is female. The dominance of the female population is evident over the whole age spectrum. Figure 3.2.2a below shows that there is an increased distortion in gender composition in the age groups ranging between 15 and 54 where there are noticeably less males as compared to females. This can be attributed to the migration of the male populace to the Gauteng region to seek better employment opportunities.

Table 3.2.2.1a: geography by gender

Geography	Year	Male	Female	Total
Thembisile	2001	119 928	138 944	258 872

	2011	48.9%	51.1%	100.0%

Source: statistic South Africa, 2011.

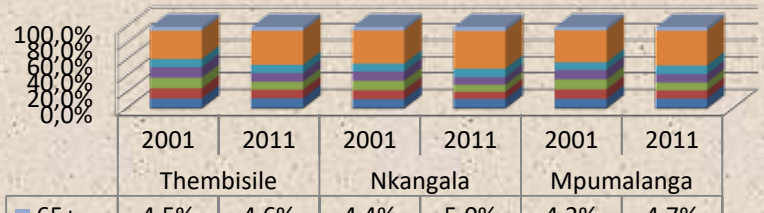

The age structure

The age structure of the Municipality shows a youthful population distribution. In 2001, there was strong evidence of declining fertility, which is indicated by a steady decline in the population groups 10-14, 5-9 and 0-4, this is also evident in 2011. It is also evident that the population of the Municipality is concentrated in the younger age groups, with the population group between 10 and 19 being the largest. The distribution is similar for both males and females, except for the notable larger female population at all age groups. It is further evident from the graph that there is a noticeable decline in both men and women in the age category 15 – 20 years. The economically active population is standing at 62, 9%, and these are people between the ages of 15 and 64. The Municipality also has a dependency ratio of 58, 9% because the rest of the population is either too young or too old to generate income. (See figure 3.2.2c below)

Table 3.2.2.2: Age structure

Geography	Year	00 - 04	05 - 09	10 - 14	15 - 19	20 - 24	25-64	65+	total

Socio-economic development

Employment and unemployment indicators

About 97 744 people are economically active out of these 37% which is 36 165 are unemployed, 61 579 which is 63% are economically active youth (between age of 15 – 34 years) almost half which is 30 790 are unemployed. Out of the 37% unemployment rate the highest is the female population as a result of the loss of jobs and the decline in new job opportunities in the neighbouring urban areas such as Witbank, Middelburg and Pretoria exacerbate the unemployment rate. The Socio Economic Report and Outlook further indicates the following about the Municipality:

- Unemployment rate of 37.0% (strict definition) in 2011 amounted 36 139 unemployed as a percentage of the year of 97 744 - decreasing trend (estimated 2013 unemployment figure by IHS global insight 36.4%).
- Unemployment rate for females 39.9% and males 34.1% - youth unemployment rate of 49.4% in 2011.
- Highest unemployment in Ward 30 (50.1%) & lowest unemployment in Ward 1 (29.0%).
- Employment number 17.3% of Nkangala's employed.
- Employment increased by 27 468 between 2001 & 2011 according to the census – almost 3 000 new jobs per annum – 4% of provincial job creation target.
- Formal employment 54.3% & informal employment 22.5%.

Table 3.2.3.1: Thembisile Hani labor indicators

Unemployment Rate (%)	51.2%	37.0%		15

Source: socio-economic report and outlook for Mpumalanga, 2014

The Socio-economic report and outlook (SERO) report further illustrated that the leading employment industries within the Municipality are community services at 21.2% and trade at 24.2%. Prevailing trends have also shown a decreasing role/share of manufacturing and trade and increasing role/share of community services & finance as the main employers. These figures appear to be declining as they went down from 21.7% and 24.6% respectively.

Poverty rate

Thembisile's poverty rate is estimated at around 40% or 128 890 poor people and this makes the Municipality the poorest in the district and forth poorest in the entire province, this is however a declining trend. The bottom 40% of households shared 12.2% of the total income in 2013. Stats SA multidimensional poverty index (sampi) in Thembisile Hani has improved from 0.07 in 2001 to 0.02 in 2011.

Education indicators

In the Municipality citizens that are 20 years of age and older with no schooling account for 18.0% (31 711) total population of the Municipality (34.4% of Nkangala's district), and this is one of the highest in the province. The total population that are 20 years of age and older with matric & higher qualification account for the 31.6% of the total population and this has shown an improvement but is still however lower than both district and provincial averages (third lowest in the province). The functional literacy rate (15+ with grade 7+) is also improving but is still lower than the district and provincial averages. The matric pass rate was sitting at 73.0 % in 2013 and the university/degree admission rate was only 18.0% in 2013. Thembisile Hani Municipal area has 72 government funded ecd (early childhood development) centers in 2014/15 financial year.

Table 3.2.3.4: education indicators

Population groups

Thembisile Hani Local Municipality has a total population of 310 458 people, of whom 99, 2% are black African, and 0, 3% are Indian/Asian. The other population groups make up the remaining 0, 5%. Based on the aforementioned, it is evident that the Municipal population is predominantly composed of black Africans.

Percentage distribution of Thembisile Hani Local Municipality

Group	Percentage
Black African	99,2%
Coloured	0,2%
Indian/Asian	0,3%
White	0,1%
Other	0,2%

Household trends

The number of households in Thembisile Hani Local Municipality have increased by about 13.5%, from 65 394 in 2007 to 75 634 in 2011. The average household size is 4 persons per household and 46, 1% of households are headed by females. only 16,3% of households have access to piped water inside the dwelling, 72,1% of households have access to piped water inside the yard and 4,6% have no access to piped water. Table 2.2.2 below shows the current household trends in the Municipality.

Household trends (source s statistics South Africa, 2011)

Enumeration type	Figures and percentages
Number of households	75,634
Average household size	4,1
Female headed households	46,1%
Formal dwellings	85,6%

Education profile

The attainment of education is a key indicator of a developing society. The level of education of a society influences its welfare through its indirect influence on health, fertility and life expectancy. in Thembisile, of those aged 20 years and older, 18,3%

have completed some primary school, 32,4% have some secondary education, 26,2% have completed matric, and 5,2% have some form of higher education, while 18% have no form of schooling. considering that the labor absorbing market requires at least some level of skilled labour for decent work, the Municipality's population is largely unskilled with only 5,2% of the population having some form of higher education and training. This therefore, further exacerbates unemployment rates.

Highest educational levels

Group	Percentage
No schooling	2,6%
Some primary	44,8%
Completed primary	6,5%
Some secondary	33%
Completed secondary	11,7%
Higher education	1,3%
Not applicable	0,1

Employment profile

About 97 744 people are economically active (employed or unemployed but looking for work), and of these, 37% are unemployed. of the 48 741 economically active youth (15 – 34 years) in the area, almost half (49, 4%) are unemployed. the unemployment rate in the Municipality is currently standing at 37% with the female population accounting for most of the unemployment status. the loss of jobs and the decline in new job opportunities in neighbouring urban areas such as Witbank, Middelburg and Pretoria exacerbate the unemployment rate.

Employment status	Number
Employed	61 605
Unemployed	36 139
Discouraged work seeker	13 477
Not economically active	84 188

Source: Statistics South Africa, 2011

Income categories

The main labour absorbing markets in the Municipality are social services, business services, retail, trade and agriculture. These markets provide the basis for employment and income within the Municipality and suggest that the Municipality must concentrate on labour intensive programmes and skills development when rendering services. Approximately 13, 8 % of the households within the Municipality have no income and more than 50% of the households earn less than r 50 000 per annum.

Household income

Income	Percentage
None income	13,8%

R1,228,801 - R2,457,600	0,1%

R2,457,601+	0,1%

Economic analysis

The City of Tshwane and areas such as Bronkhorstspruit and Witbank provide a regional function to areas in Thembisile (e.g. trade services, banking, manufacturing, storage, transport, etc.), because of its size and level of sophistication. The economy is unable to generate a significant number of direct employment opportunities for the local communities. The economies of surrounding townships and rural areas comprise mostly of informal activities and largely serve the immediate consumption needs of local people.

The Municipality is further characterised by limited job opportunities and high levels of unemployment and illiteracy. As a result, there are very limited industrial activities and high levels of dependency and poverty. The dependency on neighboring towns and cities to provide job opportunities has necessitated a culture were a significant amount of the population commutes on a daily or regular basis to areas such as Tshwane, Ekurhuleni, Johannesburg and Emalahleni.

Economic activities within the Municipality are dominated by public services and informal trade particularly those found at main intersections in Moloto, Kwamhlanga, Tweefontein, Verena and Kwaggafontein. The Municipality also has potential for mining, agriculture and eco-tourism. The Municipal area is largely suitable to agriculture, both for ploughing and stock farming. The indigenous knowledge of communities within the Municipality should also be sustained. These include knowledge and skills in bead work, traditional painting, weaving, and grass work.

The small industrial parks that were developed by the Kwandebele government are now in disuse. There is a need for the Municipality to resuscitate these small industrial parks in order to contribute to sustainable employment within the Municipal area.

Employment status comparison with district and province

Area	Employed	Unemployed	Discouraged work seekers
Thembisile	61 611	36 141	13 476
Nkangala	355 478	152 250	42 554
Mpumalanga	969 771	448 126	150 844

Economic sectors and activities

Agriculture
Apart from the urban settlements highlighted above, the rural parts of the Thembisile Hani Local Municipality are predominantly utilized for agricultural purposes. The agricultural land towards the east of Verena is predominantly utilized by large scale farmers while the agricultural land to the west of Verena in the Thembisile Hani area is utilized by local and emerging farmers. Extensive agriculture, particularly cattle and game farming is the predominant form of farming.

Mining

There are currently limited mining activities occurring in the southern portions of the Municipality along the R568 road. A number of external stakeholders have shown interest in developing mining opportunities within the Municipality.
Tourism

The tourism attraction sites in the Municipality include the Zithabiseni holiday resort in the Mabusa nature reserve (to be restored to its former glory) and the main tourism node: The Kgodwana village and Loopspruit winery at Schoongezicht, just east of the R568 between Kwamhlanga and Ekangala in the south.

Trade and local business

The economic activity around the intersection of routes R568 and R573 in the vicinity of Kwamhlanga represents the highest order activity node in the Municipality this is probably the most strategic intersection in the entire Municipal area, and it is surrounded by a fairly large number of households (formal and informal). The result is a fairly high concentration of economic activity with a variety of shopping facilities (formal and informal), a taxi rank, and community facilities which include, amongst others, the Solomon Mahlangu stadium and the former Kwandebele government offices.

The second most significant activity node in the Thembisile Hani area is found in Kwaggafontein b at the intersection between route R573 and the link road between Kwaggafontein and Verena where a large shopping Centre (Kwaggafontein Mall) exists. The Thembisile Hani Local Municipality offices are also located in this precinct.

There are about five other emerging/secondary activity nodes that can be distinguished in the Thembisile Hani area: the first is in the vicinity of Moloto, the second at Enkeldoornoog B, the third one at Vlaklaagte 2, the fourth at Matheyzensloop to the North, and the fifth at Verena around the intersection between routes R25 and R544 in the southern parts of the Thembisile Hani Local Municipality. These are all smaller nodes (second order) that are still in the process of development, and comprise a mixture of formal and informal retail, commercial and service industry activities.

Job creation initiatives

The Municipality must focus on maximizing its contribution to job creation, by ensuring that service delivery and capital projects implementation use labor intensive methods wherever appropriate. The Municipality furthermore supports job creation initiatives through the community works programme and the pew programmes.

Social analysis

Integrated and sustainable human settlements and housing

The lack of housing has been highlighted as one of the key challenges facing communities during many community outreach meetings. A housing survey conducted in 2009 indicated a huge backlog in housing delivery. Many people within the Municipality live in informal houses (mud houses and shacks) which are either too old to be inhabited or a structurally weak and are thus vulnerable to being destroyed by bad weather (storm/rain during the summer). The housing survey revealed that there was a housing backlog of about 9764 units, and there are currently no recent statics to gauge whether or not this backlog has increased or subsided.

The unavailability of an integrated human settlements plans and the retention of land for integrated human settlements have over time resulted in the eruption of informal settlements in almost all the Municipal areas. This is exacerbated by the allocation of land by some traditional authorities without having considered the necessary impact.

The Municipality has also participated in housing delivery programmes with national and provincial departments of human settlements over the years. The programmes that were used to fund some of the housing development projects in the Municipality include:

- Projects link programme (Greenfields programme)
- Peoples housing programme
- Community based rural subsidy programme
- Disaster/emergency programme
- Community based individual programme

Health

Thembisile is served with health care facilities such as clinics and visiting points. The following health facilities are provided within the Municipality:

Facility name	Location	Number
Kwamhlanga hospital	Kwamhlanga	1
Community health center (24 hour service)	Buhlebesizwe / Vlaklaagte 2, Kwaggafontein, Moloto, Verena, Kwamhlanga and Thembalethu	6
Clinics (8 hour service)	Empilweni, Gemsbokspruit / Mzimuhle, Goederede, Vlaklaagte 1, Kameelpoortnek, Tweefontein C, Tweefontein D, Tweefontein A, Tweefontein M, Vriesgewacht,, Tweefontein H, Boekenhouthoek/ Zithabiseni and Kwagga A, Tweefontein G clinic	15
Mobile clinics	Verena CHC mobile, Thembalethu CHC mobile, Kwaggafontein CHC mobile and Moloto CHC mobile table: 37 time table for mobile clinics	4

Both primary and secondary health care facilities are problematic in certain areas due to limited resources, which make it difficult to ensure that all the communities are provided with the minimum acceptable levels of health services. Most of the clinics do not provide a 24-hour service due to lack of staff and resources, but the Municipality is fairly well served with health facilities.

Sports, Art and Culture

Thembisile Hani Local Municipality has two stadiums namely, Solomon Mahlangu stadium and the Kwaggafontein stadium, located in Kwamhlanga and Kwaggafontein respectively. The Solomon Mahlangu stadium has an array of facilities to support different sporting codes including netball, tennis, basketball and boxing. In order to fortify the potential of the sporting hub all sporting facilities in the vicinity of the stadium should be upgraded, maintained and integrated to the existing hub. the regional sport and recreation master plan conducted for the Nkanngala District Municipality in 2003 provides an assessment of the type of facilities currently in the Municipal area (e.g. soccer, netball, athletics etc.), together with their location and condition. (See Municipal SDF for further detail). The four libraries in the Municipality need to be maintained and furnished with books in order to encourage the community to read and write. There is a need for a mobile library needed in Loopspruit.

Some of the challenges relating to sport, arts and culture include:

- Lack of a funding model for the naming, renaming and signage of geographical features, streets, heritage sites and settlements;
- Heritage sites and tourist attraction sites in the Municipality are not formalised and promoted;
- Shortage and minimal access to sporting facilities by the local community;
- Sport committees at ward level exist but are dysfunctional;
- There is a need for an additional community gymnasium to encourage the wellness of community;
- The community gymnasium facility at Kwaggafontein stadium need to be professional run;
- The lack of art and development centre

Telecommunication and postal services

There are four post offices within the Municipality. These are located at Kwaggafontein, Verena, Kwamhlanga and Somarobogo. There were 24 lobby post boxes serving the community, two were removed from Verena and one from Somarobogo by the South African post office. These where removed because of the ineffectiveness of the service and were consequently replaced by street delivery service. The street delivery system might be effective but might be hindered by the lack of street names and proper house numbering. The Municipality and the post office must develop the mechanism of

ensuring that farm communities have access to this service. On average the Municipality is well serviced with telecommunication services including cellphone networks. Approximately 68, 2% of the households reported that they had access to telephone facilities at home or nearby, while 27, 8% had access to a cell phone only. Only 1, 4% of the population had no access to any form of telecommunication.

The following problems have been raised by the community:

The delivery of letters is delayed due to contradicting stand numbers.

Public transport

Most of the residents of the Municipality work in Gauteng and commute to Tshwane and the surrounding areas on a daily basis. Buses and taxis are used as a staple mode of transport to work. This makes the R573 (Moloto road) very busy during peak hours and poses a higher risk of motor car accidents. Transport infrastructure in the form of bus/taxi terminals are also not adequately provided to cater for the business. Existing infrastructure is dilapidated and needs to be restored or upgraded. The public transport traffic volumes put considerable strain on the road infrastructure.

Moloto rail corridor development initiative

The Moloto rail corridor development initiative was launched at national and provincial government level and enjoys the full support of the Nkangala District Municipality and local Municipalities in the district. The main focus of the initiative is to replace the bus commuter system along the Moloto road with a rail commuter system. The objective is to provide safer, faster and more efficient rail transport, while buses and taxis will be used as part of a feeder system to the railway stations along the Moloto rail corridor.

The railway line and stations will form the basis for the nodal system, which will be used as a tool to promote the development of retail and community facilities at stations. Stations will be developed in accordance with the concept of transit orientated development, which promotes high density, mixed land use within walking distance from stations. These toads will create the critical mass required to stimulate viable economic activity. Through careful planning, a range of community services can be provided along the railway line, ensuring that the community has access to a full range of community services through use of the railway system.

Chapter 1

1.3. SERVICE DELIVERY OVERVIEW

SERVICE DELIVERY INTRODUCTION

The Municipality provided communities with potable water and sanitation. The portable water is purchased from three external water source and the Municipality has recently commissioned the Bundu Weir source which its own by the Municipality. The water and sanitation systems are operated and maintained according to the blue and green drop requirements. The Municipality is committed to achieve blue and green drop status in future.

The Municipality provides waste management services that include waste collection, street cleaning, clearing of illegal dumping, health care risk waste management. Regular solid waste collection service is provided to business, institutions and households within the jurisdiction of the Municipality. Waste collection from residential premises is carried out on fortnight basis. The growing Municipal population is exacerbating the demand on resources and services, and increasing the generation of waste to meet many of these demands.

The Municipality has recorded the below amount of services and the receipt of the water quality

- Provided 64 151 households with access to basic water
- Provided 28 312 households with access to water through water delivery
- Provided 67 404 households with access to basic refuse removal
- Provided 82 983 households with access to basic electricity
- Provided 2 446 households with access to basic sanitation (water borne system)
- Provided 64 151 households with access to free basic water (6 kl)

CHALLENGES

- The provision of free basic electricity in Thembisile Hani Local Municipality where Eskom is the supplier.
- No proper indigent register
- Community of Thembisile Hani Local Municipality requires water borne sanitation system and not the VIP toilets anymore
- Inadequate and inconsistent water supply
- Shortfall of 36.1 mega litres per day in water supply water supply
- Lack of own water source
- Inadequate water storage in Moloto
- Huge backlog on gravel roads
- High level of informal settlements mushrooming rapidly which add to the already housing

1.4. FINANCIAL HEALTH OVERVIEW

2022/ 2023 Operating Ratios (adjusted budget)	
Detail	**%**
Employee Cost	17%
Councillors Cost	3%
Repairs & Maintenance	2%
Finance Charges & Depreciation	8%
	T1.4.3

LIQUIDITY RATIO

Liquidity ratio for 2021/ 2022 is 5:4 and 2022/ 2023 is 2.73

COMMENT ON OPERATING RATIOS

Employee costs is within the acceptable norm of approximately 14.80% plus 2.77% for Councillors costs which is equals to 17.57% to total operating cost. Repairs and maintenance constitute 4.0%. Although the percentage is below the norm, there are no major repair and maintenance backlogs. Finance charges and depreciation is 19.04% to total operating cost. This medium percentage informs that the Municipality is in a position to take up additional external funding.

%	91%	96.96%	97.71%

1.5. ORGANISATIONAL DEVELOPMENT OVERVIEW

Thembisile Hani Local Municipality has an organizational structure which is aligned to the IDP and is reviewed annually to ensure operational effectiveness.

The organogram has the following departments:

- Department: Municipal Manager's Office
- Department: Corporate Services
- Department: Finance Services
- Department: Technical Services
- Department: Social Services
- Department: Planning and Economic Development

The Municipal Manager and all Managers have signed employment contracts and annual performance agreements

The percentage of vacant posts on the Municipality's organogram is at 9.5% by the end of the financial year.

The major priority for the Municipality in terms of organisational development relates to organisational reengineering wherein the Municipality has contracted a service provider on a multiyear agreement to undertake this process. The service provider is expected to assist the Municipality in developing relevant job descriptions for each employee, assisting the Municipality in conducting the job evaluation for the purpose of the proper grading of the Municipality and embedding and cascading Performance Management System to all levels. The second priority in the continuous capacity building of Municipal employees in terms of the Municipal finance under the MFIP programme as well as other capacity building initiatives for other employees. The Municipality's record management unit plays an important role in the affairs of the Municipality in line with the Archives Act of South Africa Act no. 43 of 1996. Another development for the Municipality was the use and adoption of GRAP standards by the finance department to guide on the accounting standards and the adoption of mSCOA that the Municipality is currently using.

1.6. AUDITOR GENERAL REPORT

As required by section 188 of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996) and section 4 of the Public Audit Act, 2004 (Act No. 25 of 2004) (PAA), the responsibility of the Auditor General is to express an opinion on the Municipality's financial statements based on conducting an audit in accordance with International Standards on Auditing.

For the financial year (2022/ 2023) Thembisile Hani Local Municipality received unqualified with mattares opinion.

1.7. STATUTORY ANNUAL REPORT PROCESS

No	Activity	Timeframe
1	Consideration of Next Financial Year's Budget and IDP Process Plan. 19	Make Public Approved Budget And IDP	June
20	Finalize SDBIP And Performance Agreements For Next Financial Year	
21	Make Public SDBIP And Performance Agreements	July

COMMENT ON THE ANNUAL REPORT PROCESS

It is necessary that the Municipality derives maximum benefit from its efforts in submitting reports. Such benefits are typically obtained in the form of being able to compare and benchmark against other Municipalities and to learn from the feedback mechanisms.

The Annual Report process flow provides a framework for the Municipality to follow in completing various reports within each financial year cycle. It is recommended that Municipal Manager study this process flow and ensure that reports are submitted timeously. If the process flow is followed, the Municipality should be able to provide an Unaudited Annual Report in August of each year, which is consistent with the MFMA.

One of the advantages of compiling an Unaudited Annual Report in August is that it can be used to influence the strategic objectives indicated in the IDP for the next financial year as well as the budgetary requirements related to each vote.

An Unaudited Annual Report submitted in August will further provide the Municipality with an opportunity to review the functional areas that received attention during the current financial year and take the necessary corrective actions to align the IDP and budget to other priority areas needing attention.
The Annual Report of a Municipality must be tabled in the Municipal Council on or before 31 January each year (MFMA section 127). In order to enhance oversight functions of the Council, this must be interpreted as an outer deadline; hence the Municipality must submit the Annual Report as soon as possible after year end, namely, August. The entire process is concluded in the first or second week of December for all Municipalities, the same year in which the financial year ends and not a year later, as is currently the case. It is expected that effective management of performance will also result from this change.

The Annual Report must be aligned with the planning documents and Municipal budget for the year reported on.
This means that the IDP, budget, SDBIP, in-year reports, Annual Performance Report and Annual Report should have similar and consistent information to facilitate understanding and to enable the linkage between plans and actual performance.

The above can only occur if the Municipality set appropriate key performance indicators and performance targets with regards to the development of priorities and objectives in its IDP and outcomes (MSA s41). This requires an approved budget together with a resolution of approving measurable performance objectives for revenue from each source and each vote in the budget (MFMA, s24).

The Annual Report content will assist Municipal Councillors, residents, oversight institutions and other users of Annual Reports with information and progress made on service delivery. It must align with the Integrated Development Plan (IDP), budget, Service Delivery and Budget Implementation Plan (SDBIP), and in year reports. the contents will also assist with the annual audit other key aspect of the reform in combining the relevant information into the new Annual Report format will assist the Municipality to streamline operations and processes through combined Committees, reduce costs, time and effort. There will be a limited need for the Municipality to have different Committees to deal with financial and non-financial related matters.

Chapter 2

CHAPTER 2 – GOVERNANCE

To govern is to exercise political, economic and administrative authority to manage the nation's affairs. Governance is the complex mechanisms, processes and institutions through which citizens and groups articulate their interests, exercise their legal rights and obligations, and mediate their differences.

The political and administrative components of Council maintain a sound working relationship by ensuring respect of procedures and protocols. Communities as an interest group in Municipal affairs participates through Public Participation mechanisms and processes in the decision making systems of Council.

This includes interaction with the stakeholders in shaping the performance of the Municipality in order to enhance a healthy relationship and minimizing conflict.

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

Political governance ensures regular communication with the community at large by means of Municipal outreach's, IDP and budget consultations. This ensures that the community participates in identifying needs and make inputs on the performance of the Municipality. This process ensures healthy relations with the community and minimizes conflict. Administrative governance ensures transparent administration, regular feedback to the community, compliance to the required rules, processes and laws by which Council is operated, regulated and controlled.

The political structure of Thembisile Hani Local Municipality comprises of the Executive Mayoral System that consists of:

Executive Mayor
Hon. Speaker
Chief whip
MPAC Chairperson
Mayoral Committee
Councillors

The Municipal Manager is the administrative head and acts as a link between the politicians and the administration. The Municipal Manager is supported by the following section 56 managers appointed in terms of the Municipal Systems Act:

Manager Corporate Services (MCS)
Manager Technical Services (MTS)
Manager Social Services (MSS)
Chief Financial Officer (CFO)
Manager Planning and Economic Development (MPED)

2.1 POLITICAL GOVERNANCE

INTRODUCTION TO POLITICAL GOVERNANCE

MFMA section 52 (a): The Mayor must provide general political guidance over the fiscal and financial affairs of the Municipality.

The Executive Mayor is the political head of the Municipality. The position of Speaker is a full-time post, and takes responsibility for the running of Council meetings. The speaker is the chairperson of the Council. The office of the chief-whip is established to create synergy and to maintain discipline among Councillors from various political parties. The role of the chief-whip of the Council covers both the political and administrative domains of Council with emphasis on the political aspect. The chief whip deals with the well-being and attendance of all Councillors.

Chapter 2

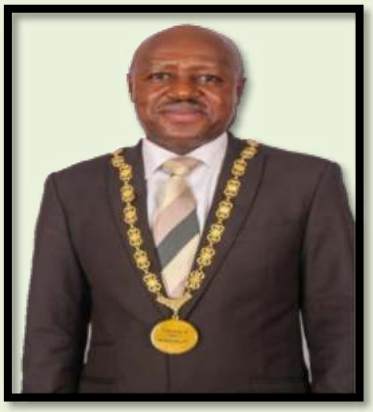

The Municipal Council consists of 32 Ward Councillors and 32 PR Councillors. The Council meetings are governed according to the approved Standing rules of order. Council has established the Mayoral Committee system with section 79 and 80 Committees who makes recommendations to Council.

Section 79 Committees of the Council report directly to Council, in accordance with the terms of reference of such Committees approved by Council. This Committee provide general oversight and monitor the activities in the Municipality over both the administrative and executive arms of the Municipality. This section 79 Committees are chaired by an Ordinary Councillors other than members of the Mayoral Committee

Section 80 Committees assist and report to the Executive Mayor. The Executive Mayor has appointed the Mayoral Committee members as chairpersons for each of the Committees.

The Municipality is using Shared Audit Committee from Nkangala District Municipality. The Audit Committee meets a minimum of four times per year and is an independent advisory body that advises Council, Political Office-bearers, the Accounting Officer and the Management of the Municipality on matters related to Internal Control, Internal Audits, Risk Management, Accounting policies and adequacy reliability and accuracy of financial reporting and information, performance management, effective governance compliance with the MFMA, the division of revenue Act and provide comments to Municipal Public Accounts Committee (MPAC) and Council on the Annual Report.

MPAC is an oversight Committee of council established in terms of Section 79.A of the Municipal Structures Act, and the position of MPAC Chairperson is a full-time post. The MPAC comprises of non-executive Councillors, with the specific purpose of providing oversight over the executive functionaries of Council to ensure good governance in the Municipality. MPAC also make comments and recommendations on the Municipal Annual Report for council consideration and adoption through the oversight report.

	**EXECUTIVE MAYOR** **Cllr. L.J. Dikgale (**Political Head) The Executive Mayor identifies the needs of the Municipality, review and evaluate those needs, in order of priority, recommend to the Municipal Council strategies, programme and services to address priority needs through the Integrated Development Plan, and estimates the value of revenue and expenditure, taking into account any applicable national and provincial development plans, recommends and determine the best way to deliver strategies, programmes and services to the maximum benefit of the community. The Executive Mayor also performs a ceremonial role.
	**SPEAKER** **Cllr. M.P. Msiza (**Chairperson of Council) Presides at meetings of the Council. Maintain order during meetings and ensure that meetings are conducted in accordance with the rules of order of the Council.

	**CHIEF WHIP** **Cllr. T.E. Motanyane** Manage Councillors and maintain discipline in Council The chief whip ensures that Councillors are accountable to the communities, that code of conduct is respected and adhered to by all Councillors. The chief whip ensures discipline during Council and Committee meetings. She facilitates political debates, workshop for all Councillors.
MEMBERS OF MAYORAL COMMITTEE:	
	**MMC TECHNICAL SERVICES** **Cllr. E.M. Malekane** Provisioning of infrastructure development, maintenance and service delivery to ensure sustainable services to all communities.
	**MMC FINANCE SERVICES** **Cllr. J.E. Mthimunye** Provide and manage financial services to ensure financial viability, compliance and reporting.
	**MMC LOCAL ECONOMIC DEVELOPMENT** **Cllr. L.X. Mtsweni** Ensures that the LED unit`s mandate of coordinating LED related activities is realized and the push towards the eradication of poverty and job creation fulfilled.

	**MMC SOCIAL DEVELOPMENT SERVICES** **Cllr. N.T. Skhosana** Render integrated community services to all its communities.
	**MMC CORPORATE SERVICES** **Cllr.T.L. Mabena** Provides Corporate Services to ensure efficient support of organisational processes.
	**MPAC CHAIRPERSON** **Cllr. L.M. Tshabangu** MPAC provides oversight over the executive functionaries of Council to ensure good governance in the Municipality.

Councillors

Councillors provide a vital link between communities they serve and the Municipality. They are responsible for representing the needs and interests of the people they represent, regardless of whether they voted for them. Although Councillors are not usually full time professionals, they are bound by a code of conduct. The Councillors serve for five years.

Chapter 2

Thembisile Hani Local Municipality comprises 32 Ward Councillors and 32 PR Councillors. See **Appendix A** where a full list of Councillors can be found (including Committee allocations).

Award Councillor has to balance the expectations of his/her Ward and that of their political party. the Ward Councillor is the chairperson of the Ward Committee, responsible for convening the constituency meeting to elect Ward Committee members, calling Ward Committee meetings, ensuring that a schedule of meetings is prepared, handling queries and complaints in the Ward, resolving disputes and making referrals of unresolved disputes to the Municipality, ensuring that the Ward Committee does what the Municipality expects about reporting procedures.

See **Appendix B** which sets out Committees and Committee purposes.

The Ward Councillors should be fully involved in all community activities that the Ward Committee is engaged with and communicate the activities and meetings schedules to the PR Councillors. PR means proportional representation, where voters vote for a political party not an individual candidate within a party. The ballot paper just shows the political parties. The party gets the same share of the number of Councillors as the share of total PR votes it got. The party decides which members fill those Councillor places. A PR Councillor is allocated to a Ward and provides support to the Ward Councillor in things that relate to the Ward or the Ward Committee.

A PR Councillor handles queries and complaints in consultation with the Ward Councillor, assist with resolving of disputes and making referrals, help with implementation of projects, support the Ward Councillor without replacing the Ward Councillor, attend Ward Committee meetings, constituency meetings and special meetings

Political decision-making

The legal framework empowers the Executive Mayor to provide political leadership for policy and outcomes, and holds the Municipal Manager and other senior managers responsible for implementation and outputs.
The Executive Mayor presides at meetings of the Mayoral Committee and performs the duties, including any ceremonial functions, and exercises the powers delegated by the Municipal Council except those powers that are reserved by the constitution of the republic of South Africa and other applicable Regulations.

The Executive Mayor appoints members of the Mayor Committee to assist with carrying duties in terms of section 80 of the Municipal System Act. The Executive Mayor reports to Council on the execution of his delegated powers.

Council is chaired by the speaker and the Executive Mayor chairs the Mayoral Committee meetings and executive duties through Council resolutions, delegations and Committees.

Council has also formed section 79 Committees which meet monthly except the Audit Committee and MPAC, which normally meet quarterly. This section 79 Committees are chaired by an Ordinary Councillors other than members of the Mayoral Committee. Their main function is to monitor the activities of the members of the Mayoral Committee.

The administration is charged with the responsibility to implement Council resolutions and to submit monthly progress reports to the relevant MMC'S who in turn report to the section 79 Council Committees. All Council resolutions are monitored and implemented.

2.2 ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

MFMA section 60 (b): The Municipal Manager of a Municipality is the accounting officer of the Municipality for the purposes of this Act and must provide guidance on compliance with this Act to political structures; political office bearers, and officials of the Municipality and any entity under the sole or shared control of the Municipality.

The administration is led by the Municipal Manager (MM), who is appointed in terms of section 54a of the Municipal Systems Act. The Municipal Manager is employed on a contract basis, which includes a contract of employment, an annual performance agreement with performance objectives and targets and procedures for evaluating performance. The Municipal Manager is the accounting officer of the Municipality.
Together with other Managers the MM leads the administration by amongst others implementing Council resolutions, advising Council and its Committees, lead the IDP and budget planning and implementation processes. There are functions that are delegated by Council to the Municipal Manager, who in turn sub-delegates certain functions to the CFO and other managers. Under their leadership, Municipal officials attend community consultative meetings, report in management meetings on plans and progress in addressing community issues.

MANAGER PLANNING AND ECONOMIC DEVELOPMENT

Mr M.S. Tsebe

Development and Town Planning Services (DTPS) is one of the key departments within Thembisile Hani Local Municipality with the sole purpose of building the economic capacity of our local area and ensure proper spatial planning for development. Integrated Development Planning is one of the critical functions of the Department.

Key performance area of the department:

- Investment Promotion
- SMME Development
- Job Creation through CWP and EPWP
- Development and support of Local business in Agriculture, Tourism, Manufacturing and Mining sectors.
- Town and Regional Planning
- Geographic Information System
- Building Inspection
- Integrated Development Planning.

All the above mentioned positions are section 56 positions.

COMPONENT B: INTERGOVERNMENTAL RELATIONS

INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

Thembisile Hani Local Municipality, relates to the other spheres of government and organised local government bodies through the intergovernmental policy framework, communities as an interest group in Municipal affairs, participates through Public Participation mechanisms and processes in the decision making system of Council.

2.3 INTERGOVERNMENTAL RELATIONS

The Constitution (1996) states that '*government is constituted as national, provincial and local spheres of government which are distinctive, interdependent and interrelated*' (section 40(1)). The '*distinctive*' element refers to the autonomy enjoyed by the spheres; that is, the degree to which each sphere is the final decision-maker on a particular matter that falls within its area of competence.

The creation by the constitution of this decentralised governance system, which comprised the three distinct but inter-related spheres of government, also gave rise to the need for a systematic system of IGR to give effect to the principles of cooperative government.

To realise these principles, the IGRF Act was promulgated on 15 August 2005. The Act provides for an institutional framework for the three spheres of government to facilitate coherent government, effective provision of service, monitoring implementation of policy and legislation, and realization of developmental goals of government as a whole.
In spelling out the principles of cooperative government and IGR, the constitution binds all spheres of government and organs of state in each sphere of government to three basic principles:

(i) **A common loyalty to the Republic as a whole.** This means that all spheres are committed to secure the well-being of the people of the republic and, to that end, must provide effective, transparent, accountable and coherent government for the republic as a whole. This is the object of cooperative government.

(ii) **The distinctiveness of the spheres should be respected.** A sphere must remain within its constitutional mandate, and when exercising those powers, must not do so in a manner that encroaches on the geographical, functional or institutional integrity of another sphere, except where specifically directed otherwise.

(iii) **The spheres of government must take concrete steps to realize cooperative government** by –

a) fostering friendly relations;
b) assisting and supporting one another;
c) informing one another of, and consulting one another on, matters of common interest;
d) coordinating their actions and legislation with one another;
e) Adhering to agreed procedures; and avoiding legal proceedings against one another.

PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The Executive Mayor and the Municipal Manager represent and participate in the Premiers coordinating Committee, where issues affecting the province and the Municipalities are discussed. The speaker and officials in the office of the speaker attends and participate in the provincial speaker's forum, provincial Ward Committee forum and the provincial anti-corruption forum.

There are expanded public works programme projects in progress for cleaning the environment that will be registered as projects at the department of Public Works. Furthermore, the department of Environmental Affair appointed 270 EPWP's and department of Corporative Governance and Traditional Affairs appointed 60 EPWP's for clearing illegal dumping sites.

DISTRICT INTERGOVERNMENTAL STRUCTURES

Elected Councillors and officials represent the Thembisile Hani Local Municipality in neighbouring Municipalities such as Nkangala District Municipality, where issues of mutual interest such as the IDP and budget are discussed and implemented.

Nkangala District Municipality provide support to Thembisile Hani Local Municipality by appointing the Shared Audit Committee to advice council of the municipality and management at large, there's also a district Risk and Audit forum developed by district to allow auditors and risk officers a platform to share knowledge on matters of Risk and Audit and resolutions of that forum are escalated to District Municipal Managers forum.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

The introduction of Public Participation office has become a catalyst in ensuring that izimbizo and outreach meetings are meaningful to communities. this office has been strategically introduced to ensure that izimbizo's and outreaches constitute a communication approach that will underpin participatory democracy. The office is also central to governance as it brings government closer to the people. It is further to ensure that izimbizo's and outreaches remain a unique platform for communities to raise issues, share views and build strategic partnerships between the Municipality and its constituencies.

Thembisile Hani Local Municipality has established Ward Committees as a mechanism for public accountability and Public Participation. The Ward Committees assist Ward Councillors in the execution of their duties, which includes the handling of complaints and feedback to communities. Provincial government has also provided community development workers to the Municipality, to assist with the dissemination of information and the mobilisation of communities in government programmes.

Ward Councillors convene four (4) mandatory ward community meetings per annum and as and when the need arises to discuss matters affecting the community and give feedback on reported matters. The Executive Mayor undertakes a Mayoral outreach programme which provides a platform for further interaction and engagement with the communities on regular intervals.

2.4 PUBLIC MEETINGS

The Executive Mayor led consultative meetings in all Wards during the month of April and May 2023 as part of the strategy for ensuring adequate Public Participation in the preparation for the compilation of the IDP, budget and tarffis for the 2023/2024 financial year.

The Municipal Systems Act provides for Municipalities to establish structured mechanisms for Public Participation in order to ensure community participation in all the affairs of the Municipality. The Act stipulates that the Municipality must develop and adopt a community communication strategy/plan. The strategy should serve as the guiding tool on how the community is engaged to give their inputs and suggestions on services, projects and programmes offered by the Municipality. In order to comply with the Municipal Systems Act, Thembisile Hani Local Municipality will have to develop a revised Public Participation policy/strategy in the coming financial year.

The Municipality like any local government has a three legged structure, which is integrated and interdependent. The legs of the Municipality are the Council, administration and the community. The cohesion of these parts underpins a successful developmental local government.
The Municipality needs a formal consultation, participation and communication policy/strategy, special attention with regard to the development of the policy/strategy are the following:

- Continuation the Mayoral outreach programme, which affords local leaders the opportunity to interact with communities on issues of service delivery.
- Continued engagement of sector departments and utilities in the various processes and forums for Integrated Development Planning (IDP).
- utilisation of the various mechanisms to communicate, such as local newspapers where available, local radio stations where available, flyers, Ward Councillors, community development workers (CDW's), Ward Committees, account statements and loud hailing.
- Ongoing negotiations with provincial departments that no project will be implemented in the Municipal area of jurisdiction prior to consultation with the Council.
- Ongoing bi or multi-lateral processes around a number of developmental challenges and initiatives such as the youth agriculture and the Moloto rail corridor.

The local government Municipal systems states that "a Municipality through appropriate mechanisms, processes and procedures established in terms of chapter 4, must involve the local community in the development, implementation and review of the Municipality's Performance Management System, and, in particular, allow the community to participate in the setting of appropriate key performance indicator and performance targets for the Municipality". thus the Municipality has held its IDP Indaba in May 2017 to ensure that communities are afforded the opportunity to set the performance target for the Municipality. in attendance among others were:-

- Councillors
- Community Development Workers
- Ward Committees
- Traditional Leadership
- Traditional Health Practitioners (THP)
- Interfaith Organisation
- Business Forums
- Religion Formations
- Progressive Youth Structures
- Community Based Care Structures
- Government Departments

Chapter 2

WARD COMMITTEES

In terms of the Municipal Structures Act, (Act 117 of 1998) Municipalities are required to establish Ward Committees to enhance community participation in Municipal development processes. In compliance with this legislative requirement the Municipality has established 32 Ward Committees which are functional. The Ward Committees have since their establishment added much value to Municipal processes by providing inputs from a community perspective. They play a major role in the IDP process, both in terms of highlighting community priorities but also in maintaining constant communication between the Council and the communities. A number of training opportunities were made available for Ward Committee members to augment their capacity. Proportional representative Councillors are deployed in Wards to strengthen participation and communication.

MAYORAL OUTREACH MEETINGS

The following Mayoral outreach meetings were held during the 2022/ 2023 financial year:

Date	Time	Cluster	Wards/Structures	Venue

IDP PROCESS PLAN

IDP PHASES	ACTIVITIES	DATES
Pre-Planning Phase	Before starting the planning process, an IDP process plan must be drawn up. This plan is meant to ensure the proper management of the Integrated Development Planning process. The plan must be set out in writing, in terms of the legislation and must comply with the provisions of the district framework plan in terms of the binding national and provincial planning frameworks, mechanisms and processes stipulated in the framework plan of the district.	All municipalities must adopt their IDP process plans by August 2023 subsequent to the adoption of the district framework plan by the 30 August 2023
Analysis Phase	During this phase information is collected on the existing conditions within the Municipality. When assessing the existing level of development in the Municipality, the level of access to basic services and those communities that do not have access to these services must be identified. Focus must be on the types of problems faced by community in the area and the causes of these problems. The identified problems are assessed and prioritized in terms of what is urgent and what needs to be done first. Information on availability of resources is also collected during this phase. Priority issues highlighted during the 2015/16 IDP processes will also be revised and confirmed during this phase. Com-munity meetings, stakeholder meetings, surveys, opinion polls and researched information should form the basis of this phase.	This phase should be completed by 31 October 2023
Strategies Phase	Municipalities must begin to contemplate on the best possible strategies to tackle the identified challenges. critical in this process in order to ensure a focused analysis, the municipal vision must be confirmed and development objectives containing clear statements of what the Municipality would like to achieve in the medium term to deal with the problems outlined in the first phase be confirmed. Internal transformation needs, Council's development priori-ties must be taken into account when formulating Council objectives. This process should involve strategic workshops, targeted stakeholder engagements, public hearings, sector provincial and national department's engagements, social partners, interest-based groups and organized civil society. once the Municipality has worked out where it wants to go	This phase should be completed by 31 January 2024

IDP PHASES	ACTIVITIES	DATES
Projects Phase	During this phase the Municipality works on the designs and content/specifications of projects identified during the prior phases. Clear details for each project have to be worked out. Clear targets must be set and indicators worked out to measure performance as well as the impact of individual programmers and projects. The identified projects must have a direct link to the priority issues and objectives identified in the previous phase. Municipalities must ensure engagement of internal technical Committees, possibly with selected key stakeholders. The needs and views of the affected communities must be taken as a priority. The project technical Committees and their subcommittees must be able to distinguish between the strategic Municipal wide development programmes and the localized community-level projects.	This phase should be completed by 31 January 2024
Integration Phase	Thembisile Hani Local Municipality embarked on Mayoral outreach programmer from September to November 2023 in all 32 Wards. Once all projects have been identified, the Municipality must confirm that the identified projects will achieve the desired impact in terms of addressing the identified challenges and are aligned with the objectives and strategies and comply with legislation. the identified programmes/projects will set the pace and direct the trajectory emanating from the overall picture of the development plans of all the stakeholders, including sector departments and social partners	By 28 February 2024
IDP Indaba	amendment of IDP according to comments	By 29 March 2024
Approval Phase	submission of draft IDP to Council road show on Public Participation and publication submissions of IDP to Council for approval and adoption	By 30 May 2024

Summary

For the purpose of reviewing the IDP, Budget and tariffs, the Municipality conducted a series of Public Participation/ Mayoral outreach Izimbizo meetings during the months April and May 2023 to get inputs from stakeholders and communities regarding current service delivery issues and needs. According to the Municipal Systems Act (32 of 2000) the *"Municipality must within 14 days of the adoption of the IDP give notice to the public of the adoption of the plan and that copies of the extracts from the plan are available for public inspection at specified places".* As such a notice was issued inviting communities to give inputs within a period of 21 days after publishing the notice.

Comment on the effectiveness of the public meetings held

Council benefits positively as a result of the above systems, in that consultation is done with the broader community of Thembisile Hani on matters of service deliver

Chapter 2

2.5 IDP PARTICIPATION AND ALIGNMENT

IDP participation and alignment criteria*	Yes/no
Does the Municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPI's, and development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPI's in the strategic plan?	Yes
Do the IDP KPI's align to the section 57 managers	Yes
Do the IDP KPI's lead to functional area KPI's as per the SDBIP?	Yes
Do the IDP KPI's align with the provincial KPI's on the 12 outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes
* section 26 Municipal Systems Act 2000	

COMPONENT D: CORPORATE GOVERNANCE

The scope of corporate governance includes the political, administrative, intergovernmental governance and public accountability and participation to ensure that the Municipality is managed to the required desires of the community within the rules, processes and laws by which the Municipality is operated, regulated and controlled.

The national and provincial outcomes for local government can be seen in **appendix n**

2.6 RISK MANAGEMENT

The Municipality has established a functional Risk Management Unit which is headed by Chief Risk Officer and it strives to maintain an effective, efficient and transparent system of risk management. This unit use the National Treasury risk management framework as a guideline to discharge its day to day responsibilities and operations.
The following risk management related 2022/ 23 policies has been developed and approved by Council in order to intensify the effectiveness, efficiency and transparency systems of risk management within the Municipality:

Risk management policy
Risk management strategy
Risk management methodology
Risk management charter
Whistle blowing policy
Gift policy
Risk appetite and tolerance framework
Anti-Corruption Strategy
Prevention of Fraud and Corruption Policy
Business Continuity Policy
Business Continuity Management Framework

The Municipality is under shared Risk Management Anti-Fraud and Anti-Corruption Committee (RMAFACC) services with Nkangala District Municipality (NDM) which meets on quarterly basis and is chaired by an independent external person. The Committee oversee the risk management and anti-fraud and anti-corruption related matters and ensures that risk assessments are conducted on annual basis, monitoring reports submitted on quarterly basis and risk management related policies are

reviewed and approved by the appropriate structures. The RMAFACC Chairperson further liaise with the Accounting Officer and submit the RMAFACC report to Audit Committee on quarterly basis.

The Top 5 risks of the Municipality are:

1. Inadequate revenue collection.
2. Inadequate fleet management.
3. Land invasion and encroachment.
4. Poor maintenance of road infrastructure.
5. Inadequate provision of water and sanitation services.

2.7 ANTI-CORRUPTION AND ANTI-FRAUD

ANTI-FRAUD AND ANTI-CORRUPTION STRATEGY

The Municipality strongly discourage the activities of theft, fraud and corruption internally and externally. The matters relating to corruption and fraud are monitored by Risk Management Unit and Risk Management Anti-Fraud and Anti-Corruption Committee.

Chief Risk Officer bi-annually conducts anti- fraud and corruption awareness campaigns to educate both Municipal staff members and honourable Councillors about the risks relating to fraud and corruption.

During awareness campaigns stakeholders are encouraged to report any fraud and corrupt related matters and the whistle blowers may remain anonymous and will be protected.

The Anti-Fraud and Corruption Strategy, Fraud Prevention Plan, the Whistle Blowing Policy and Gift Policy has been developed and approved by Council and these documents are aligned to the Prevention of Corrupt Activities Act (POCA) and Prevention and Combatting of Crime Activities Act (PRECCAA) the whistle blowing policy was developed in line with the protected disclosure Act.

Risk Management unit, Internal Audit unit and Legal unit has a vital role to play in ensuring that the Municipality become free from fraudulent and corrupt activities, by conducting preliminary investigations and special Internal Audit assignment on any fraud and corruption reported matters.

Part of the 2023/24 annual risk assessment report included the fraud risk register. The register indicates all the possible risks which relates to fraud and corruption. The register is monitored on quarterly basis together with the operational and strategic risks and the report is escalated to Council through Audit Committee.
Anyone found to have contravened any Act or policy, by being involved in the activities of theft, fraud and corruption is subjected to the disciplinary Committee.

During the month of February 2023 the Accounting Officer has appointed a panel of forensic investigators to assist the municipalities with, amongst others, the investigation into the matters of fraud and corruption for a period of 36 Months.

CONCLUSION

For its success, the risk management framework describes its reliance upon gaining commitment from Top management and Council, establishing the business processes, including assigning responsibilities for change, resourcing, communication, training and reinforcing a risk culture throughout the Municipality.

The implementation of a risk management framework will enable the Municipality to improve its management of risks, and drive performance, i.e. improvement of stakeholder value.

An effective risk management framework will enable Top management to understand the potential upside and downside of actions, and to understand the management of risk in order to raise the likelihood of issues while reducing the likelihood of failure and decrease the uncertainty of overall financial performance.

The risk management framework will assist the Municipality to better allocate risk management resources, provide better performance indicators and monitoring opportunities and improve risk reporting throughout the Municipality.

In addition, the framework will assist the Municipality with identification of unidentified risks, and highlight control gaps and unnecessary and excessive controls, elimination of which will produce cost saving. Such a framework will necessarily present risk awareness throughout the Municipality.

2.8 SUPPLY CHAIN MANAGEMENT

OVERVIEW SUPPLY CHAIN MANAGEMENT

The SCM Policy of Thembisile Hani Local Municipality was adopted by the Council and is reviewed every year along with budget-related policies. In terms of the Supply Chain Policy, Section 6(2)(a), the Council must maintain an oversight role over the implementation of the municipal supply chain management policy. The accounting officer is mandated to report to the council on the implementation of the supply chain management policy on a quarterly basis. The Council ensured that the implementation of the Supply Chain Management policy was carried out in accordance with its mandate on a quarterly basis. The Council ensured that the amended preferential procurement regulations of 2022 would affect the supply chain policy as of January 2023. The contract management committee has been established to monitor the contract register, procurement plan, and progress on the implementation of projects.

The supply chain management unit operates under the supervision of the Chief Financial Officer, led by the Assistant Manager, and operates with one chief accountant, two accountants, and two clerks. Procurement of goods and services in cases of emergencies and where it was impractical to follow the SCM process amounted to R 6 261 267. The increase in the deviation amount is due to the contract for the supply and delivery of fuel being terminated due to non-performance and the deviation for tracking services. The Deviation Report was tabled with the council for noting.

Table 2.8.1 Deviation register as at 30th June 2023

Paragraph 36 of the MFMA Act and regulations states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the accounting officer and includes a note to the annual financial statements. Below is the table of deviations as stated in the annual financial statement.

INCIDENTS OF DEVIATIONS FROM NORMAL PROCUREMENT PROCESSSES (SUB-REGULATION 36 (1) (A) (I) – (V) OF THE MUNICIPAL SUPPLY CHAIN MANAGEMENT REGULATIONS: 2022-2023 FINANCIAL YEAR (SEPTEMBER-JUNE)				
NO	**DESCRIPTION OF SERVICES**	**APPOINTED CONTRACTOR**	**RECACULATED QUOTED PRICE OF APPOINTED CONTRACTOR EXCLUDING VAT**	**RECORDED AND APPROVED REASONS FOR DEVIATION**
1	CIGFARO Conference registration fees	Chartered Institute of Government,	R 51,346.00	Sole Provider of services. CIGFARO is a professional affiliation body, thus a normal SCM process could not be followed for the transaction to source quotations.

		Finance, Audit and Risk Officers		
2	Insurance excess fee for TLB, Speaker and Mayor's vehicles' windscreen	PG Glass Bronkhorspruit	R 8,316.55	Impractical to follow the normal SCM process. The municipal truck was taken in to the service provider that was appointed for repairing and maintaining White Fleet in August, due to the truck being unable to go uphill with the lowbed trailer carrying yellow plant on it. The user department requested to send the truck to Nissan UD Trucks in Middelburg as the company that manufactured the trucks to assist the municpality to resolve the power challenge the operator experienced with the truck.
3	Registration fees for IMPSA Conference 2022	Institute of of Municipal People Practioners of SA	R 23,000.00	Sole Provider of services. IMPSA is a professional affiliation body, thus a normal SCM process could not be followed for the transaction to source quotations.
4	Roadworthiness tests on heavy motor vehicles	Eyethu Roadworthy Centre (Pty) Ltd	R 23,400.00	Sole provider of services. The SP is the only registered and accredited vehicle testing station within the boundaries of Thembisile Hani Local Municipality and is located approximately 25kms away from the municipality's main offices at Kwaggafontein C. Taking into account the proximity of the testing station compared to stations outside the borders of the municipality for the services would result in increased costs due to the additional fuel which will be required for the fleet to reach the testing stations outside THLM borders, therefore a normal SCM process could not be followed.
5	Radio slot for Mayoral Outreach Coverage on local radio station	Flare FM	R 20,544.00	Impractical to follow SCM process. The municipality embarked on the revenue enhancement campaign, therefore two local radio stations within Thembisile Hani municipality were approached to provide live reeds. The municipality could not obtain three quotations as there are only two local radio stations.
6	Repairs and maintenance of heavy plant and machinery (HCD 563 MP)	BB Truck Middelburg	R 59,184.60	The truck was taken to the appointed service provider, Zembeleni Transport and Projects for repairs in August, due to the truck being unable to go uphill with the lowbed trailer that carried yellow plant on it, however the appointed service provider was unable to resolve the defect. The municipality requested to send the truck to Nissan UD Trucks in MIddelburg, as the company is the manufacturer of the truck. The ineffectiveness of the truck had a major impact on the overall service delivery issues as it is used for towing the lowbed trailer which transports municipal yellow plant for service delivery programmes. It was for these reasons that the truck had to be sent to the original manufacturer to resolve the defect.
7	Registration fees	SALGA	R 10,000.00	Sole Provider of services. SALGA is a professional affiliation body, thus a normal SCM process could not be followed for the transaction to source quotations.
8	Risk Management Training for T. Komane, S. Aphane, R. Maila,	The Institute of Risk Management South Africa	R 34,500.00	IMSRA is a professional affiliation body, thus a normal SCM process could not be followed for the transaction to source quotations as they are the sole providers of services.

	N, Kubheka and K. Mamabolo			
9	Radio slot for Mayoral Outreach Coverage on local radio station	Ikutani FM	R 28,500.00	Impractical to follow SCM process. The municipality embarked on the revenue enhancement campaign, therefore two local radio stations within Thembisile Hani municipality were approached to provide live reeds. The municipality could not obtain three quotations as there are only two local radio stations.
10	Supply of fuel	Minozest Trading	R 5,627,555.00	The service provider, Siyafana Thina that was appointed to supply fuel and lubricants for municipal fleet ran out of fuel and was waiting for the supply and delivery thereof. The municipality approached a filling station that is located near the municipality to assist with the supply as the delay in filling up municipal fleet led to a negative impact on service delivery, therefore an emergency arrangement for the procurement was implemented.
11	Procurement of spares and parts for maintenance of municipal equipment	Bell Equipment	R 281,988.00	Bell is the sole provider of services, therefore it was impractical to follow SCM process as the TLB is manufactured by Bell Equipment.
12	Registration	CMAM South Africa	R 14,500.00	Impractical to follow SCM process. The Centre for Municipal Asset Management is an accredited institution that will be hosting a Municipal Leaders Development Programme that will focus on Municipal Asser Managements Strategies and oversight requirements for sustainable service delivery. CMAM is the sole institution that provides the programme which makes it impossible to follow normal SCM processes and source quotations
13	Registration	CIAGOL	R 25,600.00	Sole Provider of services. CIAGOL is a professional affiliation body, thus a normal SCM process could not be followed for the transaction to source quotations.
14	Radio slot for Mayoral Outreach Coverage on local radio stations	Ikwekwezi FM	R 39,433.50	Impractical to follow SCM process. The municipality embarked on the revenue enhancement campaign, therefore two local radio stations within Thembisile Hani municipality were approached to provide live reeds. The municipality could not obtain three quotations as there are only two local radio stations.
15	Registration fees	Dira Sengwe Conference	R 13,400.00	Impractical to follow SCM process for conference registration fees.
TOTAL			**R 6,261,267.65**	

Furthermore, there was no fruitless and wasteful expenditure and unauthorized expenditure that was incurred. The total irregular expenditure amounted to 36,520,302,22. The report was tabled with the Council and reported by the Executive Mayor, Provincial Treasury, and Auditor-General of South Africa. The irregular expenditure was caused by non-compliance with the Preferential Procurement Regulations of 2022 on sub-construction for projects above the value of R30 million. Below is a list of multi-year infrastructure projects that led to a high value of irregular expenditure. The expenditure is reduced due to the changes to the Preferential Procurement Regulations of 2022, wherein the subcontracting requirements for projects exceeding R30 million are no longer applicable.

Table 2.8.2 Irregular expenditure list as at 30th June 2023

IRREGULAR EXPENDITURE FROM 01 JULY 2022-30 JUNE 2023					
Supplier Name	**Total Expenditure**	**Legislation transgressed against**	**Reason for Transgression**	**Services**	**Remarks**
Bidvest Bank	4, 200, 147,57	SCM Reg. 32	Appointed using Regulation 32 instead of Bidding Process	Rental of Fleet	On-going
Kgotso Mokone Traders	5, 339, 020,96	PPR 9(1)	No mandatory subcontracting conditions included in the bid document for tender above R30 Million	Moloto Water Infrastructure	Project completed
Zembeleni Transport	6, 604, 262,06	PPR 9(1)	No mandatory subcontracting conditions included in the bid document for tender above R30 Million	Construction of Sheldon Water Infrastructure Pipelines	Irregular Expenditure up to 15 January 2023 due to Revised Preferential Procurement Regulation effected as at 16 January 2023
DKPB Construction (Pty)Ltd	9, 713, 155,82	PPR 9(1)	No mandatory subcontracting conditions included in the bid document for tender above R30 Million	Upgrading Mabhoko Water Infrastructure	Irregular Expenditure up to 15 January 2023 due Revised Preferential Procurement Regulation effected as at 16 January 2023
Namasango Business Enterprise	3, 786, 103,79	PPR 9(1)	No mandatory subcontracting conditions included in the bid document for tender above R30 Million	Construction of Tweefontein C & DK Water Infrastructure	Irregular Expenditure up to 15 January 2023 due Revised Preferential Procurement Regulation effected as at 16 January 2023
Stickson General Services	6, 877, 612,02	SCM Reg. 28(1)(c)	Municipal rates in arrears for more than 3 months at the time of award	Construction of Entokozweni water infrastructure-Phase 1	Project Completed
Spek Solution	271, 994.00	SCM Reg 42	Lack of monitoring system to track contract expiry date	Tracking Service	Project Ended
Oradimpho Trading Enterprise	1, 365, 546.00	PPR 4(2)	COIDA certificate belongs to another entity	Routine Maintenance	Contract to be terminated
TOTAL	**38, 157, 842.22**				

The procurement plan was developed for operational and capital projects, and the contract management committee ensured that projects were advertised and awarded in the second quarter to ensure there was 100% spending on grants, e.g., MIG grants. The procurement plan was as per the IDP. All planned capital projects for the financial year were appointed based on competitive bidding processes, not on deviations.

The contract management committee ensured that there were interdepartmental relations in the implementation of the procurement of goods, works, and services, the monitoring of the contract register, and the monitoring of projects. The council ensured that local contractors were appointed to different panels of disciplines to ensure services were delivered to the community. The accounting officer appointed sixty contractors, including service providers, of whom 70% are local contractors.

2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES

The Municipality has conducted public satisfaction survey through public participation meetings to gauge public satisfaction on the services provided by the municipality. These participation meetings to some extent were a mirror with which to gauge public satisfaction on the service provided by the Municipality. These meetings serve to address some of the constraints and challenges the Municipal Council and communities face. About 15 Mayoral outreach meetings were held during 2022/ 2023 financial year.

2.12 AUDIT AND PERFORMANCE COMMITTEE

ANNUAL REPORT OF THE AUDIT AND PERFORTMANCE COMMITTEE (REPORT FROM THE CHAIRPERSON OF AUDIT AND PERFORMANCE COMMITTEE)

We are pleased to submit the report of the Audit and Performance Committee (APC) for the year ended 30 June 2023

1. Background

Thembisile Hani Local municipality amongst other local municipalities is under Nkangala District Shared audit and performance committee, The APC was established in terms of section166 of the Municipal Finance Management Act (MFMA), Act 56 of 2003. The Audit committee has adopted its terms of reference. The Audit and Performance committee has adopted its terms of reference.

Statutory requirements

Section 166 of the MFMA stipulates that each municipality must establish an Audit committee.
The Audit committee is an independent advisory body that advises council, political office bearers, accounting officer, and the staff of the municipality on the following;

- Internal financial control and internal audit;
- Risk management;
- Accounting policies
- The adequacy, reliability and accuracy of financial reporting and information;
- Performance management;
- Compliance with the MFMA, the Division of Revenue Act (DORA) and any other applicable legislation;
- Performance evaluation
- Any other issues referred to it by the municipality;
- Review annual financial statements so as to provide authoritative and credible view of the financial position, on overall compliance with MFMA, DORA, ect
- Respond to Council on any matter raised by the Auditor- General (AGSA); and
- Carry out such investigation into financial affairs of the municipality as may be prescribed

2. Attendance of meetings

Name of the member	Ordinary meetings	Performance meetings	Special Audit committee to consider AFS	Total	Attendance
Ms. F Mudau (Audit committee chairperson)	4	4	1	9	9
Ms. J Masite (Audit Committee member)	4	4	1	9	9
Mr. T Gafane (Audit Committee Member)	4	4	1	9	1
Ms. P Ntuli Member (Audit committee Member)	4	4	1	9	9
Ms. M Moloi- Chamane Member (Audit Committee Member)	4	4	1	9	8
Adv L Thubakgale (Audit Committee Member)	1	1	1	3	3

The following although not members of the Audit and Performance Committee (APC), have standing invitation to Audit and Performance committee meetings:

- The Accounting Officer;
- The Chief Financial Officer;
- The Section 56 Managers/Departmental Heads
- Chief Risk Officer
- The Auditor- General
- The National Treasury
- Mpumalanga Provincial Treasury
- Mpumalanga Department of Cooperative Governance
- South African Local Government Association (SALGA)
- Internal Audit (also task with Secretariat function)
- Chairperson of Risk Management Anti-Fraud and Anti-Corruption Committee

3. Internal Audit

The internal Audit of Thembisile Hani Local Municipality is in-house and has discharge its mandate in terms of its charter and managed to execute all projects for 2022/23 financial year. The Audit and Performance Committee (APC) would like to commend the Council and management for the dedication in strengthening the Corporate Governance.

The Audit and Performance Committee (APC) is of the opinion that Internal Audit unit is operating effectively to meet its mandate and has considered the risk pertinent to the municipality in its audit plans. The following documents were approved by the Audit Committee and performance committee and recommended to Council for adoption.

- Internal Audit charter
- Internal Audit methodology
- Three years rolling strategic and Annual Audit Plan
- Combined Assurance framework

4. Effectiveness of Internal controls

The system of internal control was not entirely effective during the year under review as compliance with prescribed policies and procedures were lacking in certain instances and this was evident with the investigation of irregular expenditure that was conducted by the Council during the year under review.
The following Internal audit reports are among others that were presented to the Audit Committee

- Audit of quarterly performance information;
- Quarterly Compliance;
- Supply Chain Management;
- ICT audit;
- Fleet Management;
- Assets Management;
- Local Economic development;
- Water and Sanitation;
- Follow-up Waste and Environment;
- Follow-up Occupation Health and Safety;
- building and facilities management;
- Land and Building;
- Risk Management;
- Revenue Management;

There has been improvement by management in responding to internal audit reports and this can be attributed to measures that have been implemented by the Accounting officer. Audit committee has also urged management to draw up action plan to address issues raised by the Auditor- General in the management letters and audit report and to ensure that all matters have been raised by the Auditor General are resolved by Management.

5. Risk Management

The municipality has an effective risk unit that consists of one staff member and Risk management, anti-fraud and anti-corruption committee that is chaired by an independent chairperson of Risk management, anti-fraud and anti-corruption. Four (4) risk committee meetings were held for the year under review.
The following policies were reviewed:

- Risk Management strategy
- Risk Management policy
- Whistle blowing policy.
- Fraud Prevention Plan and Fraud Prevention policy
- Risk Management Anti-corruption and Anti-fraud risk charters
- Fraud prevention plan and fraud prevention policy
- Risk appetite

6. Performance Management

Management has cascaded performance up to level three and plans have been put in place to cascade performance to other levels as well.
The Audit committee has reviewed the Annual Performance Information report in the meeting held on the 28 August 2023 and the performance department has shown significant improvement.

7. Year-end reporting

The Audit and Performance Committee (APC) has reviewed the Annual Performance Information report before the report was submitted to the Auditor-General and the quality of the quarterly reports submitted by management during the year were of acceptable standard.

8. Evaluation of draft annual financial statements

The Audit and Performance Committee (APC), during its meeting held on the 28 August 2023 to discuss the draft annual financial statements and unaudited annual report with the Accounting Officer, before submitting to the Auditor General. The Audit committee wishes to indicate that it performed a review on the financial statements focusing among others:

- Significant financial reporting adjustments and estimates contained in the Annual Financial Statements
- Clarity and completeness of disclosures has been set properly.
- Quality and acceptability of and any changes in accounting policies and practice.
- Significant adjustments arising from the audit.
- Reasons for major year to year fluctuations

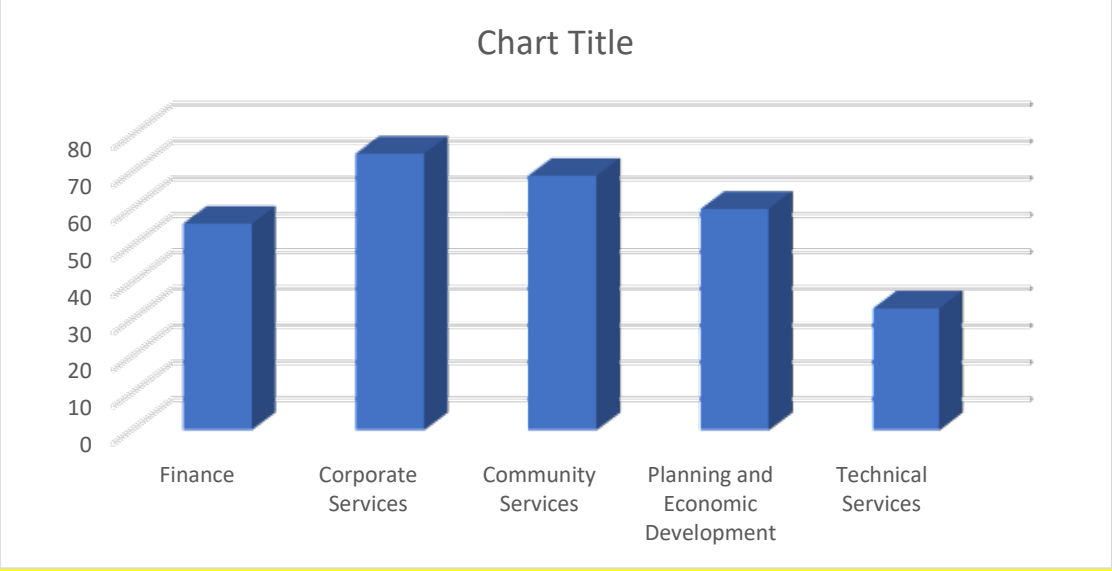

The Audit and Performance Committee (APC) has:

- Further reviewed the audited financial statements to be included in the Annual Report with the Accounting Officer.
- Reviewed the Auditor General Management report and management response thereof.
- Reviewed the municipality compliance with legal and regulatory provision and;
- Reviewed significant adjustments resulting from the audit.

The Audit and Performance Committee (APC) concurs and accepts the conclusions of the Auditor- General on the Annual Financial Statements be accepted and read together with the report of the Auditor-General.

9. Internal Audit recommendations

Audit and Performance Committee would like to appreciate the level of implementation of internal audit recommendations by management as that is the indication of commitment from the side of management.

10. Conclusions

The Audit and Performance Committee (APC) acknowledges the co-operation and assistance by the Thembisile Hani Local Municipality for coordinating the activities of the Committee. We also acknowledge the commitment of the Accounting Officer and management of Thembisile Hani Local Municipality in strengthening corporate governance and working in maintaining the clean audit.

The Audit and Performance Committee (APC) further acknowledge the commitment by Entire Management team and the foundation on good governance that has been laid by Honorable Executive Mayor Councillor L Dikgale and his Council and further express gratitude to the Chief Audit Executive, Mr. AS Malope and his staff for the support and commitment to the work of the Audit and Performance Committee. The Chairperson of the Audit and performance committee remain confident that all matters that have been raised by the Internal Audit and Auditor General are receiving due consideration and intervention. We are committed to fully execute our oversight function to strengthening corporate governance.

Ms. F Mudau
Chairperson of Audit and Performance committee

Chapter 3

CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

INTRODUCTION

Service delivery is in terms of the constitution of the republic of South Africa, schedule 4, part b determines the functions of the Municipality and therefore its responsibility towards the community. In terms of the IDP and the departmental objectives of the Thembisile Hani Local Municipality, certain issues are set out to be achieved during the financial year.

The following have been achieved during 2022/ 2023 as per community survey:

- Provided 64 151 households with access to basic water
- Provided 28 312 households with access to water through water delivery
- Provided 67 404 households with access to basic refuse removal
- Provided 82 983 households with access to basic electricity
- Provided 2 446 households with access to basic sanitation (water borne system)
- Provided 64 151 households with access to free basic water (6 kl)

COMPONENT A: BASIC SERVICES

This component includes: water; waste water (sanitation); electricity; waste management; and housing services; and a summary of free basic services.

INTRODUCTION TO BASIC SERVICES

BASIC SERVICE PROVISION	CHALLENGES
Water	• Lack of water storage in Sun City and Moloto, • Water losses that are above the norm set by Department of Water and Sanitation. • Inconsistence bulk water supply from City of Tshwane Metropolitan Municipality. • Ageing infrastructure (asbestos pipes) • Theft or vandalism of water infrastructure • Illegal connection to the bulk water system. • Slow progress of implementation of Loskop Dam Bulk Infrastructure projects. • Poor revenue collection to properly operate and maintain the water infrastructure.
Refuse removal	• Shortage of staff • Inadequate waste collection trucks (compactor trucks) • Limited funding
Sanitation	• Huge sanitation backlog caused by the demand for waterborne system. • Limited funding for operation and maintenance (below national treasury norm) • Community of Thembisile Hani Local Municipality requires water borne sanitation system and not the VIP toilets anymore • Lack of maintenance on VIP toilets • High risk rating on green drop
Electricity for energising high mast light and maintenance	• Lengthy Eskom process to energise high mast lights and boreholes. • Limited funding and resources for own maintenance team • Ever increasing electricity household's connections due to new establishment or township.
Roads and storm-water drainage	• Flooded gravel roads • Limited funding for maintenance and construction of new roads • Limited resources for internal maintenance for gravel roads • Stormwater challenges through all wards • Huge backlog on gravel (unpaved) roads

	• Limited budget to reseal roads

DEFINITION OF A HOUSEHOLD / HOUSING UNIT

Household: a *household* consists of a person, or a group of persons, who occupy a common dwelling (or part of it) for at least four days a week and who provide themselves jointly with food and other essentials for living. In other words, they live together as a unit. People who occupy the same dwelling, but who do not share food or other essentials, were enumerated as separate households. For example, people who shared a dwelling, but who bought food and ate separately, were counted as separate households. Visitors, both foreign and south African, as well as boarders who stayed with a household on *census night*, were counted as part of that household. People who were absent on census night, but were not counted elsewhere (either because they were working, travelling, at a church vigil, at an entertainment centre, and so on), and returned to the household on Tuesday, 10 October, were counted as part of the household. Live-in domestic workers and live-in employees were regarded as separate households. (Statistics: south Africa, census 2011)
Housing unit: it is a unit of accommodation for a household, which may consist of one structure, more than one structure, or part of a structure. Examples of each are a house, a group of rondavels, and a flat. In informal areas and overcrowded conditions a housing unit may hold more than one household.

DEFINITION OF AN INFORMAL SETTLEMENT

Informal settlements are groups of people living on land they have no legal claim to. It is also known as an unplanned settlement on land which has not been surveyed or proclaimed as residential, consisting mainly of informal dwellings. Informal settlements are also referred to as a squatter settlement, slum or a shanty town. (Statistics: South Africa, Census 2011).

3.1 WATER PROVISION

Thembisile Hani Local Municipality is the Water Services Authority (WSA) as well as the Water Service Provider (WSP) for its area of jurisdiction and which currently operates two interlinked water supply systems that delivers potable water to rural towns and villages situated within the Municipality.

There are **two bulk water supply systems** with **five supply resources** which forms the northern section of the Western Highveld Scheme and crosses into the Greater Marble Hall and Thembisile Hani Local Municipalities, and consists of:

a) **System 1: Northern Supply 1.**

(i) **Dr JS Moroka bulk water supply purchase -** This system comprises the bulk water supply purchase from Dr JS Moroka LM. Thembisile Hani has a service level agreement with Dr JS Moroka LM to be supplied with water from the Weltevreden Water Treatment Works. This source supplies the areas of Kwaggafontein; Boekenhouthoek; Mathyzynsoop and Vrischewaagd.

Since 2019 there was a limited supply provided to THLM which has reduced significantly over time to where the current supply of water from Dr JS Moroka to THLM is zero.

THLM has therefore developed the below Bundu scheme to address water supply to the abovementioned effected townships.

(ii) **Bundu Supply System -** The Bundu Water supply scheme is a scheme developed by the Thembisile Hani local Municipality. It abstracts water from the Moses River at Bundu, where the water is treated and then pumped to a 10 Ml command reservoir at Matheyzensloop. This system is designed to supply the AADD of 5.04 Ml/d of Goederede, Boekenhouthoek and Matheyzensloop. The system is currently supplying 2.5 ml/d and on completion in July 2021 will increase the supply to the full 5.04 ml/d (2million m3 /a).

b) **System 2: Southern Supply**

This system includes the purchase of bulk water from two supply resources namely Rand Water and the City of Tshwane. The supply from City of Tshwane supplies bulk water from the Bronkhorstspruit WTW. These two sources supply the southern sections of Moloto, Kwamhlanga, Thembalethu, Tweefontein, Vlaklaagte and Verena as follows:

(i) **Rand Water bulk water supply purchase** – the annual daily bulk water supply from Rand Water system has ranged from 29 Ml/d in 07/2019 to the current 32.7 Ml/d on average. The bulk potable water is supplied through Ekandustria Reservoir in Ekangala and through the Thembalethu Reservoirs.

(ii) **City of Tshwane bulk water supply purchase** – The Bronkhorstspruit Water Treatment Works was designed to supply bulk water supply to THLM. This has continued after the CoT took over the then Kungwini Local Municipality based on the old Service Level Agreement (SLA). The bulk supply by the CoT as per the below graph indicates an averaged of approximately 1.8 Ml/d against the required 16.6 Ml/d.

A bulk connection has been constructed between the Rand Water and City of Tshwane bulk lines to allow the supply from either source to be distributed to both parts of the network.

c) **Borehole Supply System**

SML Projects has been appointed by Thembisile Hani Local Municipality under the "Implementation of water projects for a period of 36 months" of which their scope included a study to conduct an audit and database of the existing boreholes within the Municipality.

The report indicated a total of 223 boreholes of which are as follows:

- Handpumps 44
- Windmills 20
- Solar panel operated submersibles pumps 22
- Electrically operated submersible pumps 63
- Generator operated pumps 21
- Not equipped 53

Out of 223 boreholes only 117 were tested and test results submitted. Handpumps were not tested as it was presumed very low yield boreholes.

Most boreholes are found in Ward 8 and 32. From the 223 boreholes a total of 69 boreholes is operational with a combined yield of 62.1 l/s which equals 3 400kl/day based on a 20 hour per day operation.

Remedial measures implemented by THLM to address/ alleviate the water shortage challenges are as follows:

- Matheyzensloop to Kwaggafontein Booster Pump Station which is currently on construction.
- Mabhoko Water Infrastructure (Phase 1 and Phase 2). Currently Phase 3 is on construction.
- Upgrading of Tweefontein C and DK water infrastructure (Phase 1 and Phase 2). Currently Phase 3 is on construction
- Upgrading of eNtokozweni Water Infrastructure Phase 1 and Phase 2
- Upgrading of Moloto Water Infrastructure
- Completion of Upgrading of Existing Infrastructure from Agricultural Project to Augment Borehole Water Supply in Bundu (Moses River) Multi-Year Project (Work Package 1 to 7), which currently supply 5ML/Day to Bomando area.

- Abstraction of water from Loskop Dam project, this project is a long term (multi-year) activity undertaken by the Department of Water and Sanitation (DWS) whereby the Nkangala District Municipality (NDM) has been appointed as an implementing agent. Its aim is to augment the bulk water supply of THLM by about 20 Ml per day upon completion. The current progress is that Thembisile Hani Local Municipality has been granted an 11 Ml per day abstraction licence and the Implementation Readiness Study is at the final stage of approval, which has granted grant NDM to start with physical construction in the 2022/23 financial year. Construction has commenced with WP1, 3, 4 and 5 which are on construction

COMMENT ON WATER SERVICES PERFORMANCE OVERALL:

DWS to expedite the implementation of abstraction of 20 Ml per day from Loskop Dam project as mandated by the former President in June 2016. All bulk water supply projects to be prioritised and completed as planned.

The baseline information below was sourced from 2011 Census Statistics SA and 2018 Household Survey Statistics.

3.2 WASTE WATER (SANITATION) PROVISION

INTRODUCTION TO SANITATION PROVISION

Majority of communities within the Municipality use pit/VIP toilets, 25% of the communities have VIP (Ventilated Improved Pit) toilets, 4% have septic tanks and only 4% have water borne system. since 2011/12 the communities have rejected the VIP toilets and prefer the water borne system, and the current backlog still remains at 75%. Areas making 4% are: Kwamhlanga serviced by 3 x 0.5 ml/day oxidation ponds and Tweefontein K by 1.5 ml/day waste water treatment works.

Proffessional services for Luthuli waste treatment works for 13ml/d for various villages within thembisile to eradicate the backlog which is huge on sanitation was conducted on an ongoing basis since the 2018/19 financial year and was budgeted in subsequent financial years until the current financial year because this is a 20 year plan that the Municipality implements in Phases..

MEASURES TAKEN TO IMPROVE PERFORMANCE

Through IDP processes all communities are involved in voicing their needs to the Municipal officials and Councillors. The sections providing service is aimed at ensuring proper rendering of sanitation services while preventing environmental pollution caused by poor sanitation services
Below are the projects implemented by the Municipality to improve the sanitation provision as stated below?

- Refurbishment of Tweefontein K Wastewater Treatment Works (WP1 Sewer and water reticulation) which is currently on construction.
- A feasibility study and technical report have been concluded and submitted to the Department of Water and Sanitation to investigate other alternative solution to eradicate the sanitation backlog.

The baseline information below was sourced from 2011 Sensus Statistics SA and 2018 Household Survey Statistics.

3.3 ELECTRICITY

INTRODUCTION TO ELECTRICTY

The Municipality is installing and maintaining high mast lights and street lights. the challenges faced in 2022/ 2023 were due to limited funding to install high mast lights, street lights and energising of lights . the Municipality have a total number of 330 high mast lights and 1400 street lights.

In the 2022/2023 the municipality has made budget available through the Municipal Infrastructure Grant (MIG) to install 5 highmast light 2 in ward 15 and 3 in ward 1, 2 and 3. Furthermore the municipality had applied for the Intergrated National Electrification Grant to electrify the areas of Mafishane and Dk (Ward 2) and Magodongo. The Department of Minerals and energy (DMRE) had made R 12 000 000.00 available to provide 600 connections to the above mentioned villages. The programme commnces late in the finacial year (April 2023) and it is anticipated to be completed in the first second quarter of the 2023/2024 FY.

The DMRE has also made avaible R 6 000 000.00 to the mununicipality for the retroffitting of Highmastlights with energy saving lights.

The following areas were retrofitted:

Area/Location	Existing Technology	Qty	Application
Kwaggafontein A (Ward 28)	Flood lights	158	Highmast Lighting
Tweefontein G & H (Ward 30)	Flood lights	32	Highmast Lighting
Tweefontein E (Ward 15)	Flood lights	16	Highmast Lighting
Zenzele, Buhlebezulu & Tweefontein J (Ward 9)	Flood lights	138	Highmast Lighting
Thembalethu (ward 5)	Flood lights	132	Highmast Lighting
Thokoza & Vezubuhle (ward 18)	Flood lights	109	Highmast Lighting
Phola park (ward 06)	Flood lights	87	Highmast Lighting
Mountainview (ward 14)	Flood lights	66	Highmast Lighting
Sun city (ward 20)	Flood lights	99	Highmast Lighting
Sun City (ward 19)	Flood lights	82	Highmast Lighting
TOTAL		**919**	

The Municipality used the IDP processes to identify communities living in poverty and sourced funding from government through established programmes to respond to the need for basic services by the communities that are living in poverty

COMMENTS ON THE PERFORMANCE OF ELECTRICAL AND MECHANICAL ENGINEERING OVERALL

The electricity unit consist of only two artisans and 5 general workers which are responsible for all 32 wards, which makes it difficult for turnaround time on maintenance. The unit is currently reporting to the Assistant manager roads and stormwater, while we are looking at options on the organogram to adopt the well-established maintenance team for electrical unit during the coming financial years depending on the financial status of the Municipality.

3.4 WASTE MANAGEMENT (THIS SECTION INCLUDES REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND CEMENTORIES)

INTRODUCTION TO WASTE MANAGEMENT

The waste management section's function is to provide an acceptable, affordable and sustainable waste collection to all the residents of Thembisile Hani Local Municipality.
Description of the activity: -

- Refuse removal
- Street cleansing
- Clearing of illegal dumping sites
- Cemeteries

Solid Waste Service Delivery Levels

Municipal Integrated Waste Management Plan

The primary objective of compiling an IWMP is to integrate and optimise waste management so that the efficiency of the waste management system is maximised, and the impacts and financial costs associated with waste management are minimised, thereby improving the quality of life of all South Africans.

The objective of the status quo, or gap analysis, as the first phase in the development of an IWMP for THLM, is to qualify and quantify all aspects related to current waste management services and practices carried out by the Municipality, with a view to using this information as a basis for future waste management planning. The report therefore includes a situational analysis of the various themes of solid waste management relevant to THLM e.g. the areas serviced, the waste management services rendered, their efficiency, cost effectiveness, social and environmental acceptability, etc. Specific objectives of the gap analysis phase, as outlined in the terms of reference for the project.

The street cleaning and clearing of illegal dumping

The street cleaning and clearing of illegal dumping services is done by EPWP participants for all the streets in towns, main entrances, and open spaces. EPWP participants are appointed to assist with street cleaning services. The clearing of illegal dumping is done through municipal officials and private contractors. The Municipality has rolling out a stimus cleaning program from the Department of Forestry and Fisheries on the fourth quarter of the 2022/2023 financial year. The stimulus program has appointed 190 EPWP participants who are assisting with cleaning campaigns and on-going Street cleaning and illegal dumping sites. The department of Cooperative Governance and Traditional Affairs has also implemented youth in waste with 25 participants who are under 10 months' contracts to also assist with street cleaning and illegal dumping sites. Department of

Rural Development Land Environmental Affairs has also appointed beneficiaries that are assisting the municipality with the street cleaning in a different wards of the municipality.

Waste storage and disposal

Currently, there are is one class B permitted landfill site in Kwaggafontein. The Kwaggafontein landfill site is operational with five cells, offices, leachate pond, Weight Bridge and sorting and recycling facility. Two cells and licheate pond are finished. This will be the first land fill site to be constructed in Thembisile Hani LM. Construction of area 3600.491 m2 and 3675 disposal cell was done in the 2018/2019 financial year through MIG funds. Additional cell 3 Area 6452.053 m2, Cell 4 area 7429.131m2, Cell 5 area 5678.571m2, cell 6 Area 7626,389 m2 of disposal cells are still in the process of construction completed.

Recycling

There is only one buy-back centre in KwaMhlanga, and reclamation activities are taking place at the landfill site in Kwaggafontein, the Municipality has initiated the waste pickers' database in order to support waste pickers in all the 32. Currently the Municipality has assisted over 100 waste pickers with relief funding and PPE through the Department of Forestry Fisheries, and Environment. The Municipality is in the process of implementing recycling project on all it facilities by placing separation at source bins that will have different colours for all types of waste. The municipality has acquired a scale from PETCO in order to assist the waste pickers at Kwaggafontein Land fill site.

Environmental education and awareness

A number of awareness campaigns were conducted during the course of the financial year. Environmental educators were appointed through the Expanded Public Works Programme (EPWP) called 'Green Good Deeds' for a duration of 24 months. This project had positive impact on the successful implementation of environmental awareness campaigns and other Environmental programmes. The Municipality will be conducting capacity building about environmental management every quarter. The municipality has entered into partnership with the DFFE to implement a project with environmental graduate that will be assisting the municipality with environmental education and awareness for the period of 12 months.

Measures taken to improve performance

The construction of Kwaggafontein land fill site which is now complete and ready and operational. The Department of Environment Forestry and Fisheries have completed the process of appointing the service provider for the licensing Kwamhlanga and Verena new landfill sites. The waste collection and separation at source to be practice at schools the Municipality has provided 56 schools with recyptables to assist the schools with waste management.

The Municipality has have refurbished 12 skip bins in order to enhance waste collection services in the community, business and schools in the year 2022/2023 financial year. This will help the Municipality to collect waste effectively and efficiently as per the waste collection schedule. The Municipality will also be able to collect skip bins on business and school within a short period of time.

COMMENTS ON THE PERFORMANCE OF WASTE MANAGEMENT OVERALL

There are Expanded Public Works Programme projects in progress for cleaning the environment that will be registered as projects at the Department of Public Works. 200 EPWP participants were appointed under this programme in 2022/23 financial year.

INTRODUCTION TO CEMETERIES AND CREMATORIUMS

The Municipality has forty (40) cemeteries located in different scatted villages. The community in the rest of the incorporated areas in the Thembisile Hani Local Municipality area utilises the cemeteries in the nearest vicinity. The service delivery priorities are to provide and maintain cemeteries, to continuously update and keep record of cemetery registers – now captured on a manual database. Plan and develop maintain future cemeteries to ensure that sufficient space is available. Another priority is to maintain and upgrade the existing equipment, vehicles, system, and procedures to ensure a quality service to the community. The foregoing priorities were not met the maintaining of all cemeteries by cutting grass, removal of weeds, and planting of trees. The database is kept up to date, and the cemetery registers are updated regularly. The vehicles and machinery were maintained and repaired where necessary. EPWP projects CoGTA participants have been appointed to assist the Municipality it waste management the team is being deployed to assist with waste management is all the cemeteries starting with the regional cemetery and through that, local people will receive an income and cemeteries will be cleaned representable.

CREMATORIUMS

Crematoriums not applicable to Thembisile Hani Local Municipality.

There are no Municipal entities rendering pollution control and bio diversity.

3.5 HOUSING

INTRODUCTION TO HUMAN SETTLEMENTS

To accelerate housing delivery through efficient and effective management and quality service delivery as well as through integrated and collective sustainable housing programmes. Our priority is to eradicate informal settlements and give our communities a dignity they deserve as contained in the constitution of the Republic of South Africa.

COMMENTS ON THE PERFORMANCE OF HUMAN SETTLEMENTS OVERALL

The Thembisile Hani Local Municipality had 150 rural subsidy housing projects allocated on the IDP in 2016/2017 financial year. The housing project was implemented by the Provincial Department of Human Settlements. The Municipality perform the function to register housing needs register, identify and allocate beneficiaries for housing subsidies. In total from 2016/17 to 2017/18 the Municipality received 600 allocations for those two financial years. During the 2018/19 financial year Municipality received 150 allocations although there is still a back log remaining. The Municipality was allocated a 100 housing units during 2020/2021 financial year. There was no allocation for 2021/2022 and also there no allocation for 2022/ 2023.

3.6 FREE BASIC SERVICES AND INDIGENT SUPPORT

INTRODUCTION TO FREE BASIC SERVICES AND INDIGENT SUPPORT

- The Council accepts that they are responsible for the rendering of services in terms of schedules 4 and 5 of the constitution as well as other services which may be delegated by national and provincial government.
- Main sources of income consist of transfers from other spheres of government of which intergovernmental transfers are the most important. a portion of this income (equitable share) is earmarked for indigent relief which will be used to alleviate and address poverty
- The Municipality gives 6kl in respect of water to all our residential clients
- There is a portion of money paid over to Eskom on behalf of our clients for the 50kw of electricity provided to each household which in total amounted to R63 012.78.

CHALLENGES:

- The Municipality did not have a sufficient number of indigent in the register in the 2022/ 2023 financial year. Only 132 applications were approved to be in the register.

COMPONENT B: ROAD TRANSPORT

3.7 ROADS AND STORMWATER

The Municipal road network which serves as feeder roads to national road known as Moloto road R573, forms the backbone of our transportation system, making it possible to access both personal and economic needs within its jurisdiction and to meet the mobility and socio-economic needs of the communities. As the responsible roads authority for the construction and operations maintenance of the Municipal road network, Thembisile Hani Local Municipality has ensured that its strategic planning processes are in line with the Municipal Acts e.g. Dora, which provide guidance to the allocated funds within the Municipalities. Therefore, the Municipality achieved its road planning strategy by entirely depending on the allocated Municipal Infrastructure Grants (MIG) and its operational and maintenance funds. Major success in some villages of THLM, has been noticed through the work done by the Municipal maintenance teams and by the District Municipality. The challenges faced by the Municipality during 2020/21 FY, was again insufficient budget on both construction and maintenance due to the

reprioritization of budget to cater water projects, insufficient resources and collection of revenue. In order to improve performance, the Municipality drafted a programme of action, and made sure that resources are utilized efficiently and effectively so. During this period, assistance was also received from Nkangala District Municipality. Based on the information compiled by Endecon ubuntu for roads master plan THLM comprises of 2269.77km unpaved, 198.9km paved and 21.6 km interlocking block paved roads.

Gravel Road Infrastructure				
	Total Gravel Roads	New Gravel Roads constructed	Gravel Roads Upgraded To Tar/block paving	Gravel Roads Graded Or Maintained
2020/ 2021	2269.77	0km	4.8km	41km
2021/ 2022	2269.77	0km	4.1km	42km
2022/ 2023	2269.77	0km	5.2km	42km

Asphalted Road Infrastructure Kilometres					
	Total Asphalted Roads	New Asphalt Roads(Km)	Existing Asphalt Roads Re-Asphalted (Km)	Existing Asphalt Roads Re-Sheeted(Km)	Asphalt Roads Maintained (No.)
2020/ 2021	254,8km	0km	0km	0km	8 roads maintained
2021/ 2022	198,9km	0km	0km	0km	9 roads maintained
2022/ 2023	198,9km	0km	0km	0km	15 roads maintained

Paved roads completed in 2022/23 financial year by Thembisile Hani Local Municipality

a) Construction of Roads and Stormwater Ward 12 - 1.8km
b) Luthuli Link-bridge Road – 1.2km
c) Thembalethu Bus Route- 1.2km
d) Boekenhouthoek Bus Route – 1km

3.8 TRANSPORT (VEHICLE LICENSING)

INTRODUCTION TO TRANSPORT

Thembisile Hani Licensing and Testing Services carries out the licensing and testing function in terms of the Service Level Agreement entered into between Municipality and Mpumalanga Provincial Department of Community Safety, Security & Liaison. Thembisile Hani Local Municipality has one testing centres called kwaMhlanga licensing which offers vehicle testing services. Licensing Department offers the following services:

1. Vehicle Registrations and Renewal of Vehicle Licenses.
2. Issuing of learners and drivers licenses.
3. Issuing of roadworthy certificates and professional driving permits.
4. Conversion of foreign driver's licenses into South African licenses.
5. Issuing of instructor certificates, business licenses and dog licenses.
6. Fitting of microdot on the motor vehicles.
7. Issuing of motor trade numbers, temporary and special permits.
8. Deregistration of motor vehicles.
9. Maintaining 7 working days' turnaround time for the processing of learners and driver's licenses.

CHALLENGES ARE AS FOLLOWS:

1. Population has increased therefore there is also an increased demand for licensing services, but the facility is unstable to meet the customers' demands.
2. There is a need to upgrade the existing facilities and to build the new one as our Municipality is the fastest growing town.
3. Inadequate new eye testing machines to process the application for learners, driver's licenses and professional driving licenses.
4. Shortage of personnel especially at the testing station, currently there is only one Management

3.9 WASTE WATER (STORMWATER DRAINAGE)

INTRODUCTION TO STORMWATER DRAINAGE

The municipality has in its own internal team which is responsible for stormwater construction and refurbishment. There is routine road maintenance program which is in place to supplement internal capacity. The municicipality has developed a stormwater masterplan which serves as a strategic plan for stormwater developmental programs within the municipality. According to the stormwater masterplan, most of villages within the municipality do not have sufficient stormwater drainage systems and they are prone to flooding. The municipal internal team has managed to refurbish and construct 300m of stone pitch stormwater channel during 2022/ 23 financial year.

Stormwater Infrastructure Kilometers				
	Total Stormwater measures	New stormwater measures	Stormwater measures upgraded	Stormwater measures maintained
2020/ 2021	3.5	0	0	3.5
2021/ 2022	9.6	5.6	0	4
2022/ 2023	15.5	5.5	0	10

Cost of Construction/Maintenance R' 000			
	Stormwater Measures		
	New	Upgraded	Maintained
2020/ 2021	0	0	2 000
2021/ 2022	0	0	3 500
2022/ 2023	0	0	5 313

COMMENT ON THE PERFORMANCE OF STORMWATER DRAINAGE OVERALL

The four priority projects on roads and stormwater projects are listed herein under:

Capital Projects: Four Largest In 2022/23 of roads and Storm Water				
No.	Project Name And Detail	Total Project Value (R)	Start Date	End Date
1	Thembalethu Bus Route Ward 05	R 45 402 991,52	14-December-20	15 July 2022
2	Construction of Boekenhouthoek Bus Route- Ward 24	R 25 495 500,00	15-Sep-21	30 September 2022
3	Mandela- Luthuli Bridge road Ward 22	R 23 119 091,95	05-Aug-20	26 August 2022
4	Roads and Storm Water Ward 12	R 16 766 625,71	30-Nov-20	31 October 2022

Chapter 3

COMPONENT C: PLANNING AND DEVELOPMENT

3.10 PLANNING (INCLUDING OFFICE OF THE MUNICIPAL MANAGER'S UNIT)

INTRODUCTION TO PLANNING

The Town Planning unit is one of the strategic units within the department of Planning and Economic Development (PEDS) of Thembisile Hani Local Municipality. It is mandated to manage the spatial planning, built environment and land use management. Through working together with traditional leaders and other key stakeholders, the unit seeks to guide overall spatial distribution of current & desirable future land uses in order to give effect to sustainable development goals and objectives. The unit oversees:

- Town Planning services i.e. provision of zoning information and processing of various land use applications i.e. rezoning applications.
- Building Control - Plan submission, inspection and (dis) approval thereof.

Physical Planning	
Opportunities	**Challenges**
High proportion of land use management application	• Delays in turnaround time in terms of finalising applications.
Availability of developable land within THLM	• Most of the land is vested to national and provincial governments. • Land invasion is perpetuated allegedly by tribal formations.

SPATIAL DEVELOPMENT FRAMEWORK (SDF)

An SDF is a framework that seeks to guide, overall spatial distribution of current and desirable land uses within a Municipality in order to give effect to the vision, goals and objectives of the Municipal IDP. The aims of a Spatial Development Framework are to promote sustainable functional and integrated human settlements, maximise resource efficiency, and enhance regional identity and unique character of a place.

The Thembisile Hani Local Municipality SDF identified below mentioned areas as Strategic Development Arears (SDAs). SDAs are towns/villages or a group of villages located relatively close to each other where some form of economic, social and institutional activities, and a substantial number of people are usually found. These growth points seem to have a natural growth potential, but do not develop to their full potential due to the fact that capital investments are made on an ad hoc basis without any long term strategy for the area as a whole. The identified SDAs should be stimulated by amongst others, providing a higher level of service infrastructure which will ensure that appropriate services are available for potential business and service/light industrial concerns. The higher level of services, relative to other settlements in the area will also attract residential development to these growth points, with the implication that certain threshold values in population be reached, to provide for higher levels of social, physical, institutional and economic services;

• SDA 1: The area around the Moloto route between Moloto and KwaMhlanga (The Moloto settlement should thus expand in an easterly direction along the Moloto road and the proposed Moloto rail alignment).
• SDA 2: The area between KwaMhlanga and Enkeldoornoog which will represent infill development close to the KwaMhlanga Business Node and proposed railway station. This section has already experienced an influx of informal settlements.
• SDA 3: The eastern expansion areas around Kameelpoortnek towards the north of the KwaMhlanga intersection.
• SDA 4: The vacant area between route R573 (Moloto Road) and the northern extensions of Tweefontein (A, B, C, D, K, N and M). The Nkangala Municipality and Department of Human Settlements have already commenced with the establishment of two townships within SDA 4.
• SDA 5: The vacant area between Vlaklaagte 2 and Vlaklaagte 1 to the south of the Moloto road and rail.

• SDA 6: The area adjacent to route R573 (north and south) towards the west of Kwaggafontein, and surrounding the Kwaggafontein industrial area.
• SDA 7: The area to the south of Verena (towards Wolvenkop) and towards the north (Wellas) where informal settlement is already taking place, however it should be noted that the current Municipal SDF was prepared in 2015 and there will be a need for revival in the next financial year.

LAND USE MANAGEMENT SCHEME (LUMS)

A land use management scheme is a tool used by Municipality to guide and manage development according to the vision, strategies and policies of the Integrated Development Plan (IDP) and Spatial Development Framework (SDF), and in the interests of the general public to promote sustainable development and quality of life. The Municipality have recently developed and approved a SPLUMA compliant land use management scheme which came into operation on the 1st July 2020

The Land Use Scheme sets out the various Use Zones applicable to land and buildings in the Municipality and lists the purpose for which such land may and may not be used, and the purpose for which such land and buildings may only be used with consent of the Council. It sets out, among other things, general conditions applicable to all erven as well as new rules relating to "Spaza" or house shops, home enterprises, subsidiary dwelling units, child care centres on residential erven, land to be used for religious purposes, and conditions relating to agricultural holdings and farm land

TOWNSHIP ESTABLISHMENT

Below table indicates number of township within the Municipality and their status quo

Township name	Status of township	Number of sites	General Plan
KwaMhlanga-C	Approved- Developer appointed	1245	Yes
Vlaklaagte Township	Approved- Developer appointed	500	Yes
Vlaklaagte View	Approved- Developer appointed	1167	Yes
Mashiloville	Approved- Developer appointed	524	Yes
Emlanjeni	Approved- Developer appointed	500	Yes
Buhlebesizwe Ext 1 (khazamula)	Approved- Developer appointed	2682	No – only layout for now
Gemsbokspruit (Sokhabo)	Underway	800	No – only layout for now
Tweefontein (King Sokalana View)	Underway	1100	No - only layout for now

INTEGRATED HUMAN SETTLEMENTS PROJECTS

The Municipality in conjunction with Mpumalanga Department of Human Settlements have identified the following properties namely; portion 9 and 31 of Bultfontein 94 JS, Remainder of KwaMhlanga 617 JR and Portion 15 and 16 Witpoortjies for the integrated Human settlement projects entailing township establishment processes, Installation of Municipal Engineering services, Construction of top structure for qualifying beneficiaries.
The first phase of the project of which is township establishment process have successfully completed with the following approvals;

- Verena – 2018 sites
- Kwamhlanga -2826 sites
- King's Park opposite- 1167 Sites

COMMENT ON TOWN PLANNING PERFORMANCE OVERALL

The town planning unit consists of only one Town Planner, three Building Inspectors and one Administrative officer. With high number of applications, the municipality receives on daily basis, there is an urgent need to augment the current pool of staff with at least two Town planners.

STRATEGIC PLANNING AND REGULATORY

In today's organisational environment, budget oriented planning or forecast methods are insufficient for the organisation to prosper. There is a need to engage in strategic planning that clearly defines objectives and assesses both the internal and external situation to formulate strategy, evaluate progress and make judgments as necessary to stay on track.

Strategic plans therefore identify strategically important outcomes orientated goals and objectives against which the Municipality's medium-term results can be measured and evaluated by various identified stakeholders. Annual performance plans identify the performance indicators and targets that the institution will seek to achieve in the upcoming budget year. This performance information is important for effective management, including planning, budgeting, implementation, reporting monitoring and evaluation.

As a component of its strategic plan, annual performance plan or IDP the Municipality must adopt, monitor and evaluate strategies that describe the approach the institution is to follow to create and operate monitoring and evaluation systems which will produce credible, accurate information on an on-going basis that gets used to improve service delivery and governance.

INTRODUCTION TO STRATEGIC PLANNING AND REGULATORY

Currently the department comprises the following units:

IDP UNIT

Integrated Development Planning is a process through which Municipalities prepare a strategic development plan which extends over a five-year period. The Integrated Development Plan (IDP) is a **product** of the IDP process. The IDP is the principal strategic planning instrument which guides and informs all planning, budgeting, management and decision-making processes in a Municipality.

Chapter 3

In terms of the Municipal Systems Act, 2000, (Systems Act) the Chairperson of the Executive Committee or Executive Mayor or the chairperson of the Committee of appointed Councilors has the responsibility to manage the drafting of the IDP or to assign this responsibility to the Municipal Manager. The Municipal Manager is responsible for the implementation and monitoring of the IDP process.

Thembisile Hani Local Municipality has an IDP unit, under the office of the Planning and Economic Development (PED) on its organizational structure. The key functions of the unit are as follows:

- providing inputs with regard to the development of the Municipal vision and strategy
- Ensures implementation and the productive execution of the Municipal vision.
- Compiling reports on divisional activities and progress in terms of action plans for consideration by Municipal Manager and Council.
- Representing the Municipality in multi-sectorial functions such as spatial planning, local economic development, infrastructure planning and development forums and functions.
- Participate and represent the Municipality in the districts IDP technical Committee. Representing the Municipality in local, district and provincial public meetings and Committees by making presentations, providing strategic inputs, communicating information in order to ensure participation.
- Manage administrative and organizational support for the coordination of IDP related activities.
- Preparing and communicating the process plan to ensure the understanding of the roles and responsibilities of all stakeholders.
- Manage development and review of the IDP and ensure the integration of the IDP/PMS/Budget in terms of statutes.

EMPLOYMENT INFORMATION

The IDP office is located within the Planning and Economic Development Services department. The following is a representation of positions in the IDP office as indicated on the 2022/ 2023 organisational structure.

Task Grade	Position	Status 2022/ 2023
15	Manager: Planning and Economic Development	Filled
10	IDP Coordinator	Vacant

COMMENT ON IDP PERFORMANCE OVERALL

The IDP unit is understaffed and requires at least two coordinators to support the assistant manager. This further makes it difficult to adhere to set timeframes and complete the required phases on time. The Municipality also has financial problems and cannot adequately provide for a budget aimed at the facilitation of stakeholder engagement meetings and workshops. There are also inadequate sector planning to support the various chapters of the IDP, this further frustrates priority setting and informed planning.

PERFORMANCE MANAGEMENT UNIT

The objective of performance management is to improve the performance of the Municipality as guided by the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) (MSA), Local Government: Municipal Planning and Performance Management Regulations, 2001 and Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA). Performance Management is the central management tool which assist the Council to improve service delivery by channelling the efforts of its departments and employees to meet performance targets and in so doing ensure that the Municipality achieves its strategic objectives.

It is a strategic approach to management, which equips leaders, managers, employees and stakeholders at different levels with a set of tools and techniques to regularly plan, continuously monitor, periodically measure and review performance of the organisation in terms of indicators and targets for efficiency, effectiveness and impact. The PMS will therefore ensure that all leaders, managers and individuals in the Municipality is held accountable for their actions, which should bring about improved service delivery and value for money.

EMPLOYEE INFORMATION

COUNCIL-APPROVED PERFORMANCE MANAGEMENT SYSTEM UNIT STRUCTURE

Task Grade	Position	2022/ 20223
15	Assistant Manager: PMS	Filled
10	PMS Coordinator x2	Filled

COMMENT ON PMS PERFORMANCE OVERALL

The Performance Management System unit (PMS) consists of Assistant Manager and Two PMS Coordinators. The Assistant Manager PMS reports direct to the Municipal Manager. All the 2022/ 2023 quarterly performance reports are in place and also audited by our Internal Audit unit. The 2022/ 2023 PMS policy framework was adopted by Council.

INTERNAL AUDIT UNIT

Internal Audit is an independent function established within the Municipality to examine and evaluate the Municipality's activities. The purpose of Internal Auditing is to provide independent, objective assurance and consulting services designed to add value and improve the organization's operations.

The objective of Internal Audit is to assist the accounting officer and the Audit Committee in the effective discharge of their responsibilities; Internal Audit will provide them with independent analysis, appraisals, recommendations, counsel and information concerning the activities reviewed, with a view of improving accountability and performance

INTERNAL AUDIT RESPONSIBILITIES

THLM Internal Audit unit draws its mandate from the MFMA section 165, standards for the professional practice of Internal Auditing and the Internal Audit Charter approved by the Audit Committee. We further make reference to king report on corporate governance (king IV) customized into local government environment.

MFMA section 165(2) states that the Internal Audit unit of a Municipality must:

- prepare a risk-based audit plan and an Internal Audit program for each financial year;
- advise the accounting officer and report to the Audit Committee on the implementation of the Internal Audit Plan and matters relating to-
  - Internal Audit;
  - Internal Controls;
  - Accounting procedures and practices;
  - Risk and Risk Management;
  - Performance Management;
  - Loss control; and
  - Compliance with this Act, the annual division of revenue Act and any other applicable legislation; and
- Perform such other duties as may be assigned to it by the accounting officer.

When executing its responsibilities, THLM Internal Audit Unit follows the standards for the professional practice of internal Auditing.

According to the Institute of Internal Auditors (IIA) Internal Auditing is defined as *"an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.*

EMPLOYEE INFORMATION

COUNCIL-APPROVED INTERNAL AUDIT UNIT STRUCTURE

Task Grade	Position	2022/ 2023
15	Chief Audit Executive	Filled
12	Senior Internal Auditor	Filled
12	Senior Internal Auditor	Filled

COMMENT ON INTERNAL AUDIT PERFORMANCE OVERALL

THLM Internal Audit unit performed its **2022/ 2023** operations as per the risk-based Internal Audit Plan approved by the Audit Committee for the financial year. According to the plan, the unit had Twenty-two (22) planned audits and all the audits were executed and reported to Audit Committee.

As required by the MFMA, both the accounting officer and the Audit Committee were kept abreast of identified significant findings pertaining to internal controls; accounting procedures and practices; risk and risk management; performance management; loss control; and compliance with Acts relevant to the Municipality through submission of audit reports. Progress reports on implementation of the Internal Audit Plan were also submitted.

COMMUNICATION

OBJECTIVE

The main objective of this unit is to ensure effective communication within the municipality and externally to stakeholders and the community at large. In order for the Municipality to be able to realise our vision "to better the lives of our people through equitable, sustainable service delivery and economic development" we need to work together. It is the constitutional right of each and every member of the community to know what is happening in their Municipality, this unit is there to close the gap between the Municipality and its stakeholders by communicating municipal service delivery issues to the Municipal stakeholders including the community.

15	Assistant Manager: Communication	Filled

Chapter 3

Below are some of the photos taken by the Communication Unit during events or activities that were held at the Municipality:

COMMENT ON COMMUNICATION PERFORMANCE OVERALL

In an effort to ensure effective communication, we have utilized radio segments on IKwekwezi FM, which is a public broadcaster, to communicate service delivery issues, primarily water issues and bad road conditions, which have been a significant challenge during the current fiscal year. The Executive Mayor, the Municipal Manager, and the Head of Communication (HoC) were constantly reporting on the municipality's progress on these platforms. In the media sessions, audiences who are residents of Thembisile Hani Local Municipality (THLM) are given the opportunity to pose queries regarding service delivery issues in THLM to the Municipal representatives. Through the HoC, we conducted ongoing interviews with local media, Flare FM, Moutse Community Radio Station (MCRS) and Ikutani FM to inform the public about Municipal developmental programs.

The Unit has been a member of planning teams for events organized by the Municipality and other departments (Provincial and National). The unit is responsible for media mobilization, the creation of a Communication Strategy and Plan, branding, and any other logistics that necessitate municipal interventions in the case of external events. Through iKwekwezi FM, MCRS, KCRS, Eyethu FM, Ikutani FM, and Inakekelo FM, the unit broadcasts community-related announcements. Additionally, public notices are posted on the notice boards that are affixed on our municipal buildings. Municipality-related issues that require communication or clarification are communicated through media statements. The Daily Sun, Mpumalanga Press, and Thembisile News also cover our stories.

Due to budgetary constraints, the Municipality published three quarterly newsletters for the year under review, as opposed to four. The Municipality uses social media to strengthen communication, as it is currently expanding as technology advances. Our Facebook page is active and as frequently updated as feasible. There are currently 18,000 people who follow the page. On Mondays, the Municipality posts content on its Facebook page and other media about the five (5) pillars of service delivery.

YOUTH DEVELOPMENT

OBJECTIVE

- To mainstream youth development in the affairs and structures of THLM through yearly planning, implementation, monitoring and evaluation of youth programmes utilising an escalating budget.
- To increase the active participation of THLM youth in the local economy
- To decrease the rate of drugs and substance abuse
- To curb the high rate of pregnancy and raise HIV/AIDS awareness amongst the youth through multifaceted programmes
- Skills development of unemployed youth through integrated skills development programme

EMPLOYMENT INFORMATION

Task Grade	Position	2022/ 2023
15	Assistant Manager: Youth	Filled
10	Coordinator: Youth	Filled

COMMENT ON YOUTH DEVELLPMENT PERFORMANCE OVERALL

Our youth development programmes must provide a wide range of services, opportunities and support to young people. The programme must build on the strength of young people through skills development, leadership training, mentoring and transitioning youth through different life and problem stages.
Focus areas:

1. Need's (not in education, employment and/or training)
2. Life and personal skills development
3. Work skills development

4. Leadership and mentoring development
5. Education and
6. Entrepreneurship.

Our programmes are mostly done on a holistic level utilising social inclusion of Non-governmental Organisations and Non-profit Organisation. The following are the youth organisations in existence within the municipality:

1. Funda Nathi
2. United Communities – Imbizo (UNICO)
3. MAYO
4. VIVACE
5. Goldenfinch
6. Grind SA
7. Goodhope
8. Prospect
9. Upbeat
10. Lesedi
11. Izwi Lami

RELATIONSHIP BETWEEN THEMBISILE HANI LOCAL MUNICIPALITY YOUTH DEVELOPMENT UNIT AND NATIONAL YOUTH DEVELOPMENT AGENCY

Our relations with the National Youth Development on youth development related issues and programs continued to bear fruits for Thembisile Hani Local Municipality youth. This is informed by the continuous support that the youth in business are getting through their grant scheme. During the financial year 2021/22 the year under review, the NYDA has continued to fund the youth own co-operatives , SMME's and informal business through their grant scheme. On the 15th July 2022 NYDA had conducted an outreach programme whereby young people were informed about business opportunities. The event was conducted at Kwaggafontein whereby 50 participants graced the occasion.
Furthermore, NYDA also conducted Management Business Training on the 23rd October 2022 at Vlaklaagte 1 whrerin 24 youth participated

CAREER GUIDANCE AND COUNSELLING
THEMBISILE HANI LOCAL MUNICIPALITY CAREER EXHIBITION

One key area in youth development its education. Education also empowers individuals to participate meaningfully in the society. The amount and quality of education received by individuals is strongly associated with the probability of finding employment and with the level of wages one can expect to earn. It is for this reason, education is widely regarded as a key mechanism for bringing about transformation, eradication of poverty and reduction of unemployment. It is for that reason that the youth development will continuously conducting career guidance and counselling to the out-of-school youth (NEETs) and the youth at school.

This financial year 2022/23 and on the 02 December 2022 a career expo/ exit opportunities was held at Prospect Centre wherin 86 National Youth Services participants were given information about various opportunities they may pursue. Thembisile Hani Youth Development Unit (THYDU) in partnership with national Department of agriculture conducted an Agri- Career Expo on the 23rd June 2023 at Phumzile Secondary School addressing Sustainable Developmental Goals (SDG, 1, 2 and 4), 189 grade 11 and 12 learners were reached respectively.

DRUGS AND SUBSTANCE ABUSE

The municipality has over the years ensured the establishment and existence of the Local Drug Action Committee (LDAC), which has been working tirelessly in the fight against drugs and substance abuse by conducting door-to-door campaign, dialogues, face-to-face engagement, blitz and assisting with rehabilitation process. On the 3rd May 2023, LDAC conducted a

substance abuse awareness campaign at Verena, wherein 163 learners were reached. Furthermore, LDAC also reached 83 learners at Mkhempuli Secondary School by 23rd May 2023 raising a substance abuse awareness. On the 21st June 2023, LDAC conducted a blitz (information sharing) at Verena taxi rank wherein 120 people were reached.

SPORTS

Thembisile Hani Youth Development Unit (THYDU) has been able to pull all strings working together with the Department of Sports, Arts and Culture (DSAC) and Thembisile Hani Athletics Club (THAC) to host Solomon Mahlangu Marathon, which is currently registered with Mpumalanga Athletics. The marathon will be taking place during the month of October every year. On the 29th October 2022, THYDU in partnership with THAC held a successful half marathon. We envisage that in 2023 the marathon will run the following distances 5 km (fun walk/run), 10 km, 21 km and 42 km, with further intentions to register the 42 km as a pre-qualification for the Comrades Marathon by 2024. Furthermore, it is also envisage that there will be Mayoral Cup by August 2023

LIFE SKILLS

Teenage pregnancy is one of the challenges which beset the municipality especially school going girls. In mitigating such challenge THYDU in partnership with PEPFAR, USAID, FHI 360 conducted a pregnancy awareness campaign as well as giving mentoring and entrepreneurial skills to the girls below 24. The programme was conducted on the 11 May 2023 wherein 56 young girls benefited.

ENTREPRENEURSHIP / FUNDING ROADSHOW

On the 2nd February 2023 THYDU in partnership with the Office of the Premier (Mpumalanga) conducted a funding roadshow about Mpumalanga Youth Development Fund (MYDF) giving information about the fund as well as on how to ago about in completing the applications (MYDF). Two roadshow sessions were held at Vezubuhle and Kwaggafontein Community Halls wherein 134 budding entrepreneurs were reached respectively.

MAYORAL ACADEMIC AWARDS

On the 17th February 2023 there was Mayoral Awards for top perfomring learners as well as the circuit. The awarding ceremony was held at Khulisa Palace.

LEADERSHIP AND MENTORING

On the 10th February 2023 at KwaMhlanga community hall THYDU held a Summit whereby 50 participipants graced the occasion**.** Furthermore, THYDU in promoting leadership programme has exposed youth to various schemes such as Activate and Young African Leadership Initiative whereby four youth from our municipality have participated.

COMMENT ON STRATEGIC PLANNING PERFORMANCE OVERALL

The department of Municipal Manager does not dispose over any capital projects and functions mainly focus on compliance with various Acts and Regulations.

3.11 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

The performance by the LED Unit is 83% for the 2022/ 2023 financial year as compared to 87% for 2021/ 2022 financial year. The Unit has also re-established Local Economic Development (LED) forum with different stakeholders. These stakeholders range from government departments, SMME`s, NGO`s and Associations. The Forum was re-established in December 2022 and has since established working groups which are aligned to the economic sectors whichwithin the municipal area. The working groups are SMME`s and Cooperatives development, Rural Development, Agriculture and Tourism, Transport and logistics, Industrialization, Mining and Manufacturing and Infrastructure and Spatial Development.

.

LED STRATEGY

The Local Economic Development (LED) strategy is once again being reviewed with the assistance of the Nkangala District Municipality (NDM). The process plan of the draft strategy was presented to management for the members to understand it and make inputs in case they had. It is expected that the strategy will be a working document and will be improved from time to time as and when members feel so.

INVESTMENT ATTRACTION STRATEGY

The Department has tabled to Council the investment attraction strategy. The strategy has been adopted by council and it is expected that the Department will use the strategy to woo strategy to the Municipal shores to boost investment within the Municipality.

OUTREACH MEETINGS

The Unit hosted 2 outreach meetings for the previous year (2022/ 2023). These are meetings held with communities using stakeholders with a variety of skills and expertise aimed at enlightening members of the community on a particular subject: The outreach meetings are hosted in community halls, Kwaggafontein, Vezubuhle and Phola Park.

- Phola Community Hall
- Vezubuhle Community Hall (Ithemba Lomphakathi)

CREATION OF JOB OPPORTUNITIES THROUGH THE CAP

The LED Unit coordinated the creation of 1 375 down from 1 460 job opportunities through Community Works Programme (CWP)

Chapter 3

COMPONENT D: COMMUNITY & SOCIAL SERVICES

This Component Includes: Libraries; Sports, Art & Culture, Community Halls; A Child Care; Aged Care; Social Programmes, Gender.

3.12 LIBRARIES, EDUCATION, COMMUNITY FACILITIES AND SPORTS.

INTRODUCTION TO LIBRARIES AND OTHERS

LIBRARIES

The Municipal library services play a very important role in the work, education, and culture. The services that the libraries provide help people to carry out their work, studies and leisure time activities. Librarians assist anyone who needs assistance in finding information from books, encyclopedias, Encarta, pamphlets, periodicals and internet to meet their needs.

Community members take part in special programs and events in the library section, e.g., school projects, storytelling, reading clubs, etc.

Service Objectives	Service Targets	2021/ 2022	2022/ 2023
Library Campaigns	2	Story telling event was held at Empumelelweni Creche in Tweefontein A as part of literacy week. Two High Schools attended a library week at Phumula Library	8 library campaigns held in 2022/2023. Youth day celebration, literacy campaign, literacy campaign x 2, heritage and literacy campaign x2, library orientation.

COMMENTS ON THE PERFORMANCE OF LIBRARIES, SPORTS AND OTHERS OVERALL

The Municipality graded thirty-five (35) sports fields during 2022/ 2023 financial year. Bookings of facilities are on record for the hiring of these facilities.

3.13 CEMETORIES AND CREMATORIUMS

INTRODUCTION TO CEMETORIES

Currently, Forty (40) cemeteries under Thembisile Hani Local Municipality which form part of the municipal maintanace program. The municipal cemetery maintanace program commence in the regional cemetery called Buhlebesiwe. Some of the cemeteries need development of roads and continuas maintanace. The community in the rest of the incorporated areas in the Thembisile Hani Local Municipality area utilises the cemeteries in the nearest vicinity.

COMMENT ON THE PERFORMANCE OF CEMETORIES

The service delivery priorities are to provide and maintain cemeteries, to continuously update and keep record of cemetery registers – also captured on electronic database. Plan and develop future cemeteries to ensure that sufficient space is available. Another priority is to maintain and upgrade the existing equipment, vehicles, system, and procedures to ensure a quality service to the community. The foregoing priorities will be met through maintaining all cemeteries by cutting grass, removal of weeds, and planting of trees. The database neeed to be developed and kept up to date, and the cemetery registers updated regularly. EPWP projects were introduced to clean cemeteries on a daily basis, and through that, local people received an income and cemeteries are cleaned.

3.14 CHILD CARE; AGED CARE; SOCIAL PROGRAMMES (HEALTH AND WELFARE)

There is only one community hospital in the sub-region, Kwamhlanga hospital. There are six Community Health Centres (CHC) namely

- Kwaggafontein CHC
- Buhlebesizwe CHC
- Verena CHC
- Moloto CHC
- Thembalethu CHC
- Kwamhlanga CHC

There are fifteen clinics namely;

- Zithabiseni clinic
- Goederede clinic
- Mzimuhle clinic
- Matheyzensloop clinic
- Kwaggafontein “a” clinic
- Tweefontein “a” clinic
- Tweefontein ‘c’ clinic
- Tweefontein ‘d’ clinic
- Tweefontein ‘h’ clinic
- Veterinary clinic Kwafene
- Tweefontein ‘m’ clinic
- Empilweni clinic
- Kameelpoortnek clinic
- Kwamhlanga clinic
- Vriesgewacht clinic
- Vlaklaagte no.1 clinic

The Municipality needs to strengthen the HIV/AIDS awareness campaign in its area of jurisdiction to minimise the infection rate. The high unemployment rate and the lack of skills creates poverty and increases the demand for social grants provision by government

COMMENT ON CHILD CARE; AGED CARE; SOCIAL PROGRAMMES PERFORMANCE OVERALL

The health service unit consist of one person who is coordinator, reporting to the Manager Social Development Service. The unit is fully functional. The Municipality conducted dialogues, HIV counselling and testing (hot) campaigns and training to support and reduce the impact of the HIV/AIDS on individuals, family community and society by expanding access to appropriate treatment, adhere care and support in accordance with the South African Strategic Plan (NSP) 2022/ 2027 to address focus for impact, and reach the 90 goals by 2030. The Municipality conducted 11 HIV/AIDS related campaigns in 2022/ 2023 financial year. Thembisile Hani Local Municipality has established a local Command Council which assist with the coordination of response strategies and programmes.

Chapter 3

TRANSVERSAL

INTRODUCTION

The special programmes unit in the office of the Manager SDS, (which comprises four sub-programmes: issues on the status of women, issues on the status of persons with disability issues on the rights of a child and issues on elderly) is amongst others mandated to monitor and evaluate mainstreaming of gender equality and women empowerment, rights of persons with disability, elderly and rights of children into programmes of the Municipality. The core functions of special programmes unit are: advocacy, capacity building, policy analysis, research, monitoring and evaluation.

Strategies

- Guide the Municipality in developing appropriate programmes.
- Provide strategic interventions to facilitate gender policy implementation in the Municipality.
- Promote the integration of gender equity and equality, and women, persons with disability, elderly and children empowerment in the Municipality development programmes and service delivery
- Raise awareness on the constitutional and development roles and responsibilities of Municipal department stake holders as development agents.
- Alert stakeholders of the Municipality about the gender implications of their work.
- Contribute to the development of the performance systems by introducing gender-sensitive indicators

COMMENT ON TRANSVERSAL PERFORMANCE OVERALL

The Municipality has two officials dealing with special programmes in conjunction with the Nkangala District municipality.

Transversal Unit implemented 20 programmatic activities/ events during 2023.

FINANCIAL PERFORMANCE 2021/ 2022 AND 2022/ 2023: CHILD CARE; AGED CARE; SOCIAL PROGRAMMES

The child care, aged care and social programme are using the same vote with libraries under vote 107: Social Development Services.

COMPONENT E: ENVIROMENTAL PROTECTION

3.15 POLLUTION CONTROL

Not a function of Thembisile Hani Local Municipality.

3.16 BIO-DIVERSITY; LANDSCAPE (INCL. OPEN SPACES); AND OTHER (E.G. COASTAL PROTECTION)

Not a function of Thembisile Hani Local Municipality.

COMPONENT F: HEALTH

3.17 CLINICS

Not a function of Thembisile Hani Local Municipality.

3.18 AMBULANCE SERVICES

Not a function of Thembisile Hani Local Municipality.

3.19 HEALTH INSPECTION OF PREMISE AND BUSINESS FOR LICENCING

Environmental health services continued to be provided without funding from National Treasury. with a limited budget and diminishing resources the nine functional areas relating to environmental health services as defined in the National Health Act, no. 61 of 2003 were carried out but not fully to ensure effective and efficient service delivery within the areas of thembisile.

The service delivery priorities focused on water quality monitoring, food quality and safety, health surveillance of premises and vector control. However, the departmental of Technical Services was used for the monitoring of water quality.

COMMENT ON HEALTH INSPECTION AND ENVIROMENTAL HEALTH PERFORMANCE OVERALL

The Municipality conducted (96) business inspections in (37) villages. Routine business inspections were conducted by the environmental health practitioner.

COMPONENT H: SPORT AND RECREATION

3.23 SPORT AND RECREATION

INTRODUCTION

Community Services provides a number of benefits to our community, which helps to strengthen families, build healthy communities, improve the quality of life for residents and encourage the healthy development of children and help inspire community leaders to achieve cohesive society.

COMMENT ON THE PERFORMANCE OF SPORT AND RECREATION OVERALL:

(a) **Building and maintenance of the community parks:**

The municipality has managed successfully to build and maintained two community parks in Mzimuhle village and Kwamhlanga Township. The community parks provide for instrinsic environmental, aesthetic and recreation benfits to the communities at large and also assist in reducing self – distructive, anti – Social Behavior and reduce crime in the communities.

(b) **Maintenance of community sports fields**:

The municipality managed successfully to grade and maintain 32 community sports fields in various villages and townships and thus managed to promote access to basic sports infrastructure services.

The municipality supported the hosting of sports capmaigns, activities and sports festivals at the Solomon Mahlangu stadium which served amongst other things as the economic generators and thus attracted prime economic development.

(c) **Management of out door gym:**

The municipality has managed successfully to promote access to the out door gym at the Mthombomuhle stadium which reduces the severity of illness and disability – lowering health care costs and attained self sufficient communities.

FINANCIAL PERFORMANCE AND CAPITAL EXPENDITURE FOR SPORTS GROUND, STADIUMS AND SPORTS FACILITY MANAGEMENT FOR 2021/ 2022 AND 2022/ 2023

The Sport and Recreation is using the same vote with Sprots Ground, Stadiums and Sports Facility Management under vote 300: Communicty and Social Services.

Chapter 3

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

This component includes: Corporate Policy Offices, Financial Services, Human Resource Services, ICT Services, and Property Services.

INTRODUCTION TO CORPORATE POLICY OFFICES

Chapter 7 of the constitution of the Republic of South Africa states that the Municipality comprise of Councillors, officials and the community. In order for the Municipality to govern its affairs correctly it must consult with the community to ensure that needs are correctly determined, explained and included in the IDP for service delivery purposes. Policies must be put in place which will address the needs of the community in terms of how service delivery matters will be addressed.

In order for the Municipality to be able to address the service delivery matters the Municipality must approve a budget that will be commensurate with the needs/projects identified for the particular year. This budget must also address matters of staff and this can only be achieved through the costed organogram that must be cost effective but also provide sufficient managerial and other positions in order to be able to render effective and satisfactory delivery of services.

Management must ensure that tools of trade are made available to the staff. This will include ICT services and networks including the necessary licenses. In order for the Municipality to finance the service delivery issues it must ensure that the budgetary expenditure will be redeemed through cash collection that will be generated by payment for services. the payment for services will be covered by the payments for rates and taxes and will include proper and sufficient Municipal service delivery networks like water pipes and reservoirs as well as sewer and electrical (street lights and high mast lights) networks and plant and equipment.

3.24 EXECUTIVE AND COUNCIL

This component includes: executive office (Executive Mayor; Councilors; and Public Participation).

INTRODUCTION TO EXECUTIVE AND COUNCIL

In terms of chapter 7 section 151 (2) of the constitution of the Republic of South Africa, 1996, the executive and legislative authority of a Municipality is vested in its Municipal Council.

The Municipal Council of the Thembisile Hani Local Municipality is established as a Municipality with a Mayoral Committee system which is combined with a Ward participatory system in terms of chapter 12 of the Municipal Structures Act, 117 of 1998. Section 152 of the constitution spells out categorically clear, the objectives of local government and the powers and functions of Municipalities are determined in Section 156 of the Constitution.
The executive authority of the Council is vested with the Executive Mayor who must however report to Council and is assisted by the members of the Mayoral Committee established by the Executive Mayor and can take decision. However, there are certain matters on which the Executive Mayor as the head of the Municipality cannot take decisions i.e. the approval of the budget, IDP and by-laws, as these matters cannot be delegated and must be approved by Council.

In terms of delegation of powers certain matters may be delegated to the Executive Mayor by Council who will in turn also sub-delegate to the Municipal Manager. The Municipal Manager may also sub-delegate to managers who may in turn further sub-delegate to other officials.
Section 152 of the constitution sets among others the following objectives for local government:

(a) To provide democratic and accountable government for local communities
(b) To ensure the provision of services to communities in a sustainable manner
(c) To promote social and economic development

In order to ensure sustainable service delivery to the community's Council sets the top three service delivery priorities as follows in order to achieve good governance levels.

- Risk management: Council has developed risk management strategy or policy that enables Council to conduct risk assessment which has already been done. This exercise also enabled the Council to develop a plan on internal controls to mitigate and control.
- Internal Audit: Council managed to establish the Audit Committee and it sits regularly assisting on assessing the reporting on management of risk and other matters relating to good governance.
- Accounting and auditing: Council has established the Audit Committee which assists in reviewing the Annual Financial Statements and also to monitor the effectiveness of the internal controls and risk management.

3.25 FINANCIAL SERVICES

INTRODUCTION TO BUDGET AND TREASURY OFFICE

The department deals with the administration of finances of the Municipality i.e. own budget as well as the money received from government fiscal i.e. allocation by government to the Municipality to enhance service delivery as in MIG and equitable shares. In order for the Municipality to have effective service delivery, budget and IDP processes is being followed in order to ensure Public Participation to cover all community proposals in terms of projects.

The department must develop budget related policies and by-laws to govern consistently charging of moneys for services rendered to the communities. There will be internal and external audits in order to ensure management of risk and curbing corruption while encouraging the implementation of policies.

The following problems were identified with regards to the below average collection rate and we have identified initiatives that will make a difference in the collection rate. One of the main actions to take is to make sure that we intensify the education to communities to pay Municipal services.

Different strategies have to be put in place for regular defaulters as opposed to consumers defaulting occasionally: -

- Through awareness campaigns, consumers need to be made aware of the services provided by the Council.
- We need to explain to the consumers why they have to pay for services
- Provision of incentives such as the 90% Amnesty reduction
- Political support
- Issuing monthly statements to the consumer on regularly for payment of services
- The deposits of regular defaulters should be increased according to their liability profile
- Implementation of credit control policy

3.26 HUMAN RESOURCE (CORPORATE) SERVICES

INTRODUCTION TO HUMAN RESOURCE SERVICES

The Municipality has submitted to the department of labour the employment equity report and return of earnings in terms of the Employment Equity Act and the compensation for occupational injuries and disease Act respectively. In addition to that, the work skills plan approved by Council has been submitted to the Local Government Seta

The approved organisational structure is in place and critical existing posts in the 2022/ 2023 financial year were filled in line with the structure. All the HR policies were reviewed and adopted by Council. The Municipality has undertaken the organisational reengineering to ensure that the organisation is in alignment with the IDP and budget as well as to ensure that the employee's job descriptions are aligned with these strategic documents.

SERVICE STATISTICS FOR HUMAN RESOURCE SERVICES

Total personnel expenditure trends in the last two years

The following table reflects the total personnel expenditure trends from 2020/ 2021 to 2022/ 2023

Financial Year	(R)
2020/ 2021	R 150 745 983
2021/ 2022	R 162 892 636
2022/ 2023	R 189 161 504

Pension Fund

The composition of membership for pension and provident funds was as follows

Pension Fund	Number Of Members		
	2020/ 2021	2021/ 2022	2022/ 2023

5 Spek solution	Fleet monitoring system	2years
6 Mhangana Fleet	Fleet monitoring system	3years
6 Siyafana nathi	Fuel services	Terminated
7 Siyafana Thina	Fuel services	Terminated

Chapter 3

COMPONENT J: MISCELLANEOUS

Not applicable to Thembisile Hani Local Municipality

COMPONENT K: ORGANISATIONAL PERFOMANCE SCORECARD

THIS COMPONENT INCLUDES: ANNUAL PERFORMANCE SCORECARD REPORT FOR THE CURRENT YEAR.

INTRODUCTION AND BACKGROUND

The Municipal Planning and Performance Management Regulations (2001) stipulates that a "Municipality's Performance Management System entails a framework that describes and represents how the Municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the roles of the different role-players" (chapter 3, section 7, Municipal Planning and Performance Management Regulations, 2001).

The 2022/ 2023 Performance Management Framework and policy was adopted by Council.

The Annual Performance Report must be presented to the Auditor General for auditing together with the Annual Financial Statements on 31 August 2023.

This report is compiled in terms of the Municipal Systems Act (MSA), 32 of 2000, section 46(1) and (2). It covers the performance information of the Municipality from 1 July 2022 to 30 June 2023 and focuses on the implementation of the 2022/ 2023 Revised Service Delivery Budget and Implementation Plan (SDBIP), in relation to the objectives as encapsulated in the Municipality's Integrated Development Plan (IDP). In addition, the report provides an overview of improvements made to the Performance Management System (PMS) and an overview of financial performance.

Overview of Performance Management in the Last Three Financial Years				
Municipality	**Overall Performance for the 2022/ 2023 FY (Unaudited)**	**Overall Performance for the 2021/ 2022 FY**	**Overall Performance for the 2020/ 2021 FY**	**Overall Performance for the 2019/ 2020 FY**
Thembisile Hani Local Municipality	83%	80%	79%	72%

Narrative on the Challenges and Remedial Measures implemented:

- Internal audit and risk management recommendations that are not yet implemented in full
- Projects that were not implemented as per procument plan, delays in appointments that have a negative impact on the overall planned targets.
- Challenges in the Spatial Rational KPA, off which some KPI's are dependent on actions of other Organs of State such as your Municipal Planning etc.
- The late or non-submission of Portfolio of Evidence cancer has been addressed, which affected the Municipality negatively in the past
- Malfeasance has been eradicated and a culture of efficiency and effectiveness has been created in the Municipality, which is driven by full understanding of the importance of quality assurance as a backbone of performance in the Municipality.

• The shared Audit and Performance Committee service has now been extended to the entire district and THLM is part of that service, and Performance Audit Committees are functional and meetings are convened quarterly.				
Overview of Audit Outcomes in the Last Three Financial Years				
Municipality	**2022/ 2023 FY Audit Outcome**	**2021/ 2022 FY Audit Outcome**	**2020/ 2021 FY Audit Outcome**	**2019/ 2020 FY Audit Outcome**
Thembisile Hani Local Municipality	Unqualified with Matters	Unqualified with Matters	Unqualified with Matters	Qualified with Material Matters

In the year under review (2022/ 2023), Thembisile Hani Local Municipality had six (6) departments, namely; Technical Services, Social Services, Corporate Services, Finance Service, Municipal Manager's Office, as well as the Planning and Economic Development.

PURPOSE

The purpose of this report is to provide the records of the activities for the financial year 2022/ 2023 to Cooperative Governance and Traditional Affairs, Provincial and National Treasury, and Auditor-General and to the citizens of Thembisile Hani Local Municipality on progress being made by Municipality towards achieving the overall goals. Furthermore, the report is a key performance report to the communities and other stakeholders in keeping with the principles of transparency and accountability of government to the citizens.

METHODOLOGY FOLLOWED IN COMPILING THE REPORT

In terms of Section 46 of the Municipal Systems Act 32 of 2000,
(1) A Municipality must prepare for each financial year a performance report reflecting-
(a) The performance of the Municipality and of each external service provider during that financial year;
(b) A comparison of the performances referred to in paragraph (a) with targets set for and performances in the previous financial year and
(c) Measures taken to improve performance.
(2) An Annual Performance Report must form part of the Municipality's Annual Report in terms of chapter 12 of the Municipal Finance Management Act.
In terms of Chapter 6 of the Municipal System Act, No. 32 of 2000 Municipalities must monitor and measure the progress of their performance by preparing Quarterly, Mid-year and Annual Performance Reports.

INSTITUTIONAL PERFORMANCE MANAGEMENT PROCESS OVERVIEW

In the 2022/ 2023 financial year, every attempt was made to ensure that the Municipality complies with the legislation concerning the development, operation and maintenance of a Performance Management System that is commensurate to the institutional service delivery objectives captured in the IDP. Thembisile Hani Local Municipality has continued to maintain an effective operation of the following mechanisms:

- The 2022/ 2023 IDP included strategic objectives, strategies and key performance indicators (KPI's) as required by the Municipal Systems Act, 32 of 2000;
- The budget for implementation of the IDP was approved within the prescribed timelines prescribed in the Municipal Finance Management Act, 56 of 2003;
- After approval of the budget, the SDBIP was developed to integrate the IDP and the budget and to ensure effective implementation of the institutional strategies;
- Performance agreements which incorporates performance plans were developed and signed as required by the Municipal Performance Regulations, 2006;

- Quarterly performance reports with supporting evidence were prepared by managers directly reporting to the Municipal Manager (MM);
- Quarterly performance reports were objectively and independently audited by the Internal Audit Unit verifying the accuracy and credibility of the reported performance information; and
- The Performance Audit Committee (PAC) functioned optimally in the year; in line with the Committee's approved terms of reference

DEVELOPMENT OBJECTIVES

The following are the strategic objectives that the Municipality has set:

- To improve the organisational development capacity of the Municipality in order to render effective service delivery
- To enhance revenue and to ensure financial viability and sustainability.
- To reduce infrastructure and service backlogs and to establish a high quality environment with the associated physical infrastructure.
- To improve the quality of life of the community by providing them, with water supply, sanitation, roads as well as amenities such community halls and basic recreational facilities.
- To improve the quality of life of the community through providing them with community facilities and containing the HIV/AIDS epidemic in the area.
- To ensure that residents live within a safe environment by illuminating strategic nodal point.
- To utilize the Municipal area's agricultural potential to the maximum
- To promote local economic development and growth through the identification and facilitation of economic opportunities, tourism and mining.
- To deepen democracy and strengthen democratic institutions through active Public Participation

MUNICIPAL PRIORITIES

The Annual Performance Report is structured to show how projects were implemented within the financial year to address the IDP priorities.

- issue 1: institutional development
- issue 2: financial viability
- issue 3: public participation and good governance
- issue 4: water
- issue 5: sanitation
- issue 6: electricity (communal and street light)
- issue 7: road and stormwater
- issue 8: public transport
- issue 9: cemeteries
- issue 10: waste and environmental management
- issue 11: Municipal facilities, sport, recreation, art & culture
- issue 12: public safety, security and emergency services
- issue 13: spatial planning and land use management
- issue 14: local economic development
- issue 15: youth development
- issue16: transversal issue

Chapter 3

OVERALL CONCLUSION

During the 2022/ 2023 financial year the overall performance of Thembisile Hani Local Municipality is **83%** success rate achievement. As compared to **80%** success rate achieved during the 2021/ 2022 financial year.

Total	**13**	**2**	**15.38%**	**6.5%**	**0**

COMMENT ON INJURY AND SICK LEAVE

The Municipality has experience some injuries which have been dealt with in terms of applicable legislation as well as sick leave.

4.4 PERFORMANCE REWARDS

No performance rewards were issued during the 2022/ 2023 financial year.

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

As the MSA 2000 section 68 prescribes that it is requirement that Municipalities need to develop their own Human Resource capacity to a level that enables them to perform their functions and exercise their powers in an economical, effective, efficient and accountable way.

Currently in compliance to the above statement Thembisile Hani Local Municipality has a work skills plan that is approved to ensure that all employees are capacitated/empowered with the necessary information on training and development, which then provides all incumbents access to relevant prioritized training interventions that are needs driven and are aligned to the business objectives by optimally developing the potential of employees.

4.5 SKILLS DEVELOPMENT AND TRAINING

Progress report about the enforcement of the minimum competency Regulations

In terms of the regulations on minimum competency levels all Municipal Managers, Senior and line Managers are required to be competent in order for them to render an effective and efficient service. The below listed senior and line managers were found to be compliant with the prescribed requirements as outlined in the regulation.

Name	Designation	Unit Standards achieved
Nkosi Oscar Nkosikhona	Former Accounting Officer	28 Unit Standards
Mahlangu Dumisani	Accounting Officer	21 Unit Standards
Jessica Mahlangu	Chief Financial Officer	17 Unit Standards
Chego Abram Kokoyana	Former Social Services Manager	21 Unit Standards
Nxumalo Sephule Angel	Corporate Services Manager	28 Unit Standards
Sehlako Lydia Sadi	Assistant Manager: SCM	21 Unit Standards
Moyo Joster Joseph	Ass Manager: Budget & Reporting	17 Unit Standards
Ledwaba Oupa Derick	Assistant Manager: Revenue Management	24 Unit Standards
Makhubele Richard	Assistant Manager: Assets Management	28 Unit Standards
Tsebe Madumetja Stephen	Planning & Economic Development Manager	21 Unit Standards
Skosana Vusimuzi Lawrens	Former Technical Services Manager	24 Unit Standards
Mtshweni Walter Mavundla	Technical Services Manager	28 Unit Standards

Any person appointed to a managerial position and who does not meet the minimum competency level for the position, in terms of the Regulations must attain that minimum competency level within 18 months from the date of appointment.

BACKGROUND

Thembisile Hani Local Municipality embarked on the implementation of the regulations on minimum competency levels as per government gazette no.: 29967. In terms of the regulations on minimum competency levels, Accounting officers, Chief Financial Officers, Senior Managers, Financial officials at middle management finance and supply chain finance management officials are amongst others required to comply with such regulations. In compliance with the regulations, Senior Managers, and key positions especially in the department of finance meet the minimum competencies as prescribed.

PROGRESS

Below, is a list of officials below that level that are enrolled in Public Finance Management & Administration (PFMA) with Fachs, viz;

1. Mr. Bhuda Mshiwa Amos

2. Ms Kabini Evah

3. Ms. Maseko Gabisile

4. Mr. Komane Tshepiso

5. Ms. Mthembu Buyisiwe Chriseldah

6. Ms Sibongile Mtshweni

This programme was completed on the 30th of June 2023.

Other interventions

Training interventions are targeted for implementation in the Municipal Finance Management Programme for Municipal officials for (12 months)

The budget for 2022/ 23 WSP is R 2,558,672.50 and the expenditure is R 2,272,864.50

Chapter 4

INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

COMPONENT D: MANAGING THE WORKFORCE EXPENDITURE

INTRODUCTION TO WORKFORCE EXPENDITURE

Workforce expenditure is a major part of the operational expenditure of the Thembisile Hani Local Municipality. as it is mostly a fixed cost, proper planning and assessment of post requirements are necessary to make sure that the best available personnel is employed to meet the mandate of the Municipality in service delivery to the community as well as obtaining its objectives.

There is a strong national drive for creating employment and Municipalities are one arm of government that normally feels the pressure to create new jobs in its sphere. Although we support the creation of employment and we understand the expectation of the communities in this regard, the financial viability of the Thembisile Hani Local Municipality must be recognized. The creation and filling of posts are budgeted for and measured against the approved budget and operational requirements.

The remuneration part of the employment costs is determined through the bargaining Council and therefore out of our hands. Three variables that we have to keep monitoring and control are the vacancy rate, employee performance and overtime paid. We have put a lot of emphases on the monitoring and control of overtime worked as we believe that overtime is only necessary in specific scenarios and can indicate inefficiency or staff shortages (including high absenteeism). Performance management is of utmost importance to increase the efficiency and thus output of the workforce. There is still a way to go in implementing necessary measures and controls with the necessary buy-in of the employees.

4.6 EMPLOYEE EXPENDITURE

COMMENT ON WORKFORCE EXPENDITURE

The expenditure on employment costs at the Thembisile Hani Local Municipality seems to be stable and is in line with other similar Municipalities. The financial interests of the Executive Mayor, Councillors and senior management, as required by Performance Management Regulations 805 of 2006 are set out in **1.4 under financial health overview**.

- No employee whose salaries were increased due to their position being upgraded.
- No employee whose salary level exceed the grade determined by job evaluation
- No employee not appointed to posts not approved.

Chapter 5

CHAPTER 5 – FINANCIAL PERFORMANCE

INTRODUCTION

Chapter 5 contains information regarding financial performance and highlights specific accomplishments. The chapter comprises of four components:
Component A: Statement of Financial Performance
Component B: Spending Against Capital Budget
Component C: Cash Flow Management and Investments
Component D: Other Financial Matters

The Municipality on its annual budget catered for any inflationary related surprises, and it also had a plan to negotiate with its creditors. Also the demand management unit within the SCM unit was proactive in addressing all this. There is no expensive consultancy arrangement that can be singled out however the Municipality was smart in handling them and was satisfied with the amounts paid to them.

Chapter 5

5.3 ASSET MANAGEMENT

INTRODUCTION TO ASSET MANAGEMENT

The purpose of asset management in Thembisile Hani Local Municipality is to ensure the effective and efficient control, utilization, safeguarding and management of the Municipal's property, plant and equipment and to make managers aware of their responsibilities in regard of property, plant and equipment.

COMMENT ON ASSET MANAGEMENT

The below projects were driven by the PMU unit. the grants are received from government to improve infrastructure assets in various areas for better living conditions these assets are grant funded and budget were approved for these capital projects and for audit purposes these assets were signed off with a complete certificate that were obtain from different contractors before these projects could have been signed off for completeness for audit purposes.

5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

Year	Liquidity Ratio
2020/ 2021	3.4
2021/ 2022	5.4
2022/ 2023	2.7

COMMENT ON LIQUIDITY RATIO

Year	Outstanding Service Debtor To Revenue
2020/ 2021	2 474 days
2021/ 2022	1 546 days
2022/ 2023	1 577 days

COMMENT ON OUTSTANDING SERVICE DEBTOR TO REVENUE

Debtors as extension beyond 30 days poses a cash flow risk in the table above the extended payment are beyond acceptability. The debt coverage ratio is not stable during the last two financial periods as the result of non-stable operating income and low collection of own income.

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

INTRODUCTION TO SPENDING AGAINST CAPITAL BUDGET

Thembisile Hani Local Municipality's capital budget is mainly funded from the MIG and internal funds. The biggest MIG funded project was on the Luthuli water reticulation.

5.8 BASIC SERVICE AND INFRASTRUCTURE BACKLOGS – OVERVIEW

The municipality has managed to provided access to basic to 64 151 households whislt the backlog remains at 28 312 households and in relation to sanitation only 2 446 houses have access to water bourne sanitation and its backlogs stands at 80 294. Elctricity backlog is standing at 26 260 households and refuse removal is at 29 260 households 5 086 households.

The Municipal grants expenditure 2022/ 2023 service delivery backlogs are explained more on the chapter 3 under basic service delivery.

COMPONENT C: CASH FLOW MANAGEMENT AND INVESTMENTS

INTRODUCTION TO CASH FLOW MANAGEMENT AND INVESTMENTS

Proper cash flow management is a critical element to ensure the Municipality meets its obligations. A stable positive cash flow balance relative to the growth of the Municipality is a good indication of the Municipality financial position and health. Cash flow projections are done on a monthly basis and cash not immediately required are invested for a better return on the short term.

Thembisile Hani Local Municipality's cash flow is daily monitored by the finance management section. There is also monthly reporting to the Executive Mayor in the form of section 71 reports and quarterly reports to Council.

5.11 PUBLIC PRIVATE PARTNERSHIP

The municipality did not enter into any Public Private Partnerships

COMPONENT D: OTHER FINANCIAL MATTERS

5.12 SUPPLY CHAIN MANAGEMENT

The Council has developed its policy in line with the Municipal Supply Chain Management Regulations and MFMA circulars issued by the National Treasury. The municipality has implemented the use of the national supplier's database. The bid committees were established and are fully functional, namely the bid specification committee, bid evaluation committee, and bid adjudication committee. The committees are appointed in terms of proper delegation and in terms of legislation. The bid committees are functioning as well.

All members of the bid specification, bid evaluation, and bid adjudication committees are delegated in writing by the municipal manager to serve on these respective committees. These delegations are accepted in writing, and records thereof are available. All bid committee members have completed the declaration forms in relation to financial and business interests. The following persons served on the following respective committees:

Bid Specification Committee

Mr. Z. Nkosi (Chairperson)
Ms. N. Mbandze
Mr. S. Nkadimeng
Ms. J. Msiza
Mr. T. Komane

Bid Evaluation Committee

Mr. K. Mabuela (Chairperson)
Ms. F. Ntuli
Mr. T. Maphutha
Mr. S. Jiyane
Mr. K. Mamabolo
Mr. M. Tefo

Bid Adjudication Committee

Ms. J. Mahlangu (Chairperson)
Ms. P. Sibiya
Mr. A. Chego
Mr. M. Tsebe
Ms. L. Nxumalo
Mr. W. Mtshweni
Ms. L. Sehlako

The Supply Chain Management unit is a fully fledged unit operating with five (5) officials. Only three (03) officials meet the minimum competency levels as prescribed in the MFMA competency regulation guidelines. There are currently no challenges with the functioning of bid committees. The municipality has developed a procurement plan for capital projects for the 2022–2023 financial year, and all procurement requirements are measured against the plan. The National Treasury has issued guidelines for municipal competency levels for heads of supply chain management units.

5.13 GRAP COMPLIANCE

GRAP COMPLIANCE

The Annual Financial Statements have been prepared and presented in accordance with the standard of GRAP and the preparing and presentation of the GRAP compliant AFS is improving in each and every year.

Chapter 6

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

INTRODUCTION

The constitution s188 (1) (b) states that the functions of the Auditor-General include the auditing and reporting on the accounts, financial statements and financial management of all Municipalities. MSA section 45 states that the results of performance measurement must be audited annually by the Auditor-General.

COMPONENT A: AUDITOR-GENERAL OPINION 2021/ 2022

6.1 AUDITOR GENERAL REPORTS 2021/ 2022

Report of the auditor-general to the Mpumalanga Provincial Legislature and the council on the Thembisile Hani Local Municipality

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Thembisile Hani Local Municipality set out on pages 1 to 95, which comprise the statement of financial position as at 30 June 2022, statement of financial performance, statement of changes in net assets, cash flow statement, statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.

2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Thembisile Hani Local Municipality as at 30 June 2022, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 9 of 2021 (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.

4. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Material impairments – consumer debtors

7. As disclosed in note 10 to the financial statements, the municipality incurred a material impairment of the consumer debtors of R1,6 billion (2020-21: R1,4 billion) as a result of impairment provision for doubtful debts.

Restatement of corresponding figures

8. As disclosed in note 40 to the financial statements, the corresponding figures for 30 June 2023 were restated as a result of an error in the financial statements of the municipality at, and for the year ended, 30 June 2022.

Irregular expenditure

9. As disclosed in note 44 to the financial statements, irregular expenditure of R72,9 million was incurred due to non-compliance with supply chain management legislation.

Material losses – loss on property, plant and equipment derecognised

10. As disclosed in the statement of financial performance, material losses of R7,3 million were incurred as a result of assets that were derecognised.

Other matter

11. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure note

12. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of the accounting officer for the financial statements

13. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

14. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

15. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

16. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

17. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report. I performed procedures to identify material findings but not to gather evidence to express assurance.

18. My procedures address the usefulness and reliability of the reported performance information, which must be based on the municipality's approved performance planning documents. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures do not examine whether the actions taken by the municipality enabled service delivery. My procedures do not extend to any disclosures or assertions relating to the extent of achievements in the current year or planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.

19. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected development priorities presented in the municipality's annual performance report for the year ended 30 June 2022:

Development priorities	Pages in the annual performance report
KPA 1 – basic service delivery	5 – 26

20. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

21. The material findings on the usefulness and reliability of the performance information of the selected development priorities are as follows:

KPA 1 – basic service delivery

VARIOUS INDICATORS

22. The source information for measuring the planned indicator was not clearly defined, and related systems and processes were not adequate to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. As a result, limitations were placed on the scope of my work and I was unable to audit the reliability of the achievements for the key performance indicators (KPIs) below reported against targets in the annual performance report.

Key performance indicator	Planned target	Reported achievement
DTS007: Number of households provided with water	91 007	64 267
DTS003: Number of households provided with free basic water	91 007	64 267

Other matters

23. I draw attention to the matters below.

Achievement of planned targets

24. Refer to the annual performance report on page(s) 5 to 5; for information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraph 22 of this report.

Adjustment of material misstatements

25. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of basic service delivery. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

Report on the audit of compliance with legislation

Introduction and scope

26. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the municipality's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

27. The material findings on compliance with specific matters in key legislation are as follows:

Annual financial statements

28. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, revenue and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

Procurement and contract management

29. The invitation to tender for procurement of commodities designated for local content and production did not stipulate the minimum threshold for local production and content as required by the 2017 preferential procurement regulation 8(2). This non-compliance was identified in the procurement processes for the procurement of safety boots sizes and uniform.

Revenue management

30. Accounts for municipal tax and service charges were not prepared on at least a monthly basis, as required by section 64(2)(c) of the MFMA.

Strategic planning and performance management

31. Accounts for municipal tax and service charges were not prepared on at least a monthly basis, as required by section 64(2)(c) of the MFMA.

Human resource management

32. Appropriate systems and procedures to monitor, measure and evaluate performance of staff were not developed and adopted, as required by section 67(1)(d) of the MSA.

Other information

33. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and those

selected development priorities presented in the annual performance report that have been specifically reported in this auditor's report.

34. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion on it.

35. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected development priorities presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

36. If based on the work we have performed we conclude that there is a material misstatement in other information, we are required to report on that fact. I have nothing to report in this regard.

Internal control deficiencies

37. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on the annual performance report and the findings on compliance with legislation included in this report.

38. Insufficient oversight, monitoring and review of the implementation of internal controls during the year resulted in material misstatements in the financial statements and the annual performance report.

39. The non-compliance with legislation identified could have been prevented had compliance been properly monitored and reviewed. Monitoring and corrective controls in place to prevent non-compliance with applicable legislation were not adequate.

Other reports

40. I draw attention to the following engagements conducted by various parties which had, or could have, an impact on the matters reported in the municipality's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.

41. At the time of this report, the South African Police Service (SAPS) was investigating allegations of fraud for under-banking of revenue collected by the municipality for the licensing function performed by the Department of Licensing and Traffic Control (DLTC). The investigation is in progress and the expected date of the outcome is unknown.

Chapter 6

Auditor-General

Mbombela

1 December 2022

AUDITOR-GENERAL SOUTH AFRICA

Auditing to build public confidence

Annexure – Auditor-general's responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgment and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected development priorities and on the municipality's compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
- conclude on the appropriateness of the accounting officer's use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Thembisile Hani Local Municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipality to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

4. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, the actions taken to eliminate threats or the safeguards applied.

COMPONENT B: AUDITOR-GENERAL OPINION 2022/ 2023

6.2 AUDITOR GENERAL REPORTS 2022/ 2023

Report of the auditor-general to Mpumalanga Provincial Legislature and the council on the Thembisile Hani Local Municipality

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Thembisile Hani Local Municipality set out on pages 394 to 498, which comprise the statement of financial position as at 30 June 2023, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.

2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Thembisile Hani Local Municipality as at 30 June 2023 and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practices (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 5 of 2022 (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor- general for the audit of the financial statements section of my report.

4. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Material impairments - Consumer debtors

7. As disclosed in note 10 to the financial statements, material impairment of R1,87 billion was incurred as a result of provision to write off debtors as irrecoverable.

Restatement of corresponding figures

8. As disclosed in note 42 to the financial statements, the corresponding figures for 30 June 2022 were restated as a result of an error in the financial statements of the municipality at, and for the year ended, 30 June 2023.

Irregular expenditure

9. As disclosed in note 46 to the financial statements, irregular expenditure of R36,16 million was incurred as a result of non-compliance with supply chain management legislations.

Other matters

10. I draw attention to the matters below. My opinion is not modified in respect of this matter.

Unaudited disclosure note

11. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of the accounting officer for the financial statements

12. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and Dora; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

13. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

14. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

15. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

16. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected development priority presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.

17. I selected the following development priority presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected a development priority that measures the municipality's performance on its primary mandated functions and that is of significant national, community or public interest.

Development priority	Page numbers	Purpose
Basic service delivery	168-193	To provide households with basic services including water, adequate sanitation, adequate public lighting and accessible road. To create a safe, clean and healthy environment conducive for social development.

18. I evaluated the reported performance information for the selected development priority against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipality's planning and delivery on its mandate and objectives.

19. I performed procedures to test whether:

- the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives
- the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements
- the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.
- the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents.
- the reported performance information is presented in the annual performance report in the prescribed manner.
- there is adequate supporting evidence for the achievements reported and for the measures taken to improve performance.

20. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.

21. I did not identify any material findings on the reported performance information for the selected development

priority.

Other matters

22. I draw attention to the matter below.

Achievement of planned targets

23. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance.

Report on compliance with legislation

24. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.

25. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.

26. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.

27. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

Annual financial statements, performance report and annual report

28. The financial statements submitted for auditing were not fully prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, revenue, expenditure and disclosure items identified by the auditors in the submitted financial statement were subsequently corrected and resulting in the financial statements receiving an unqualified audit opinion.

Revenue management

29. I was unable to obtain sufficient appropriate audit evidence that accounts for municipal tax and charges for municipal services were prepared on a monthly basis, as required by section 64(2)(c) of the MFMA.

Other information in the annual report

30. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and the selected development priority presented in the annual performance report that have been specifically reported on in this auditor's report.

31. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.

32. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected development priorities presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

33. If based on the work I have performed on the other information that I obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in the regard.

Internal control deficiencies

34. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.

35. The matters reported below are limited to the significant internal control deficiencies that resulted in the material findings on compliance with legislation included in this report.

36. Management did not institute controls to ensure that all account holders receive their monthly statements to be aware of their debts towards the municipality.

37. The audit action plan was not adequately implemented as the non-compliance finding on revenue management is recurring. Adequate reviews were not performed to ensure the financial statements fully comply with the requirements of the financial reporting framework and accuracy of the underlying transactions.

Material irregularities

38. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of material irregularities as previously reported in the auditor's report.

Material irregularities identified during the audit

Internal capacity not developed for the preparation of the annual financial statements and other finance related services

39. The municipality compiled a gap analysis in 2019, however did not prioritise the filling of vacant positions within the finance unit. As a consequence of not building internal capacity, the municipality relied on consultants for the preparation of annual financial statements and other finance services, resulting in potentially excessive amounts being paid to consultants for services that could have been performed internally at a lower cost. Consequently, section 62(1)(a) of the MFMA was not complied with as reasonable steps were not taken to ensure that the resources of the municipality are used effectively, efficiently and economically. The non-compliance was likely to result in a material financial loss for the municipality.

40. The accounting officer was notified of the material irregularity on 2 March 2023 and invited to make a written submission on the actions taken and that will be taken to address the matter. The accounting officer built internal capacity and filled the vacant positions critical for the preparation of the financial statements and other finance services. The financial statements for the year ended 30 June 2023 were prepared internally by the finance unit without the use or reliance on consultants.

41. The material irregularity is therefore resolved.

Other reports

42. I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.

43. An independent consultant investigated allegations of under banking and burglary at Kwa-Mhlanga drivers licence testing centre. The investigation was concluded and tabled in council on 31 October 2023.

Auditor-General

Mbombela

30 November 2023

AUDITOR-GENERAL SOUTH AFRICA

Auditing to build public confidence

Chapter 6

Annexure to the auditor's report

The annexure includes the following:

The auditor-general's responsibility for the audit

- The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected development priorities and on the municipality's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipality to cease operating as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Compliance with legislation – selected legislative requirements

The selected legislative requirements are as follows:

Legislation	Sections or regulations
Municipal Finance Management Act 56 of 2003	Section 1 - Paragraph (a), (b) & (d) of the definition: irregular expenditure, Section 1 - Definition: service delivery and budget implementation plan, Sections 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 29(1), Sections 29(2)(b), 32(2), 32(2)(a), 32(2)(a)(i), 32(2)(a)(ii), 32(2)(b), Sections 32(6)(a), 32(7), 53(1)(c)(ii), 54(1)(c), 62(1)(d), 62(1)(f)(i), Sections 62(1)(f)(ii), 62(1)(f)(iii), 63(1)(a), 63(2)(a), 63(2)(c), 64(2)(b), Sections 64(2)(c), 64(2)(e), 64(2)(f), 64(2)(g), 65(2)(a), 65(2)(b), 65(2)(e), Sections 72(1)(a)(ii), 112(1)(j), 116(2)(b), 116(2)(c)(ii), 117, 122(1), Sections 122(2), 126(1)(a), 126(1)(b), 127(2), 127(5)(a)(i), 127(5)(a)(ii), Sections 129(1), 129(3), 133(1)(a), 133(1)(c)(i), 133(1)(c)(ii), 170, Sections 171(4)(a), 171(4)(b)

Prevention and Combating of Corrupt Activities Act 12 of 2004	Section 34(1)

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give *"full and regular"* reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe *"what we do"*.
Adequacy indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the Regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include Annual Financial Statements as submitted to and approved by the Auditor-General.
Approved Budget	The Annual Financial Statements of a Municipality as audited by the Auditor General and approved by Council or a provincial or national executive.
Baseline	Current level of performance that a Municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic Municipal service	A Municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.
Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out Municipal goals and development plans.
National Key performance areas	• Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.

Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Information	Generic term for non-financial information about Municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that Municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a Municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the Mayor for implementing the Municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.
Vote:	One of the main segments into which a budget of a Municipality is divided for appropriation of money for the different departments or functional areas of the Municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area. Section 1 of the MFMA defines a "vote" as: *a) one of the main segments into which a budget of a Municipality is divided for the appropriation of money for the different departments or functional areas of the Municipality; and* *b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned*

APPENDIX A (I) – LIST OF WARD COUNCILLORS

WARD	SURNAME & NAMES	CONTACT	PHYSICAL ADDRESS
1	Cllr Simon Chani Puleng Seswike	071 530 4118	Stand No 1562 Block 16 – Moloto South
2	Cllr Lucky Matlhatsi Lukhele	076 983 5023 083 583 3217	Stand No 4102 Moloto North Block A, next to Retang Primary
3	Cllr Steven Citha Mahlangu	076 889 5068	Stand no 3098 Block 21, Moloto North next Ndzundza Mabhoko Secondary
4	Cllr Namntungwa Elizabeth Rhadebe	081 864 9454	Stand No: E0007 Msholozi, next to Nozi Tuck Shop
5	Cllr Vusi Michael Ntuli	079 181 5515	Stand No 416 Thembalethu, next to Mangisi Supermarket
6	Cllr Mable Elsie Mabanga	073 842 1519	Stand No 822 Phola Park, Street 36, next to M Sizwe
7	Cllr Simon Bangiswani Sindana	076 888 1497	Stand No 326 Matheyzensloop
8	Cllr Bongani Ntokozo Dlamini	060 757 8846	1432 Verena D
9	Cllr Joseph Elias Mthimunye **MMC Finance**	078 5351 287	Stand no 120 Buhlebuzile
10	Cllr Khanyi Leah Masanabo	079 925 0491	Stand No 422 Mzimuhle
11	Cllr Mmelisizwe Terance Ntuli	072 305 1253	Stand No 800 Verena C next Marhagi Secondary School
12	Cllr Moses Mmoisetsi Sepogwana	082 965 3997	Stand No: 608 Tweefontein C
13	Cllr Richard Bongani Jiyane	079 768 8989	Stand No: 1184 Tweefontein K
14	Cllr Simon Vusi Masombuka	076 380 3235	Stand No 2486 Mountainview – Zone 6 next Titimalo Primary
15	Cllr Simon Sipho Mnguni	076 170 2815 071 929 2662	Stand No: 1713 Tweefontein E next Somarobogo Primary
16	Cllr Tenboy Buttitjie Dube	071 525 1735	488 RDP Buhlebesizwe – Mtima General Dealer next Mkhize Church
17	Cllr Fikile Violet Mgayi	071 238 0607	Stand No 36 Tweefontein F
18	Cllr David Sello Mokoena	076 715 2304	Stand No 2027 Vezubuhle, back opposite Astra Furniture Shop
19	Cllr Lucky Xolani Mtsweni **MMC Planning Economic Developmnt Services (PEDS)**	079 457 6531 079 459 6331	Stand No. 830 Suncity Block B Ward 19 Pavement Main Road (Big Street)
20	Cllr Nomvula Sister Mnguni	079 143 0017	Stand No 2465 Vezubuhle next to Kwa-Chipa Tavern
21	Cllr Class Menzelwa Jiyane	072 238 3287	Stand No 16A, Vlaklaagte No 1
22	Cllr Sonto Rose Nhlapho	082 399 8302	Stand 514 Luthuli, Rocky Tavern
23	Cllr Bongani Victor Msibi	076 696 6431	Stand no 162 Tweefontein A, Next Tribal Office- KwaShabangu
24	Cllr Bernard Vusi Mtshaise	079 133 9580	Stand No: 504 Bundu
25	Cllr Poppie Mahlangu	072 654 2343	679 Kwaggafontein C
26	Cllr Masotja Petros Nduli	071 324 6353	Stand no 2195 Kwaggafontein C
27	Cllr Bawinile Simon Mabhena	072 390 6278	Stand No 1023 Matheyzensloop, Madala Stand next to emabhozeni
28	Cllr Mkhululi Jacob Sithole	060 784 3873	335 Kwaggafontein A next to Ematjheni P S
29	Cllr Rose Martha Kgomo	064 646 4721	Stand No 1313 Kwaggafontein A, next to KwaMaduna Tuck shop
30	Cllr Godfrey Nkosinathi Mahlangu	064 672 6933	Stand 107 Tweefontein G next to Malobola Tarven
31	Cllr Solomon Fickson Skosana	082 066 0042	Stand No 1420 Kwaggafontein D
32	Cllr Thabile Prunella Nkosi	079 572 0175	530 Section B, KwaMhlanga next to Lolos Tavern

APPENDIX A (II) – LIST OF PR COUNCILLORS

SURNAME & NAMES	CONTACT	PHYSICAL ADDRESS
Cllr Maria Poppy Msiza **Hon. Speaker**	073 311 7976 076 676 0319	866 Kwagga D

Top Four Service Delivery Priorities per Ward (Highest Priority First)		
No.	**Priority Name And Detail**	**Progress During 2022/ 2023**
1	Water	92 463 HH with access to Water
2	Roads and Stormwater	3 033 km access to road network
3	Waste Management	92 463 HH with access to Refuse Removal on a Fortnight Basis
4	Sanitation	80 523 HH with access to Sanitation

APPENDIX G – RECOMMENDATIONS OF THE MUNICIPAL AUDIT COMMITTEE 2022/ 2023

Audit and Performance Committee Recommendations		
Report Name	**Committee recommendations made during 2022/23**	**Recommendations adopted (enter Yes); not adopted (provide explanation)**
1st Quarter Audit and Performance Committee Recommendations	**Financial Management** 1. **THAT** the report on the status quo of the AFS preparation was acknowledged and management was encouraged to produce credible AFS to improve the audit opinion. 2. **THAT** the THLM Service Collection Report and the improvement thereof was noted and accepted with recommendation to the management to put more efforts on revenue collections. 3. **THAT** the BTO was urged to review its reports for accuracy and credibility prior to submitting to the AC and other stakeholder so that error and mistakes are mitigated 4. **THAT** management is encouraged to reach 100% on Capitalized Projects before the end of the financial year. 5. **THAT** the management is urged to take necessary steps to ensure that the monies owed to the municipality is recovered debtors. 6. **THAT** the management is urged to monitor the tender processes and make sure that there is always value for money in every business undertaken.	Partially, Capitalization before year end is still a challenge
	ICT 1. **THAT** the reviewed ICT strategy be submitted to the next AC meeting since there are some significant changes made in the report.	Yes
	Risk Management 1. **THAT** the 4th Quarter Risk Management Anti-Fraud and Anti-Corruption Committee (RMAFACC) Report 2022/2023 was considered and recommended for implementation of its comments and recommendations.	Yes
	Corporate Services **1. THAT** the Leave report should cover the process of reconciliation of the leaves to enable the BTO to perform its duty easily. **2. THAT** a stand-alone overtime report be prepared and submitted to the next AC meeting	Yes

APPENDICES

Audit and Performance Committee Recommendations		
Report Name	**Committee recommendations made during 2022/23**	**Recommendations adopted (enter Yes); not adopted (provide explanation)**
	3. **THAT** the management was encouraged to adhere to the accounting standards regulating litigations in order to ensure adherence to the laws and regulations	
	Internal audit 1. **THAT** the Draft three (3) year rolling plan and annual internal audit plan 2022/2023 was considered and provisionally adopted pending the movement of the SCM audit time-lines closer. 2. **THAT** in order to maintain or improve the current THLM audit opinion, the management was urged to check on all previous quarter's IA issues that were not implemented and apply corrective measures to avoid AG queries 3. **THAT** the management was encourage to fast-track the sitting of the AFS steering committee to ensure the AFS preparation runs smoothly.	Partially, Implementation of IA findings is still a challenge
	PMS **1. THAT** in future must be consequence management for employees who are not submitting reports on time. **2. THAT** the management is encouraged once again to cascade the performance assessment to all municipal officials and this should be performed through a benchmarking process **3. THAT** Management should correct the KPI on number of households provided with 6kl free basic water.	Partially, cascading of PMS to all staff is still in progress
2nd Quarter Audit and Performance Committee Recommendations	**Financial Management** ***1.*** **THAT** paragraph 6.1.6 Conditional Grant, be reported in a table format for easy reading and comparison **2.** **THAT** the table on Irregular Expenditure should include a column to show when is the contract for service providers ending. **3.** **THAT** the outstanding projects on procurement plan be implemented.	Partially, implementation of Procurement plan is still a challenge
	ICT **1.** **THAT** the report should on a very high level, indicate the service provider's performance for the period under review	Yes

APPENDICES

Audit and Performance Committee Recommendations		
Report Name	**Committee recommendations made during 2022/23**	**Recommendations adopted (enter Yes); not adopted (provide explanation)**
	Corporate Services 1. **THAT** on Employment Equity, the succession plan should be measured against/based on age brackets. 2. **THAT** the report must state if THLM is in compliant with the approved employment equity 3. **THAT** the Service Providers names be provided across all the tables where training was reported. 4. **THAT** the municipality should find a way to determine whether the training provided is yielding the desired results. 5. **THAT** the system should be configured to remind the supervisors to execute their roles of approving the leave applications as and when the application has been made.	Partially
	Risk management 1. **THAT** the Risk Management Unit be capacitated with additional personnel to ensure that the work within the unit doesn't cease when the CRO (Chief Risk Office) is on leave. 2. **THAT** AC condemned the late and non-submission of POEs by some departments and recommended that consequence management be revoked for the non-compliance going forward. 3. **THAT** the departments which did not perform well, were cautioned to take a very good care of areas in which they regressed. 4. **THAT** the committee noticed that PMS is not included in the Risk Management reports and as such recommended that; management should ensure that all the units within the municipality are covered in the risk management.	Yes
	Internal Audit 1. **THAT** consequence management be implemented to the underperforming departments.	Partially, Slow Implementation Progress
	PMS 1. **THAT** management is urged to capacitate the PMS unit with more staff. 2. **THAT** Internal Audit to assist management on targets that are not SMART compliant.	Partially, Cascading to all staff is still in progress

APPENDICES

Audit and Performance Committee Recommendations		
Report Name	**Committee recommendations made during 2022/23**	**Recommendations adopted (enter Yes); not adopted (provide explanation)**
	3. **THAT** the management is encouraged once again to cascade the performance assessment to all municipal officials and this should be performed through a benchmarking process	
3rd Quarter Audit and Performance Committee Recommendations	**Financial Management** 1. **THAT** BTO should find a good strategy of working closely with i@ company in order to avoid PPE findings that the municipality had in the past financial year. 2. **THAT** the management to ensure the safeguarding of municipal assets by working closely to the insurance and security companies in order to avoid and mitigate such risks as and when they occur. 3. **THAT** the management to verify whether there are no needs for adjustments with regard to the anticipated fuel cost that is continually increasing. 4. **THAT** the management should share their restrictive measures that they utilise to monitor fuel usage with the committee, in order to allow the committee to perform their mini reconciliation for monitoring the increase/decrease of fuel usage 5. **THAT** BTO must ensure that the amount of R 97 thousand for FNB withdrawals should be corrected to R 97million. 6. **THAT** the management should ensure the completeness of all the contracts that are coming to an end in order to avoid new irregular expenditure that might be discovered by AGSA.	Yes
	ICT 1. **THAT** the ICT to give a clear time lines when implementing changes and updates such as website revamping, network upgrade and etc. 2. **THAT** the ICT to submit list of all software that the municipality is using together with their expiry date for future planning of the committee.	Partially Yes
	Corporate Services **1.** **THAT** HRM should in the next meeting report on leave liability at that particular time that the municipality is facing **2.** **THAT** in the next meeting HRM should submit a summary report on OHS on compliance matters.	Yes

APPENDICES

Audit and Performance Committee Recommendations		
Report Name	**Committee recommendations made during 2022/23**	**Recommendations adopted (enter Yes); not adopted (provide explanation)**
	Risk Management 1. **THAT** in the next meeting the chairperson of RMAFACC must report on the follow-up investigation by SAPS on the issue of under banking, He must get an indication from management of what is happening. 2. **THAT** the management to bring a standing report on the use of consultant, the report should be brought via risk management in order for the committee to get follow-up regarding that.	Partially, the investigation is still in progress
	Performance management **1. THAT** the management was urged to ensure that all resolution taken by the Audit Committee are implemented. **2. THAT** the management is encouraged once again to cascade the performance assessment to all municipal officials and this should be performed through a benchmarking process	Partially, Cascading to all staff is still in progress
4th Quarter Audit and Performance Committee Recommendations	**Finance reports** *1.* **THAT** The committee requested management to give a final confirmation date of when we will be doing, taking into consideration that the progress of asset verification is currently sitting at 50%. *2.* **THAT** The municipality should start with the procurement processes of Monene contract that is expiring in December 2023 to avoid the issue of sitting for months without being covered. 3. **THAT** the fleet report should reflect how management is communicating with the service provider in terms of diesel usage, so that they continue to check on how to put preventative controls in place. 4. **THAT** The management need to continue with the data cleansing, ensure that the billing processes and sending of those bills are accurate. 5. **THAT** management should ensure that all findings from AGSA are dealt with because the municipality is aiming for a clean audit.	Partially Implemented, data cleansing is ongoing
	Internal audit 1. **THAT** the Audit Committee process for 2023/2024 financial year should be tabled to the council for approval since the audit committee is the committee of council. 2. **THAT** the Internal Audit should put a clause in the Internal Audit Charter that speaks to POPI Act.	Yes

APPENDICES

Audit and Performance Committee Recommendations		
Report Name	**Committee recommendations made during 2022/23**	**Recommendations adopted (enter Yes); not adopted (provide explanation)**
	Risk Management report 1. THAT the Accounting Officer should address all the issues that were no addresses in the report of RMAFACC	Yes
	Performance Management 1. **THAT** SCM processes be monitored to avoid delays in implementation of projects 2. **THAT** the management to provide acceleration plans for targets that were not achieved.	Yes, 4th Quarter improved

THEMBISILE HANI LOCAL MUNICIPALITY

Annual Financial Statements for the year ended 30 June 2023

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

As the Accounting Officer (accounting authority), I acknowledge that I am ultimately responsible for the system of internal financial control established by the Municipality and place considerable importance on maintaining a strong control environment. To enable me to meet these responsibilities, I have set standards for internal control aimed at reducing the risk of error or deficit in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the Municipality and all employees are required to maintain the highest ethical standards in ensuring the Municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the Municipality is on identifying, assessing, managing and monitoring all known forms of risk across the Municipality. While operating risk cannot be fully eliminated, the Municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

I'm of the opinion, based on the information and explanations given by management that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit

I have has reviewed the Municipality's cash flow forecast for the year to 30 June 2023 and, in the light of this review and the current financial position, I'm satisfied that the Municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The Annual Financial Statements are prepared on the basis that the Municipality is a going concern and that the Thembisile Hani Local Municipality (THLM) has neither the intention nor the need to liquidate or curtail materially the scale of the Municipality.

Although, I'm primarily responsible for the financial affairs of the Municipality, this is supported by the Municipality's external auditors.

I would like to bring to your attention that I certify that the salaries, allowances and benefits of councillors as disclosed in note 28 to these Annual Financial Statements are within the upper limits of the framework envisaged in section 219 of the Constitution of the Republic of South Africa, read with the Remuneration of Public Office Bearers Act, Act 20 of 1998 and the Minister of Provincial and Local Government's determination in accordance with the Act.

The Annual Financial Statements set out on pages 1 to 105, which have been prepared on the going concern basis, were approved on 31 August 2023:

Annual Financial Statements for the year ended 30 June 2023

Report of the Audit and Performance Committee

ANNUAL REPORT OF THE AUDIT AND PERFORMANCE COMMITTEE (APC) (REPORT FROM THE CHAIRPERSON OF AUDIT AND PERFORMANCE COMMITTEE)

We are pleased to submit the report of the Audit Committee for the year ended 30 June 2023

1. Background

Thembisile Hani Local municipality amongst other local municipalities is under Nkangala District Shared audit and performance committee, The Audit committee was established in terms of section166 of the Municipal Finance Management Act (MFMA), Act 56 of 2003. The Audit committee has adopted its terms of reference.

Statutory requirements

Section 166 of the MFMA stipulates that each municipality must establish an Audit committee.

The Audit committee is an independent advisory body that advises council, political office bearers,accounting officer, and the staff of the municipality on the following

Audited By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

* Internal financial control and internal audit;
* Risk management;
* Accounting policies
* The adequacy, reliability and accuracy of financial reporting and information;
* Performance management;
* Compliance with the MFMA, the Division of Revenue Act (DoRa) and any other applicable legislation;
* Performance evaluation
* Any other issues referred to it by the municipality;
* Review annual financial statements so as to provide authoritative and credible view of the financial position, on overall compliance with MFMA, DoRa, ect
* Respond to Council on any matter raised by the Auditor- General (AGSA); and
* Carry out such investigation into financial affairs of the municipality as may be prescribed

2. Attendance of meetings

Name of the member	Ordinary meetings	Performance meetings	Special Meeting	Total	Attendance
Mrs. FJ Mudau (Chairperson)	4	4	1	9	9
Ms. J Masite (Member)	4	4	1	9	9
Mr. T Gafane (Member)	4	4	1	9	1
Ms. M Moloi Chamane (Member) (Newly appointed)	4	4	1	9	8
Ms. P Ntuli1 (Member)	4	4	1	9	9
Adv L Thubakgale	1	1	1	3	3

The following although not members of the Audit and Performance Committee, have standing invitation to APC meetings:

* The Accounting Officer;
* The Chief Financial Officer;

Report of the Audit and Performance Committee

* The chairperson of the Risk committee
* The Section 56 Managers/Departmental Heads
* Chief Risk Officer
* The Auditor- General
* The National Treasury
* Mpumalanga Provincial Treasury
* Mpumalanga Department of Cooperative Governance
* South African Local Government Association (SALGA)
* Internal Audit (Secretariat function)
* Chairperson of Risk Management Anti-Fraud and Anti-corruption Committee

3. Internal Audit

The internal audit of Thembisile Hani Local Municipality is in-house and has discharge its mandate in terms of its charter and managed to execute all projects for 2021/22 financial year. The APC would like to commend the Council and management for the dedication in strengthening the Corporate Governance.

The APC is of the opinion that Internal Audit unit is operating effectively to meet its mandate and has considered the risk pertinent to the municipality in its audit plans. The following documents were approved by the Audit Committee and performance committee and recommended to Council for adoption

* Internal Audit charter
* Internal Audit methodology
* Three year rolling strategic and Annual Audit Plan
* Combined Assurance framework

4. Effectiveness of Internal controls

The system of internal control was not entirely effective during the year under review as compliance with prescribed policies and procedures were lacking in certain instances and this was evident with the investigation of irregular expenditure that was conducted by the Council during the year under review.

The following Internal audit reports are among others that were presented to the Audit Committee

* Audit of quarterly performance information;
* Compliance;
* Supply chain management;
* ICT audit;
* Follow-up Governancet;
* Asset management;
* Local Economic Development;
* Water and Sanitation;
* Waste and Environment

Report of the Audit and Performance Committee

* Occupation Health and Safety;
* Follow up Buildings and Facilities;
* Land and Buildings
* Risk management
* Revenue management;

There has been improvement by management in responding to internal audit reports and this can be attributed to measures that have been implemented by the Accounting officer. Audit committee has also urged management to draw up action plan to address issues raised by the Auditor- General in the management letters and audit report and to ensure that all matters raised by the Auditor General are resolved by Management.

5. Risk Management

The municipality has an effective risk unit that consist of one staff members and Risk management, anti-fraud and anti-corruption committee that is chaired by the chairperson of Risk management, anti-fraud and anti-corruption.

Four (4) risk committee meetings were held for the year under review

The following policies were reviewed

* Risk Management strategy
* Risk Management policy
* Whistle blowing policy
* Fraud Prevention Plan and Fraud Prevention policy
* Risk Management Anti-corruption and Anti-fraud risk charters
* Risk appetite

6. Performance Management

Management has cascaded performance up to level five and plans have been put in place to cascade performance to other levels as well.

The Audit committee has reviewed the Annual Performance Information report in the meeting held on the 28 August 2023 and performance department has shown significant improvement

7. Year-end reporting

The APC has reviewed the Annual Performance Information report before the report was submitted to the Auditor-General and the quality of the quarterly reports submitted by management during the year were of acceptable standard.

8. Evaluation of annual financial statements

The APC, on its meeting held on the28 August 2023 to discuss the draft annual financial statements and unaudited annual report with the Accounting Officer, before submitting to the Auditor General.

The Audit committee wishes to indicate that it performed a review on the draft financial statements focusing among others:

* Significant financial reporting adjustments and estimates contained in the Annual FinancialStatements
* Alignment of Closing and Opening balances
* Clarity and completeness of disclosures has been set properly
* Quality and acceptability of and any changes in accounting policies and practice.

THEMBISILE HANI LOCAL MUNICIPALITY
Annual Financial Statements for the year ended 30 June 2023

Report of the Audit and Performance Committee

* Significant adjustments arising from the audit

* Reasons for major year to year fluctuations

The Audit and Performance Committee (APC) has:

* Further reviewed the audited financial statements to be included in the Annual Report with the Accounting Officer.

* Reviewed the Auditor General Management report and management response thereof

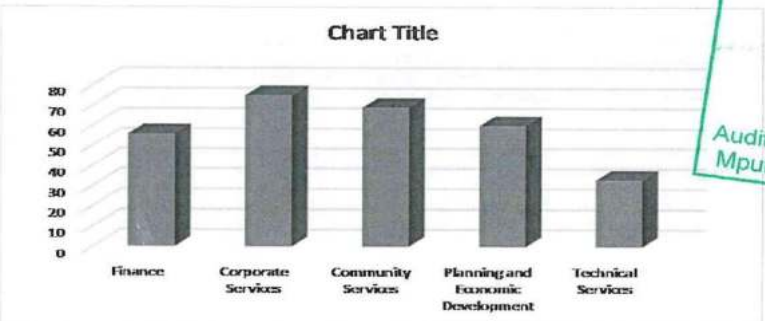

* Reviewed the municipality compliance with legal and regulatory provision and;

* Reviewed significant adjustments resulting from the audit.

The Audit and Performance Committee (APC) concurs and accepts the conclusions of the Auditor-General on the Annual Financial Statements be accepted and read together with the report of the Auditor-General.

9. Internal audit recommendations

Audit and Performance Committee would like to appreciate the level of implementation of internal audit recommendations by management as that is the indication of commitment from the side of management

10. Conclusion

The APC acknowledges the co-operation and assistance by the Thembisile Hani Local Municipality for coordinating the activities of the Committee. We also acknowledge the commitment of the Accounting Officer and management of Thembisile Hani Local Municipality in strengthening corporate governance and working in maintaining the clean audit.

The Audit and Performance Committee (APC) further acknowledge the commitment by Entire Management team and the foundation on good governance that has been laid by Honorable Executive Mayor Councillor L Dikgale and his Council and further express gratitude to the Chief Audit Executive, Mr. AS Malope and his staff for the support and commitment to the work of the Audit and Performance Committee. The Chairperson of the Audit and performance committee remain confident that all matters that have been raised by the Internal Audit and Auditor General are receiving due consideration and intervention. We are committed to fully execute our oversight function to strengthening corporate governance.

THEMBISILE HANI LOCAL MUNICIPALITY

Annual Financial Statements for the year ended 30 June 2023

Statement of Comparison of Budget and Actual Amounts

Budget on Cash Basis

Figures in Rand	Approved budget	Adjustments	Final Budget	Actual amounts on comparable basis	Difference between final budget and actual	Reference
Expenditure						
Personnel	(177 288 000)	(2 883 000)	**(180 171 000)**	(163 093 691)	**17 077 309**	Less expenditure incurred because of Vacant position
Remuneration of councillors	(27 447 000)	(592 000)	**(28 039 000)**	(26 067 813)	**1 971 187**	Less expenditure incurred because there was no increase given by CoGTA for councillors
Depreciation and amortisation	(88 821 000)	-	**(88 821 000)**	(94 122 789)	**(5 301 789)**	More expenditure incurred because of projects that are being capitilised
Finance costs	(1 300 000)	1 300 000	-	-	-	
Lease rentals on operating lease	(5 100 000)	(1 645 532)	**(6 745 632)**	(6 445 416)	**300 216**	More expenditure incurred because of additional photocopy machine added on the contract
Debt Impairment	(256 885 000)	8 715 000	**(248 170 000)**	(248 515 309)	**(345 309)**	Due to the payments made by departments on services reducess the debt impairment for the current financial year
Amnesty written off	-	(3 005 496)	**(3 005 496)**	(4 543 428)	**(1 537 932)**	More applications for amnest were received than anticipated
Bulk purchases	(162 881 000)	(3 482 000)	**(166 363 000)**	(122 469 899)	**43 893 101**	More expenditure incurred because more water was supplied than in the previous financial by City of Tshwane and Rand Water.
Grants and Subsidies paid	(200 000)	-	**(200 000)**	(197 125)	**2 875**	Less expenditure incurred because the payments were as per the appointment(s) issued.
Inventories losses/write-downs	-	-	-	(24 570 525)	**(24 570 525)**	Redundant and broken inventory items had to be written-off
Gain/(Loss) on Property, plant and equipment derecognised	-	-	-	(6 043 488)	**(6 043 488)**	Redundant and broken moveable asset items had to be written-off.

Notes to the Annual Financial Statements

Figures in Rand	2023	2022

Accounting policies

1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise. They are presented in South African Rand.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below.

1.1 Presentation currency

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.2 Going concern assumption

These annual financial statements have been prepared based on the expectation that the municipality will continue to operate as a going concern for at least the next 12 months.

1.3 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgemental is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Allowance for slow moving, damaged and obsolete stock

An allowance for stock to write stock down to the lower of cost or net realisable value.The write down is included in the operation surplus note.

Fair value estimation

The fair value of financial instruments traded in active markets (such as trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the municipality for similar financial instruments.

Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions.

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of tangible assets are inherently uncertain and could materially change over time.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 13 - Provisions.

Contingencies

Contingencies recognised in the current year required estimates and judgments, refer to note 40 on entity combinations.

Audited By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Useful lives of waste and water network and other assets

The municipality's management determines the estimated useful lives and related depreciation charges for the waste water and water networks. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

Post retirement benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 5.

Effective interest rate

The municipality used the effective interest rate to discount future cash flows.

Allowance for doubtful debts

On debtors an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the debtors carrying amount and the present value of estimated future cash flows..

1.4 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:
- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Accounting policies

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Land	Straight line	Indefinite
Buildings	Straight line	50 years
Furniture and fixtures	Straight line	3-5 years
Transport assets	Straight line	5-15 years
Office equipment	Straight line	3-5 years
IT equipment	Straight line	3-5 years
Community	Straight line	2-100 years
Solid Waste Infrastructure	Straight line	15-18 years
Water network - Boreholes	Straight line	3-80 years
Water Supply Distribution	Straight line	2-100 years
Roads Infrastructure	Straight line	2-100 years
Water Supply Bulk Mains	Straight line	15-80 years
Pumpstations	Straight line	5-100 years
Sanitation Infrastructure	Straight line	5-100 years
Water Network Reservoirs	Straight line	5-100 years

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The municipality assesses at each reporting date whether there is any indication that the municipality expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the municipality revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Assets which the municipality holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the cash flow statement.

The municipality separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note 3).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 3).

Accounting policies

1.5 Site restoration and dismantling cost

The municipality has an obligation to dismantle, remove and restore items of property, plant and equipment. Such obligations are referred to as 'decommissioning, restoration and similar liabilities'. The cost of an item of property, plant and equipment includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which a municipality incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

If the related asset is measured using the cost model:

(a) subject to (b), changes in the liability are added to, or deducted from, the cost of the related asset in the current period;
(b) if a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit; and
(c) if the adjustment results in an addition to the cost of an asset, the municipality considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If it is such an indication, the asset is tested for impairment by estimating its recoverable amount or recoverable service amount, and any impairment loss is recognised in accordance with the accounting policy on impairment of cash-generating assets and/or impairment of non-cash-generating assets.

1.6 Intangible assets

An asset is identifiable if it either:

is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

An intangible asset is recognised when:

it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
the cost or fair value of the asset can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Depreciation method	Average useful life
Computer software, other	Straight line	3-5 years

Intangible assets are derecognised:

on disposal; or
when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of intangible assets is included in surplus or deficit when the asset is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

1.7 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Derecognition is the removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
It is settled at a future date.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see the Standard of GRAP on Revenue from Exchange Transactions), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

A financial asset is:

cash;
a residual interest of another entity; or
a contractual right to:
- receive cash or another financial asset from another entity; or
- exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial liability is any liability that is a contractual obligation to:

deliver cash or another financial asset to another entity; or
exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

A financial asset is past due when a counterparty has failed to make a payment when contractually due.

A residual interest is any contract that manifests an interest in the assets of an entity after deducting all of its liabilities. A residual interest includes contributions from owners, which may be shown as:
- equity instruments or similar forms of unitised capital;
- a formal designation of a transfer of resources (or a class of such transfers) by the parties to the transaction as forming part of an entity's net assets, either before the contribution occurs or at the time of the contribution; or
- a formal agreement, in relation to the contribution, establishing or increasing an existing financial interest in the net assets of an entity.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Financial instruments at amortised cost are non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:
- the entity designates at fair value at initial recognition; or
- are held for trading.

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

Classification

The municipality has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Investments - Call accounts	Financial asset measured at amortised cost
Consumer debtors	Financial asset measured at amortised cost
Receivables from exchange transactions	

The municipality has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Consumer deposits	Financial liability measured at amortised cost
Payables from exchange transaxctions	Financial liability measured at amortised cost
Accruals	Financial liability measured at amortised cost

The entity has the following types of residual interests (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

Initial measurement of financial assets and financial liabilities

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Accounting policies

Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:
- Financial instruments at fair value.
- Financial instruments at amortised cost.
- Financial instruments at cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectibility of financial assets

The municipality assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly OR through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly OR by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

Financial assets measured at cost:

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

Derecognition

Financial assets

The entity derecognises financial assets using trade date accounting.

The entity derecognises a financial asset only when:
the contractual rights to the cash flows from the financial asset expire, are settled or waived;
the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
the entity, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity :
- derecognise the asset; and
- recognise separately any rights and obligations created or retained in the transfer.

Financial liabilities

The entity removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit.

Presentation

Interest relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

Losses and gains relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

1.8 Statutory receivables

Identification

Statutory receivables are receivables that arise from legislation, supporting regulations, or similar means, and require settlement by another entity in cash or another financial asset.

Carrying amount is the amount at which an asset is recognised in the statement of financial position.

The cost method is the method used to account for statutory receivables that requires such receivables to be measured at their transaction amount, plus any accrued interest or other charges (where applicable) and, less any accumulated impairment losses and any amounts derecognised.

Nominal interest rate is the interest rate and/or basis specified in legislation, supporting regulations or similar means.

The transaction amount (for purposes of this Standard) for a statutory receivable means the amount specified in, or calculated, levied or charged in accordance with, legislation, supporting regulations, or similar means.

Recognition

The municipality recognises statutory receivables as follows:
if the transaction is an exchange transaction, using the policy on Revenue from exchange transactions;
if the transaction is a non-exchange transaction, using the policy on Revenue from non-exchange transactions (Taxes and transfers); or
if the transaction is not within the scope of the policies listed in the above or another Standard of GRAP, the receivable is recognised when the definition of an asset is met and, when it is probable that the future economic benefits or service potential associated with the asset will flow to the entity and the transaction amount can be measured reliably.

Initial measurement

Audited By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

The municipality initially measures statutory receivables at their transaction amount.

Subsequent measurement

The municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:
- interest or other charges that may have accrued on the receivable (where applicable);
- impairment losses; and
- amounts derecognised.

Accrued interest

Where the municipality levies interest on the outstanding balance of statutory receivables, it adjusts the transaction amount after initial recognition to reflect any accrued interest. Accrued interest is calculated using the nominal interest rate.

Interest on statutory receivables is recognised as revenue in accordance with the policy on Revenue from exchange transactions or the policy on Revenue from non-exchange transactions (Taxes and transfers), whichever is applicable.

Other charges

Where the municipality is required or entitled in terms of legislation, supporting regulations, by-laws or similar means to levy additional charges on overdue or unpaid amounts, and such charges are levied, the entity applies the principles as stated in "Accrued interest" above, as well as the relevant policy on Revenue from exchange transactions or the policy on Revenue from non-exchange transactions (Taxes and transfers).

Impairment losses

The municipality assesses at each reporting date whether there is any indication that a statutory receivable, or a group of statutory receivables, may be impaired.

In assessing whether there is any indication that a statutory receivable, or group of statutory receivables, may be impaired, the municipality considers, as a minimum, the following indicators:
- Significant financial difficulty of the debtor, which may be evidenced by an application for debt counselling, business rescue or an equivalent.
- It is probable that the debtor will enter sequestration, liquidation or other financial re-organisation.
- A breach of the terms of the transaction, such as default or delinquency in principal or interest payments (where levied).
- Adverse changes in international, national or local economic conditions, such as a decline in growth, an increase in debt levels and unemployment, or changes in migration rates and patterns.

If there is an indication that a statutory receivable, or a group of statutory receivables, may be impaired, the municipality measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable, or group of statutory receivables, is reduced, either directly or through the use of an allowance account. The amount of the losses are recognised in surplus or deficit.

In estimating the future cash flows, an municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the entity discounts the estimated future cash flows using a rate that reflects the current risk free rate and, if applicable, any risks specific to the statutory receivable, or group of statutory receivables, for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows.

Any previously recognised impairment loss is adjusted either directly or by adjusting the allowance account. The adjustment does not result in the carrying amount of the statutory receivable or group of statutory receivables exceeding what the carrying amount of the receivable(s) would have been had the impairment loss not been recognised at the date the impairment is revised. The amount of any adjustment is recognised in surplus or deficit.

Derecognition

The municipality derecognises a statutory receivable, or a part thereof, when:
- the rights to the cash flows from the receivable are settled, expire or are waived;

Audited
By
2023 -11- 30
Auditor General South Africa
Mpumalanga Provincial Office

Accounting policies

the municipality transfers to another party substantially all of the risks and rewards of ownership of the receivable; or the municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of the receivable to another party and the other party has the practical ability to sell the receivable in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity:

- derecognise the receivable; and
- recognise separately any rights and obligations created or retained in the transfer.

The carrying amounts of any statutory receivables transferred are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. The entity considers whether any newly created rights and obligations are within the scope of the Standard of GRAP on Financial Instruments or another Standard of GRAP. Any difference between the consideration received and the amounts derecognised and, those amounts recognised, are recognised in surplus or deficit in the period of the transfer.

1.9 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.10 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;
distribution at no charge or for a nominal charge; or
consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs./

The cost of inventories is assigned using the weighted average cost formula.The same cost formula is used foe all inventories having a similiar nature and use to the municiplity

Audited
By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

When inventories are sold, the carrying amounts of those inventories are recognised as an expense The same expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.11 Cash and cash equivalents

Cash and cash equivalents comprise bank balances, cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less which are available on demand.

1.12 Impairment of cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Useful life is either:
the period of time over which an asset is expected to be used by the municipality; or
the number of production or similar units expected to be obtained from the asset by the municipality.

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also tests a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the municipality estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the municipality applies the appropriate discount rate to those future cash flows.

Accounting policies

Basis for estimates of future cash flows

In measuring value in use the municipality:

base cash flow projections on reasonable and supportable assumptions that represent management's best estimate of the range of economic conditions that will exist over the remaining useful life of the asset. Greater weight is given to external evidence;

base cash flow projections on the most recent approved financial budgets/forecasts, but excludes any estimated future cash inflows or outflows expected to arise from future restructuring's or from improving or enhancing the asset's performance. Projections based on these budgets/forecasts covers a maximum period of five years, unless a longer period can be justified; and

estimate cash flow projections beyond the period covered by the most recent budgets/forecasts by extrapolating the projections based on the budgets/forecasts using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. This growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used, unless a higher rate can be justified.

Discount rate

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Accounting policies

Cash-generating units

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the municipality determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

the future cash inflows used to determine the asset's or cash-generating unit's value in use; and
the future cash outflows used to determine the value in use of any other assets or cash-generating units that are affected by the internal transfer pricing.

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

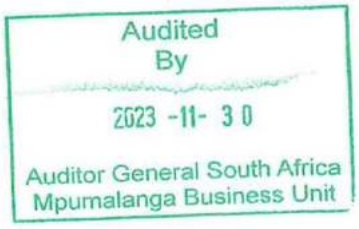

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

its fair value less costs to sell (if determinable);
its value in use (if determinable); and
zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that non-cash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

Accounting policies

Reversal of impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

its recoverable amount (if determinable); and
the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

1.13 Impairment of non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

Identification

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the entity also tests a non-cash-generating intangible asset with an indefinite useful life or a non-cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable service amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Accounting policies

Value in use

Value in use of non-cash-generating assets is the present value of the non-cash-generating assets remaining service potential.

The present value of the remaining service potential of a non-cash-generating assets is determined using the following approach:

Depreciated replacement cost approach

The present value of the remaining service potential of a non-cash-generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the current reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that the municipality would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an overdesigned or overcapacity asset. Overdesigned assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

Recognition and measurement

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued non-cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the non-cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standards of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Reversal of an impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued non-cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.14 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

Audited
By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

A qualifying insurance policy is an insurance policy issued by an insurer that is not a related party (as defined in the Standard of GRAP on Related Party Disclosures) of the reporting entity, if the proceeds of the policy can be used only to pay or fund employee benefits under a defined benefit plan and are not available to the reporting entity's own creditors (even in liquidation) and cannot be paid to the reporting entity, unless either:

the proceeds represent surplus assets that are not needed for the policy to meet all the related employee benefit obligations; or
the proceeds are returned to the reporting entity to reimburse it for employee benefits already paid.

Termination benefits are employee benefits payable as a result of either:

an entity's decision to terminate an employee's employment before the normal retirement date; or
an employee's decision to accept voluntary redundancy in exchange for those benefits.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Vested employee benefits are employee benefits that are not conditional on future employment.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

A constructive obligation is an obligation that derives from an entity's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

wages, salaries and social security contributions;
short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measures the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognise the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Post-employment benefits

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which an entity provides post-employment benefits for one or more employees.

Audited By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

Actuarial assumptions

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflect the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:
- estimated future salary increases;
- the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
  - those changes were enacted before the reporting date; or
  - past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

1.15 Provisions and contingencies

Provisions are recognised when:
- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating surplus.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Accounting policies

A constructive obligation to restructure arises only when an entity:
has a detailed formal plan for the restructuring, identifying at least:
- the activity/operating unit or part of an activity/operating unit concerned;
- the principal locations affected;
- the location, function, and approximate number of employees who will be compensated for services being terminated;
- the expenditures that will be undertaken; and
- when the plan will be implemented; and

has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:
necessarily entailed by the restructuring; and
not associated with the ongoing activities of the municipality

No obligation arises as a consequence of the sale or transfer of an operation until the municipality is committed to the sale or transfer, that is, there is a binding arrangement.

After their initial recognition contingent liabilities recognised in entity combinations that are recognised separately are subsequently measured at the higher of:
the amount that would be recognised as a provision; and
the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 40.

Accounting policies

Decommissioning, restoration and similar liability

Changes in the measurement of an existing decommissioning, restoration and similar liability that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits or service potential required to settle the obligation, or a change in the discount rate, is accounted for as follows:

If the related asset is measured using the cost model:

changes in the liability is added to, or deducted from, the cost of the related asset in the current period.
the amount deducted from the cost of the asset does not exceed its carrying amount. If a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit.
if the adjustment results in an addition to the cost of an asset, the entity consider whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If there is such an indication, the entity test the asset for impairment by estimating its recoverable amount or recoverable service amount, and account for any impairment loss, in accordance with the accounting policy on impairment of assets as described in accounting policy 1.12 and 1.13.

If the related asset is measured using the revaluation model:

changes in the liability alter the revaluation surplus or deficit previously recognised on that asset, so that:
- a decrease in the liability is credited directly to revaluation surplus in net assets, except that it is recognised in surplus or deficit to the extent that it reverses a revaluation deficit on the asset that was previously recognised in surplus or deficit; and
- an increase in the liability is recognised in surplus or deficit, except that it is debited directly to revaluation surplus in net assets to the extent of any credit balance existing in the revaluation surplus in respect of that asset; in the event that a decrease in the liability exceeds the carrying amount that would have been recognised had the asset been carried under the cost model, the excess is recognised immediately in surplus or deficit;

a change in the liability is an indication that the asset may have to be revalued in order to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the reporting date. Any such revaluation is taken into account in determining the amounts to be taken to surplus or deficit and net assets. If a revaluation is necessary, all assets of that class is revalued; and
the Standard of GRAP on Presentation of Financial Statements requires disclosure on the face of the statement of changes in net assets of each item of revenue or expense that is recognised directly in net assets. In complying with this requirement, the change in the revaluation surplus arising from a change in the liability is separately identified and disclosed as such.

The adjusted depreciable amount of the asset is depreciated over its useful life. Therefore, once the related asset has reached the end of its useful life, all subsequent changes in the liability is recognised in surplus or deficit as they occur. This applies under both the cost model and the revaluation model.

The periodic unwinding of the discount is recognised in surplus or deficit as a finance cost as it occurs.

1.16 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

Contracts should be non-cancelable or only cancelable at significant cost (for example, contracts for computer or building maintenance services); and
Contracts should relate to something other than the routine, steady, state business of the entity – therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

1.17 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Audited
By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:
- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much more significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by .

Interest,

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:
- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed

Debt written off and provision for debt impairment

The municipality's debt write off procedure include the assessment of all debtors at year end which include amongst other things those who qualify for amnesty in terms of council resolutions and those debts whose debts have prescribed in terms of the Prescription Act. Debts written off are measured at the carrying amount of the debt at year end.

Provision for impairment takes into account the estimates for the recovery of debts at year end and the movement between the provision of last year and the provision for the current year is disclosed in the statement of financial performance as a reliable estimate.

Accounting policies

1.18 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by a municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Control of an asset arise when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Exchange transactions are transactions in which one entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange.

Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others.

The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Mpumalanga Business Unit

Audited By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Transfers

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

The municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

Fines

Fines are recognised as revenue when it is probable that future economic benefits will flow to the entity, the costs can be reliably measured and all restrictions have been comlied with. Revenue is recognised when fines or summons are issued. The amount due by a particular offender is specified on the notice, summons or equuivalent document. The municipality issuing the traffic fine may indicate that reductions are available, subject to futher processes being undertaken.

Fines reduction are not within the municipality's discretion, they are subject to a futher judicial process which is outside the municiality's contro, then these reductions are not considered in measuring the asset (receivable) on initial recognition. This is because of the high degree of uncertainty in estimating the likely outcome of this process.

Relevant disclosures should be made on the assumptions used to estimate revenue and any other relevantinformation. The municipality is able to reliably measure the fair value of fines issued. The value of the fine can be imposed on the offender is usually stipulated in legislation, regulation or equivalent, and will vary depending on the nature and severity of the offence. The amount due by a particular offender is usually indicated on the notice, summons or similar document issued, in these instances, the asset (receivable) can be measured reliably.

Impairment on all tyraffic fines outstanding is calculated on a basis of average of uncollectable rate over the full period of traffic fines per type of traffic fine.

Fines are recognised as revenue when the receivable meets the cdefinition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality,

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

1.19 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

1.20 Accounting by principals and agents

Identification

Audited
- By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

An agent is an entity that has been directed by another entity (a principal), through a binding arrangement, to undertake transactions with third parties on behalf of the principal and for the benefit of the principal.

A principal is an entity that directs another entity (an agent), through a binding arrangement, to undertake transactions with third parties on its behalf and for its own benefit.

A principal-agent arrangement results from a binding arrangement in which one entity (an agent), undertakes transactions with third parties on behalf, and for the benefit of, another entity (the principal).

Identifying whether an entity is a principal or an agent

When the municipality is party to a principal-agent arrangement, it assesses whether it is the principal or the agent in accounting for revenue, expenses, assets and/or liabilities that result from transactions with third parties undertaken in terms of the arrangement.

The assessment of whether a municipality is a principal or an agent requires the municipality to assess whether the transactions it undertakes with third parties are for the benefit of another entity or for its own benefit.

Binding arrangement

The municipality assesses whether it is an agent or a principal by assessing the rights and obligations of the various parties established in the binding arrangement.

Where the terms of a binding arrangement are modified, the parties to the arrangement re-assess whether they act as a principal or an agent.

Assessing which entity benefits from the transactions with third parties

When the municipality in a principal-agent arrangement concludes that it undertakes transactions with third parties for the benefit of another entity, then it is the agent. If the municipality concludes that it is not the agent, then it is the principal in the transactions.

The municipality is an agent when, in relation to transactions with third parties, all three of the following criteria are present:

- It does not have the power to determine the significant terms and conditions of the transaction.
- It does not have the ability to use all, or substantially all, of the resources that result from the transaction for its own benefit.
- It is not exposed to variability in the results of the transaction.

Where the municipality has been granted specific powers in terms of legislation to direct the terms and conditions of particular transactions, it is not required to consider the criteria of whether it does not have the power to determine the significant terms and conditions of the transaction, to conclude that is an agent. The municipality applies judgement in determining whether such powers exist and whether they are relevant in assessing whether the municipality is an agent.

Recognition

The municipality, as a principal, recognises revenue and expenses that arise from transactions with third parties in a principal-agent arrangement in accordance with the requirements of the relevant Standards of GRAP.

The municipality, as an agent, recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The municipality recognises assets and liabilities arising from principal-agent arrangements in accordance with the requirements of the relevant Standards of GRAP.

1.21 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.22 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and

Audited By
2023 -11- 30
Auditor General South Africa
Mpumalanga Business Unit

Accounting policies

expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.23 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.24 Irregular expenditure

Irregular expenditure as defined in section 1 of the PFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including -

(a) this Act; or
(b) the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms of the Act; or
(c) any provincial legislation providing for procurement procedures in that provincial government.

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year ended/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Accounting policies

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

1.25 Segment information

A segment is an activity of an entity:

- that generates economic benefits or service potential (including economic benefits or service potential relating to transactions between activities of the same entity);
- whose results are regularly reviewed by management to make decisions about resources to be allocated to that activity and in assessing its performance; and
- for which separate financial information is available.

Reportable segments are the actual segments which are reported on in the segment report. They are the segments identified above or alternatively an aggregation of two or more of those segments where the aggregation criteria are met.

Measurement

The amount of each segment item reported is the measure reported to management for the purposes of making decisions about allocating resources to the segment and assessing its performance. Adjustments and eliminations made in preparing the entity's financial statements and allocations of revenues and expenses are included in determining reported segment surplus or deficit only if they are included in the measure of the segment's surplus or deficit that is used by management. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities that are used by management are reported for that segment. If amounts are allocated to reported segment surplus or deficit, assets or liabilities, those amounts are allocated on a reasonable basis.

If management uses only one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities in assessing segment performance and deciding how to allocate resources, segment surplus or deficit, assets and liabilities are reported in terms of that measure. If management uses more than one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities, the reported measures are those that management believes are determined in accordance with the measurement principles most consistent with those used in measuring the corresponding amounts in the entity's financial statements.

1.26 Budget information

Municipality are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a accrual basis and presented by functional classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2020/07/01 to 2021/06/30.

The budget for the economic entity includes all the entities approved budgets under its control.

The annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

Municipalities are required to prepare to adjustments budgets during October for approval by council after mid year performance review

The Statement of comparative and actual information has been included in the annual financial statements as the recommended disclosure when the annual financial statements and the budget are on the same basis of accounting as determined by National Treasury.

Accounting policies

Comparative information is not required.

1.27 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

1.28 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and

those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The municipality will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The municipality will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

1.29 Value Added Tax (VAT)

The municipality is registered with the South Africa Revenue Services (SARS) for VAT on the cash basis, in accordance with section 15 (2) of the VAT Act (Act. No 89 of 1991)

1.30 Trade payables

A liability is a present obligation of an entity arising from past events, the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits or service potential.

Payables are liabilities to ay for goods or services that have been received or supplied and have been received or supplied and have been invoiced or formally agreed with the supplier (and include payments in respect of social benefits where formal agreements for specified amounts exist).

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amounts due to emplyees.

2. New standards and interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the municipality has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

The definition of 'minority interest' has been amended to 'non-controlling interest', and paragraph .60 was added by the Improvements to the Standards of GRAP issued in November 2010. If an entity elects to apply these amendments earlier, it shall disclose this fact.

Paragraph .59 was amended by Improvements to the Standards of GRAP issued in November 2010. An entity shall apply these amendments prospectively for annual financial periods beginning on or after the effective date [in conjunction with the effective date to be determined by the Minister of Finance for GRAP 105, 106 and 107] from the date at which it first applied the Standard of GRAP on Non-current Assets Held for Sale and Discontinued Operations. If an entity elects to apply these amendments earlier, it shall disclose this fact.

The Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers amended paragraphs .03, .39, .47 to .50 and added paragraphs .51 to .58 and .61 to .62. An entity shall apply these amendments when it applies the Standards of GRAP on Transfer of Functions Between Entities Under Common Control, Transfer of Functions Between Entities Not Under Common Control and Mergers.

The effective date of the amendment is for years beginning on or after 01 April 2019.

The municipality expects to adopt the amendment for the first time in the 2 018/2019 annual financial statements.

This Directive was originally issued by the Accounting Standards Board (the Board) in December 2009. Since then, it has been amended by:

Consequential amendments when the following Standards of GRAP were amended to clarify some of the principles:

- GRAP 105 Transfer of Functions Between Entities Under Common Control
- GRAP 107 Mergers

Consequential amendments arising from GRAP 110 *Living and Non-living Resources* issued in December 2017.
Consequential amendments arising from the following Standards of GRAP in May 2018:

- GRAP 34 *Separate Financial Statements*
- GRAP 35 *Consolidated Financial Statements*
- GRAP 36 *Investments in Associates and Joint Ventures*
- GRAP 37 *Joint Arrangements*
- GRAP 38 *Disclosure of Interests in Other Entities*

The effective date of this Directive coincides with the effective dates of the applicable Standards of GRAP, as determined by the Minister of Finance. If an entity has assets that it previously could not recognise and/or measure in accordance with the Standards of GRAP on their initial adoption on the transfer date or the merger date because information about the acquisition cost of the assets was not available, an entity applies this Directive to those assets. The fair value of those assets is determined at the date of adopting the Standards of GRAP on the transfer date or the merger date in accordance with the Directive's Appendix paragraph A3.

The effective date of this revised directive is for years beginning on or after 01 April 2019.

The municipality expects to adopt the directive for the first time in the 2018/2019 annual financial statements.

2.2 Standards and interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2023 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:

Notes to the Annual Financial Statements

Guideline: Guideline on Accounting for Landfill Sites	01 April 2099	Unlikely there will be a material impact
Guideline: Guideline on the Application of Materiality to Financial Statements	01 April 2099	Unlikely there will be a material impact

The effective date of the interpretation is for years beginning on or after 01 April 2020.

The municipality expects to adopt the interpretation for the first time in the 2019/2020 annual financial statements.

The objective of this standard is to ensure that a reporting entity's annual financial statements contain the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

An entity that prepares and presents financial statements under the accrual basis of accounting (in this standard referred to as the reporting entity) shall apply this standard in:

identifying related party relationships and transactions;
identifying outstanding balances, including commitments, between an entity and its related parties;
identifying the circumstances in which disclosure of the items in (a) and (b) is required; and
determining the disclosures to be made about those items.

Disclosure of related party transactions, outstanding balances, including commitments, and relationships with related parties may affect users' assessments of the financial position and performance of the reporting entity and its ability to deliver agreed services, including assessments of the risks and opportunities facing the entity. This disclosure also ensures that the reporting entity is transparent about its dealings with related parties.

The standard states that a related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control. As a minimum, the following are regarded as related parties of the reporting entity:

A person or a close member of that person's family is related to the reporting entity if that person:

- has control or joint control over the reporting entity;
- has significant influence over the reporting entity;
- is a member of the management of the entity or its controlling entity.

An entity is related to the reporting entity if any of the following conditions apply:

- the entity is a member of the same economic entity (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others);
- one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an economic entity of which the other entity is a member);
- both entities are joint ventures of the same third party;
- one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- the entity is a post-employment benefit plan for the benefit of employees of either the entity or an entity related to the entity. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity;
- the entity is controlled or jointly controlled by a person identified in (a); and
- a person identified in (a)(i) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

The standard furthermore states that related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

The standard elaborates on the definitions and identification of:

Close member of the family of a person;
Management;
Related parties;
Remuneration; and
Significant influence

The standard sets out the requirements, inter alia, for the disclosure of:

Control;
Related party transactions; and
Remuneration of management

The effective date of the standard is for years beginning on or after 01 April 2019.

Notes to the Annual Financial Statements

The municipality expects to adopt the standard for the first time in the 2019/2019 annual financial statements.

9. Upgrade of Moloto South KwaMhlanga & Kameelpoort W2 32 19	522 713	522 723
10. Drill; Refurbish & Equip of Borehole W 29 Kwaggafontein	-	279 482
	3 278 413	**5 285 914**

30 June 2023:

The projects are been designed/assesses whereby the construction implementation has been halted either during the current and previous years. The details of the challenges are low yield not feasible for equipping with motorised pump for the boreholes,poor water quality and the contract has lapsed /expired as a result of lack of budget to implementation of the project. None of the halted projects were affected by impairment for 2022-2023 financial period.

Council has resoluted that Boreholes must be written-off as redundant in 2022-2023 amounting to R2 360 979.

30 June 2022:

These are design costs on the mentioned projects: Construction is yet to be commence due to budget constraints. None of the halted projects were affected by impairment for 2021-2022 financial period.

Computer software, other	646 435	1 392 325	(625 433)	1 413 327

5. Employee benefit obligations

Other long-term employee benefits

The municipality's employee benefit obligation consist of an obligation to pay out a bonus in the year of the employee attaining the required service. The obligation represents a liability to the municipality and the value is represented by the actuarial valuation obtained and is presently being implemented as per the municipality's policy.

The municipality offers bonuses for every 5 years of completed service from 10 years to 45 years.

The amounts recognised in the statement of financial position are as follows:

Carrying value		
Present value of the defined benefit obligation-partly or wholly funded	12 095 527	13 181 000
Non-current liabilities: > 1 year	(10 775 035)	(11 199 000)
Current liabilities: < 1 year	(1 320 492)	(1 982 000)
	(12 095 527)	**(13 181 000)**

Net expense recognised in the statement of financial performance

Current service cost	1 196 000	1 085 262
Interest cost	1 514 000	922 114
Actuarial (gains) losses	(1 811 873)	1 009 332
Settlement	(1 983 600)	(948 000)
	(1 085 473)	**2 069 708**

Calculation of actuarial gains and losses

Actuarial (gains) losses – Obligation	(1 811 873)	1 009 332

Notes to the Annual Financial Statements

Figures in Rand	2023	2022

Key assumptions used

Assumptions used at the reporting date:

Average age of retirement	63	63
Net effective discount rate	11,11 %	11,38 %
CPI Consumer price inflation	5,60 %	7,60 %
Normal salary increase rate	6,60 %	8,60 %
Other material actuarial assumptions	4,23 %	2,56 %

Sensitivity analysis

The valuation basis assumes that the salary inflation rate (which manifests itself as the annual increase in employees' salaries which determines the bonuses payable will be 3,94% less than the corresponding discount rate, in the long term. The effect of a 1% increase and decrease in the salary inflation rate is as follows:

	One percentage point increase	One percentage point decrease
Effect on the aggregate of the service cost and interest cost	2 391 029	2 078 481
Effect on defined benefit obligation	12 584 372	11 048 297

As per the table above, a 1% increase in the salary increase rate results in a 7,11% increase in the accrued liability whilst a 1% decrease in salary increase rate will result result in a 6,44% decrease in the accrued liability.:

6. Inventories

Inventories Land held for sale	46 056 215	46 056 215
Water for distribution	1 717 340	1 595 034
Stores and materials	955 075	141 537
	48 728 630	**47 792 786**

Water for distribution

Opening balance	1 595 034	1 642 769
System input volume	150 756 347	132 850 698
Authorised consumption	(122 469 899)	(112 591 276)
Water losses	(24 672 115)	(20 012 649)
Data transfer and management errors	(3 492 027)	(294 511)
Closing balance	**1 717 340**	**1 595 031**

Receivables from exchange transactions (continued)

Statutory receivables general information
Basis used to assess and test whether a statutory receivable is impaired

The estimate were determined by the judgement of the management of the municipality, suplemented by experience of past practices and stastistics inrelation to uncollectable debt. The effects of the time value of money has been ignored due to the

Notes to the Annual Financial Statements

Figures in Rand	2023	2022

fact that the debt is immediately payable.

In assessing if statutory receivables are impaired, management assessed whether there are any indications that:
a) Individually significant receivables are impaired; and/or
b) Groups of simular, individually insignificant, receivables are impaire,

The following accounts are specifically excluded from the assesment of impairment:
Receivable accounts with a total credit balance at reporting date;
Receivable accounts where the total balance at reporting date is zero;
Receivable accounts where the municipality is the owner, as this is raised on the debtor system and rebated accordingly; and
Receivable accounts that have not been outstanding for more that 30 days at reporting date as these accounts balances are considered not to be past due.

In estimating the future cash flow, management considered both the amount and timing of the cash flows that it will receive in future. In line with par 12 of Credit Control Policy, the municipality does not see itself as a credit provision institution and hence the effect of the time value of money is not considered as all outstanding amounts are immediately payable.

In detemiining the amount impaired, managemente the cash flow that it expects to collect based on facts and circumstances at the reporting date.

The future cash flows of a group of eceivables that were individually or collectively evaluated for impairment were estimated using historical experience. For this purpose management adopted the payment pattern of each receivable.

Individual receivable impairment shall identify individual receivable accounts that meet any one of the following criteria:
- A debtor that has been placed under or applied for liquidation or sequestration
- Debtors where the last payment date by the consumer was before 31 March of the financialyear;
- Accounts handed over to debt collectors and/or power of attorney;
- All accounts indicated as in-active accounts of the system;
- When a formal arrangement is made on arrears debt, and the debtor has defaulted on this arrangement fora period in excess of 30 days during the financial year.

Notes to the Annual Financial Statements

Figures in Rand	2023	2022

Current liabilities	14 965 069	13 050 451
	52 825 929	**52 966 656**

Environmental rehabilitation:

The municipality has two dumping sites, one in Kwaggafontein which is 7,2 hectares and the other one in KwaMlanga which is 5 hectares. The remaining useful lives of theses dumping sites are 7 years and 1 years respectively. Each year the dumping sites remaining useful lives are assessed and the provision is adjusted accordingly.

KwaMhlanga landfil site:

Although the landfill site currently has a useful life of 0 years, THLM does not have a licence for the Kwa Mhlanga landfill site and the landfill will not be closed in the next 12 months, therefore the Kwa Mhlanga landfill site is recognised as a non-current liability.

Bonuses:

The municipality raises a provision for 13th cheque bonuses that staff members receive after twelve months after savings. The provision is based on the appointment month and the most recent effective salary notches of individual employees.

Notes to the Annual Financial Statements

Figures in Rand		2023	2022
5. MJ Magaela vs Minister of Police/ THLM and NPA Case nr: Case no 84342/17 North Gauteng High court	On the 5th of January 2018 summons were served wherein the Plaintiff claim against the municipality payment of an amount of R1 290 000.00 for damages he claims to have suffered due assault by the member of the Municipal traffic officers on the 15th of March 2016 at Kwamhlanga R573 near total garage. The municipality has filed its appearance to defend and also has filed notice in terms of Rule (34i). to which the Plaintiff must respond within 30 days.	860 000	860 000
6. Kosabo Elijah Masango & 4 others vs THLM Case no 62909/18 Ncongwane Attorneys	On the 29th August 2018, we received an urgent application wherein the applicant & 4 others wanted the High Court to set aside and rescind the Court Order that was granted in favour of the municipality on the 15th January 2016. The court order relates to the eviction of the unknown unlawful occupiers of portion 6 and remainder of the farm 617 KwaMhlanga JR	Amount not available	Amount not available
7. Dambuza Judas Mahlangu &others vs THLM Case no 3015/2019 Kubheka Siphesihle Attorneys	The municipality on the 22nd of June 2019 received an information that there was someone who is allocating sites illegally to the community of Tweefontein K. The municipality on the 25th June 2019 instructed Matlala Von Metzinger to obtain an interdict on an urgent basis in the Midddelburg High Court to stop the illegal activity. The necessary papers were drawn and the matter was set down for the 13th August 2019. On the 13th August 2019, the matter was struck off the roll, the court said the matter is not urgent and it must be removed from the urgent roll to the normal roll. The matter will be heard on the 20th January 2020. The matter was set down for the 08th February 2022 and the Court ordered: That the 1st and 2nd Respondents are hereby interdicted and restrained from unlawfully demarcating and allocating stands or structures on the plaintiff's immovable property farm Vlaklaagte 221 JR.	Amount not available	Amount not available
8. THLM vs Unlawful Occupiers of Portion 1, 22, 26 & 29 of the farm Hartebeestspruit 235 JR Moloto & Paul Phashushu Molomo Case no: 2182/2020 Ka-Mbonane Cooper Attorneys	The municipality experienced an enormous land invasion around Moloto North during the lockdown and it was left with no intention but to seek for interdict in order to stop this unlawful activities by members of the Community led by Mr Paul Phashushu Molomo. The municipality appointed the Ka-Mbonane Cooper Attorneys to apply for an interdict in order to stop the land grab and for eviction. The Interdict was granted by the Court and now the second phase is to evict the unlawful occupiers or the land grabbers	Amount not available	Amount not available

9. THLM vs Phungo Incorporated Case no:4801/19 Kunene Ramapala Attorneys	The municipality received combined summons from Phungo Incorporated, whereby the plaintiff is suing the municipality for damages amounting to R534 479.06 arising from a dispute regarding payment for services rendered. The Plaintiff was appointed to investigate Unauthorised, Irregular, Fruitless and Wasteful Expenditure, identified by Auditor-General during the annual audits from 2012/2013 to 2017/2018 financial years. The Plaintiff was expected to investigate the matters and deliver the full report and to date he has not delivered the report.	534 479	534 479
10. THLM vs Unlawful Occupiers of the Farm KwaMhlanga 617 JR (Moloto South) Case no: To be provided as soon as the matter is enrolled Ka-Mbonane Cooper Attorneys	The municipality experienced an enormous land invasion around Moloto South around July/August 2021. It is alleged that the land invasion is led by the company called Jozi Homes. It is further alleged that the company promised to build 2000 houses at Moloto South. The company is owned by the lady called Amanda. The municipality was left with no option but to seek for interdict in order to stop this unlawful activities by the Jozi Homes. The municipality has appointed Ka-Mbonane Cooper Attorneys to apply for interdict and eviction of the unlawful occupiers or the land grabbers. Correspondence	Amount not available	Amount not available
11. Ndzundza Mabhoko Tweefontein K Tribal Council & Others vs THLM Case no: 561/22 Middelburg High Court Kubheka Siphesihle Attorneys	The municipality received a notice of motion from Ndzundza Mabhoko Tweefontein K Tribal Council & Others. The applicants seek to interdict the municipality from unlawfully and illegally demolishing their dwellings from portion 1,3,4 and 5 of the farm Vlaklaagte 221JR and from harassing and intimidating them. These people are the ones doing land invasion at Tweefontein K	Amount not available	Amount not available
13. License Plate Recognition (LPR)	License Plate Recognition served a letter of demand to Thembisile Hani Local Municipality, Demanding that we allow their client to collect equipment's owned by their clients and also alleging that THLM is in breach of the terms of the contract. It demanded that THLM immediately remedy the breach or it will litigate.	Amount not available	Amount not available

Contingent assets

Subsequent to the disciplinary hearing in respect of Under Banking DLTC, civil proceedings have commenced against the employees concerned to recover an amount of R4 446 328, (2022: R4 446 328). According to the DLTC Forensic Investigation Report the matter should be handed to Commercial Crime and Asset Forfeiture Unit as well as hawks as contraventions provide reasonable grounds for financial misconduct as far as revenue collection is concerned.

43. Risk management

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the municipality's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Credit risk

Definition

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Components exposed to credit risk

Components exposed to credit risk include the following

* Cash deposits & cash and cash equivalents - risk that the municipality might deposits funds with the institution that are not approved by council and whose credit standing is questionable

* Trade debtors – possibility that the debtors might not pay the municipality on time exposing the municipality to liquidity problems.

Risk management process

* Deposits cash & cash and cash equivalents

The municipality only utilises registered major banks with high quality credit standing to curb the risk of potential losses on the funds deposited with the bank institutions

* Trade debtors

Trade receivables comprise a widespread of customer base. Management evaluates credit risk relating to customers on an ongoing basis taking into account the credit policy of the municipality which includes the following:

* risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument	30 June 2022	30 June 2021
Cash and cash equivalents (Note 11)	185 395 570	132 257 576
Receivables from exchange transactions (Note 7)	43 639 338	30 713 967

Market risk

Interest rate risk

As the municipality has no significant interest-bearing assets, the municipality's income and operating cash flows are substantially independent of changes in market interest rates.

44. Going concern

We draw attention to the fact that at 30 June 2023, the municipality had an accumulated surplus of R 2 513 051 420.

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

THEMBISILE HANI LOCAL MUNICIPALITY

Annual Financial Statements for the year ended 30 June 2023

Municipality account statements not sent to customers on a monthly basis	Whilst performing walkthroughs for the controls on receivables from exchange pertaining to the monthly preparation and sending of customer statements/accounts, we identified the following: a) Management confirmed that they utilised emails to deliver customer statements on monthly basis for 2022-23 period. Furthermore, management procured the assistance of ward counsellors within the municipality to assist with delivering the customer statements to those customers that do not have email address. b) We looked at the evidence provided by management for the entire financial year of 2023, we noted that statements as demonstrated	Insufficient in-house delivering of invoices for the months, July 2022 to September 2023 and discontinuation of services rendered by the Post Office South Africa which contributed to a massive decline in delivering account statements.	• Management should institute adequate controls regarding the delivery of monthly. • Statements to account holders as a matter of urgency in order to assist in boosting up the revenue collection. Proper portfolio of evidence should be kept on monthly basis to justify the delivery of customer statements	Oupa Ledwaba	30-Jun-2024	Management has gone fully on an e-commerce service wherein the customers will be legible to view their statements on the municipal website upon registration into the system. The bulk SMS system is also another means of sending out of the statements and communication. For those which are underprivileged to can make use of the available account statements means, management will continue to

ACTION PLAN

	below were only handed over to the ward councillors, but no evidence was provided by management to confirm that the customer statements were delivered to the account holders.					issue out printed statements until such time the digitization is covering fully all the clients.
Risk Management Disclosure Included items which are scoped out.	During the audit of risk management disclosure in Note 42, it was noted that the following items which are scoped out were disclosed in that note: Description 2023 2022 Accrued leave pay 15 524 459,00 15 077 044,00 Employee benefit Obligation 1 320 492,00 1 982 000,00 Total 16 844 951,00 17 059 044,00	Lack update of the applicable and none applicable accounting policies on the AFS inline with the GRAP updates	Management should implement adequate monitoring and reviews to ensure that all amounts on the disclosure notes are casted correctly and ensure that the amounts are accurate. Management should adjust the AFS for the misstatements identified.	Richard Makhubele	30-Jun-2024	All figures disclosed on the quartley AFS will be cast on excel to prevent any numerical calculations errors
Inventory Valuation	1. Bulk purchases classification: During the audit of inventory (Water held for distribution) we noted that the water purchased (Bulk Purchase) was expensed when purchased at an amount of R147 162 735 and R130 555 769 for FY2023 and FY2022 respectively. Water purchased for THLM is inventory which is an asset that is held for sale or distribution in the ordinary course of its operations. Therefore, water purchased cannot be expensed at initial recognition, however it can expense subsequently when sold, exchanged or distributed.	Management oversight	Proper and thorough reviews on inventory valuation and disclosure should be conducted to ensure compliance with GRAP 12. Management should adjust the annual financial statements to ensure that the inventory disclosure note is compliant with GRAP 12.	Richard Makhubele	30-Jun-2024	The water purchases account has been corrected from an expense account to an asset account for accounting for bulk water purchases. Furthermore the correction was made to the subsequent inventory disclosure note on the AFS.

	THLM therefore needs to expense the water that was consumed through sale/distribution to the statement of financial performance not the water purchased since that is an asset (Inventory). The above resulted in the following misstatement on bulk purchase: Description 2023 2022 Bulk Purchase R 147 162 735,00 R 130 555 769,00 Inventory consumed FREE BASIC @ 6kl p/m (R79 613 798,40) (R79 613 798,40) Reticulated areas = 4kl/pm/consumer (R53 075 865,60) (R53 075 865,60) Business (3 Malls & Hospital) (R1 162 026,00) (R1 162 026,00) Municipal consumption (400 l/d for every 100m2 gross floor space) (R303 807,18) (R298 050,83) Unaccounted Consumption/Distribution Loss (R27 015 675,04) (R24 199 071,60) (R161 171 172,22) (R158 348 812,43) Total (R14 008 437,22) (R27 793 043,43) Furthermore, management should consider renaming the line-item bulk purchases to inventory consumed for fair representation of the financial statements.					

	2. Inventory disclosure note: Through the audit of the inventory disclosure note, we have noted that the THLM disclosure note does not separately disclose the amount of inventories recognized as an expense during the period.					
OTHER IMPORTANT MATTERS						
Finding	**Finding Details**	**Root Cause**	**Recommendations**	**Responsible Person**	**Due Date**	**Action Plan**
1. PPE - Expenditure incorrectly capitalised as work in progress asset.	The municipality has received Integrated National Electrification Programme (INEP) grant amounting to R12 000 000 from the Department of Minerals, Resources and Energy in the 2022/23 financial year. # Project Amount (Excluding VAT) 1 Electrification of Households in Moloto (Mafishane & DK) – Ward 2, 4 347 242,73 2 Electrification of Households in Magodongo – Ward 3 6 086 819,50 TOTAL 10 434 062,23 It was noted that the municipality capitalised these projects as work in progress assets in the annual financial statements instead of expensing the cost in the statement of financial performance. The municipality does not have control over	Management did not ensure that the costs incurred on projects relating to INEP are expensed and not capitalized.	Management should adjust the annual financial statements to reflect alignment with Accounting for Integrated National Electrification Programme (INEP) guide for GRAP.	Walter Mtshweni, Richard Makhubele	30-Jun-2024	All INEP expenditure is treated and disclosed as operational expenditure. And once the projects are completed they are handed over to Eskom for capitalisation and management.

	these projects in terms of GRAP 1 because the projects are being constructed on behalf of Eskom.					
The DTI was not notified of the successful bidder and the value of the contract.	During the audit of compliance with applicable laws and regulations it was noted that the municipality procured goods which falls within the designated sector production for local content and Department of Trade and Industry (DTI) was not notified of the winning bidder, the value of the award, The DTI was also not provided with copies of the contract together the winning bidder's MBD 6,2 certificate and The bidding documentation did not stipulate that the rates of exchange quoted by the bidder in the Declaration Certificate (MBD 6.2) will be verified. # Name of supplier Tender number Goods procured Value of award 1 Tshwele Logistics THLM/SCM05/2022-2023/WS01/WP1 Mathyzensloop to Kwaggafontein booster pump station – Civil works 17 604 796 2 Mbako Projects and trading CC THLM/SCM05/2022-2023/WS01/WP2 Mathyzensloop to Kwaggafontein booster pump station – Mechanical works 18 828 409 3 Sheila and Katlego Construction and projects THLM/SCM03/2022-23/RS02 Construction of Mountain View (Mandela drive) Bus route 17 146	Failed ensure compliance with applicable laws and regulations on procurement of goods and services in relation to local content.	Management should ensure that proper internal controls are implemented to ensure that the requirements of Local Content and Production are complied with. The controls could include introducing a compliance check list that will be specific to Local Content and Production	Lydia Sehlako	30-Jun-2024	Management will report all projects affected by local content which the municipality appointed from the 1st of July 2022 to 15th January 2023 only due to the amendment of Preferential Procurement Policy Framework Act, 2000, Preferential Procurement Regulations of 2022. The minister has excluded local content in the Preferential Procurement Regulations of 2022. Therefore, local content was no longer applicable from the 16th of January 2023.

Differences identified between final budget amount per statement of comparison of budget and actual amounts and the approved adjusted budget.	During the audit of the statement of comparison of budget and actual amounts, we identified a difference between the final budget amount reported on the statement and the final approved adjusted budget amount for the following line items: Line item Final budget amount per statement Final budget amount per approved adjusted budget Difference Lease rentals on operating lease (R5 400 000) 0 (R5 400 000) Amnesty written off (R3 005 496) 0 (R3 005 496) TOTAL DIFFERENCE (R8 405 496)	Lack review of the final budget amount per statement of comparison of budget and actual amounts against the approved adjusted budget	Management should implement adequate controls to ensure that there is appropriate and accurate support the reported information in the annual financial statements. Management should make the necessary adjustment on the statement of comparison of budget and actual amounts.	Josta Moyo	30-Jun-2024	The unit will ensure that the the figures captured on the AFS are figures that are balancing to A or B Schedule(s) for budget approved by the council under Table A4 or Table B4, also ensure that when disclosing the GRAP compliance the figures are balancing back to mSCOA
Transactions disclosed as deviations without meeting	During the audit of deviations disclosure note in the financial statements, we note that the municipality procured a service through a deviation which did not meet any of the	None adherence to the procurement plan of the municipality, and	Management should implement adequate controls to ensure that all Supply Chain	Lydia Sehlako	30-Jun-2024	Adequate controls to ensure that all Supply Chain Management regulations are adhered to and that

ACTION PLAN

the criteria for a deviation.	preconditions for a deviation. Please see the transactions below: Appointed Contractor Description of Service Date Amount Spek Solutions (Pty) Ltd Monthly subscription and reactivation fees for three months. 28/11/2022 232 307,10 Spek Solutions (Pty) Ltd Vehicle tracking monthly fee 14/02/2023 39 687 Total amount 271 994,10	supply chain management regulations	Management regulations are adhered to and that deviations transactions are in line with SCM regulation 42. Management should make the necessary adjustment to their irregular expenditure register and adjust the deviations disclosure note.			deviations transactions are in line with SCM regulation 42 Is implemented. We are starting the procurement process 6 months before the end of the contract
Employee benefit obligation for long service awards is not complete and correctly valued	During the audit of employee benefit obligation: long service awards, when testing the input data that was utilised by the management experts to calculate the provision, we identified difference between the total number of employees who qualifies for the long services award as per the employee listing received from THLM and managements expert report. For summary on the differences noted refer to the table below: Description Number Number of employees as per management expert report 364 Number of employees as per THLM listing received for audit 374 Difference -10 Through discussions with management's expert,	Management falied to review final report from Actuary/ service report	Proper and thorough reviews on expert's reports should be conducted to ensure completeness and accuracy of the employee benefit obligation presented and disclosed on the annual financial statement.	Nnesana Matladi, Kholofelo Mabuela	30-Jun-2024	Management to do proper reviews on expert's reports to ensure completeness and accuracy of the employee benefit obligation presented and also to disclose on the annual financial statement.

ACTION PLAN

	it was confirmed that an incorrect number of employees was used to provide for the long service awards. The managements expert quantified the new amount of employee benefit obligation to be R12 095 527(amount as disclosed on the AFS submitted for audit: R11 780 189)					
Inappropriate disclosure of an attorney on the annual financial statements	Upon inspection of the Contingencies note 39 in the 30 June 2023 AFS, Ndobela Lamola was still listed as the attorney representing the municipality in the THLM vs Unlawful Occupiers of land at Empumelelweni; Verena; Zenzele; Phumula; Wolvenkop; Moloto South and Moloto North case although their contract lapsed in the previous financial year.	Proper assessment of the Contingent Liability Register	Management should adjust the annual financial statements to: Exclude Ndobela Lamola Attorneys as the attorney on the THLM vs Unlawful Occupiers of land at Empumelelweni; Verena; Zenzele; Phumula; Wolvenkop; Moloto South and Moloto North case.	Judas Skosana	30-Jun-2024	Regular assessment of the Contingent Liability register in line with the submission for AFS
Misclassification of Receivables - underbaking	During the audit of Receivables from exchange transactions – Underbanking. We noted that the DLTC Underbanking was not assessed in the current year for whether the classification of receivable was still relevant. As at 30 June 2023, the municipality was uncertain as to who is the debtor for the under banking and as the matter is still under investigation. The money refundable to the municipality is	Management failed to follow-up on items with no movement during the financial period under review.	Management should adjust the annual financial statements to reclassify the receivable to a contingent asset disclosure as per GRAP	Nolien Van Staden, Jessica Mahlangu	30-Jun-2024	To ensure that the disclosure of Contingent assets will be on the 6 months AFS ended 31 December 2023, however any progress/follow-up on this matter regarding the fraud case will have to be disclosed on future Annual I Financial Statements (AFS).

ACTION PLAN

	dependent on the outcome of the investigation and therefore a contingent asset should be raised.					
Receivables - Difference between General ledger (GL), Trial Balance (TB) and Annual financial Statements (AFS) .	During the audit of receivables, we noted differences between the trial Balance (TB), general ledger (GL) and submitted annual financial statement. The differences are indicated below. 1. Trial Balance vs Annual Financial Statements a) Consumer debtors Description Trial Balance (Net Amount) AFS (Net Amount) Difference Consumer Debtors- Water -744 728 432,40 27 967 382,00 -772 695 814,40 Consumer Debtors-Sewerage 17 587 475,73 507 247,00 17 080 228,73 Consumer Debtors- Refuse 432 424 894,87 12 491 585,00 419 933 309,87 Consumer Debtors - Property Rates 342 371 968,18 8 992 559,00 333 379 409,18 Total 47 655 906,38 49 958 773,00 -2 302 866,62 b) sundry debtors – Rentals Description Trial Balance AFS Difference sundry debtors - Rentals 929 244,41 582 275,00 346 969,41 Total 929 244,41 582 275,00 346 969,41	Oversight in ensuring that a full review is performed in ensuing that the three source documents (GL, TB and AFS) agree prior submission.	Management should involve the Munsoft service provider in ensuring that the MSCOA, GRAP and MFMA legislation are implemented without conflict.	Oupa Ledwaba	30-Jun-2024	Management has made an undertaking to ensure that the necessary processes are followed and available controls are adhered to ensure that the Consumer Debtors are balancing in comparison to the Trial Balance and alternatively the General Ledger so that information which is to be used for the Financial Statements purpose is accurate and complete. Monitoring and review on the matter will be done consistently.

Misstatements identified in the Property, Plant and Equipment	During the audit of Property, Plant and Equipment, we selected a sample of movable assets from the fixed assets register (FAR) for physical verification in order for the audit team to obtain reasonable assurance over their	Management did not implement adequate monitoring and reviews of the	Management should revisit the entire population of movable assets and ensure that the details of the assets	Richard Makhubele	30-Jun-2024	Monthly reviewal of the additions on the movable assets to ensure the

	existence and the fixed asset register is the underlying record of all assets that the entity has control of and we use this as a basis for all asset verification. During the physical verifications, we started the existence test using the traditional approach which is to trace the asset recorded on the fixed asset register to the floor using the asset's asset bar code number. However, we were unable to physically verify the assets using this approach due to the following reasons: 1. The assets were not tagged/ did not have a bar-code attached to them as assigned in the fixed asset register. 2. The asset selected from the fixed asset register did not match the description of the asset verified. 3. For the assets that were not tagged, neither using the asset tags nor handwritten asset numbers, there is also no other unique identifying attribute such as serial numbers and name of the asset for the auditor to verify the asset. The following table depicts the assets that could not be verified:	movable assets register	recorded on the FAR matches the physical items on the floor. Management should bar code assets to allow for identification of assets in terms of the Asset Management Procedures Manual. Management should adjust the AFS for the misstatements identified.			barcodes align with the asset register

	longer meets the definition of a contingency because its existence will no longer be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity, due to the fact that case will no longer be prosecuted in future as the land invaders, evaded the land before the case was enrolled.					
Misstatements identified in the Prior Year Adjustment Note	During the audit of our lead schedules, we noted that there are differences between the Prior year audited AFS and the current year submitted AFS, comparative figures. The differences do not equal to the amounts in the prior year adjustment note 41 of the annual financial statements for the year ended 30 June 2023. The details of the differences are as follows: Description Difference as per Auditors Lead Schedule Differences as per Note 41: prior year adjustment Difference Consumer Debtor- Water -5 068 255 -12 373 164 7 304 909 Consumer Debtor-Sewerage 86 360 -7 661 94 024 Consumer Debtor- Refuse 2 348 678 -1 921 2 350 599 Sundry Debtors- Rental -4851 -5151 300 Total -2 638 068 -12 387 897 9 749 832	Management failed to implement internal controls to ensure complete and accurate annual financial statements.	• Management should make adjustment to Note 41 in the annual financial statements. • Management should ensure consistent application when disclosing the amounts adjusted .Either net or gross amounts should be used when calculating the amounts of the prior period error.	Nolien Van Staden	30-Jun-2024	Management together with the Assistant manager AFS and VAT must ensure that all notes and disclosures on the Annual Financial Statement are calculated back to the to General Ledger closing balances, Statement of Financial Position (Balance sheet), and the Statement of Financial Performance (Income statement). Annual Financial Statements and all other Statements such as quarterly and Interim Financial Statements, management must ensure that enough time will be set aside to ensure proper review of the Financial Statements to ensure completeness and accuracy.

						All votes on the General Ledger must be reconciled every month, and all assistant managers have to ensure the completeness and accuracy thereof. Every month these must be reviewed by the Assistant Manager AFS and VAT must review all reconciliations and the CFO needs to approve. When this process is in place the completeness and accuracy of any financial statement will be timeouts, no long outstanding items, and journal capturing will happen at the last minute.
Blank Account holder Name in the Statements and in the Debtors age analysis	During the audit of receivables from exchange transactions – consumer debtors; we noted that the debtors age analysis contains account holders who are being billed on a monthly basis but contain accountholder names that are described as unknown or blank	Data cleansing process not completed. It is a work-in-progress process in ensuring that correcting all the accounts in the billing data is done.	Management should ensure that data cleansing is done on the debtors age analysist to identify the names of the account holders.	Oupa Ledwaba	30-Jun-2024	The Data Cleansing project is being implemented continuously throughout by making use of Ward Committees and communicating the message for the clients to submit information through various platforms of the municipal communication means. A plan to make use of some of the State-Owned

ACTION PLAN

						enterprises such as Eskom is also in the fold to be able to massively cleans the municipality's database.
Kwa-Mhlanga landfill site not licensed.	During the audit of the landfill sites, we noted that the municipality uses two landfills for general waste per Schedule 1 of Section 19 of NEWMA being the Kwaggafontein and KwaMhlanga landfill sites and we noted that council does not have a license to operate KwaMhlanga landfill site.	The municipality does not have a license to operate the KwaMhlanga landfill site	Management should ensure that the municipality obtains a license to operate the landfill site in order to comply with the requirements of NEWMA	Aminah Aphane	30-Jun-2024	The Department of Forestry Fisheries and Environment (DFFE) appointed ESCON consultants to assist with conducting of Environmental Impact Assessment for the licensing of kwaMhlanga and Verena landfill site. 0n the 18 October 2023 Proposed sites were submitted to DFFE. On the 09 November 2023 sites visits was conducted on 8 sites and two were found conducive.
Receivable - Incomplete disclosure statutory receivables	During the audit of statutory receivable in note 8, it was noted that the municipality did not disclose the following as required by GRAP 108: a) main events and circumstances that led to the recognition of the impairment loss b) information about the key indicators and assumptions used to assess and calculate whether statutory receivables were impaired during the reporting period c) An analysis of statutory receivables that are past due at the reporting, and which have been impaired.	Management failed to implement internal controls to ensure complete and accurate annual financial statements	Management should implement adequate monitoring and reviews to ensure that all amounts on the disclosure notes are casted correctly and ensure that the amounts are accurate. Management should	Nolien Van Staden	30-Jun-2024	Management should ensure completeness and accuracy of the AFS on a quarterly, mid-year and year-end basis.

ACTION PLAN

	d) An analysis of statutory receivables that are past due that have not been impaired. e) Factors the entity considered in assessing impairment losses in (c) and (d) above.		adjust the AFS for the misstatements identified.			
Accruals and Payables: Differences between the listing and annual financial statements	During the audit a difference was identified between the amount disclosed in the annual financial statements and the accruals and payables listing (Schedule), the table below depicts the difference. Item AFS Amount Listing Amount Difference Accruals and Payables R32 385 290,00 R32 021 096,00 R364 194,00	Management failed to ensure completeness and accuracy of payables and accruals between the General Ledger and Listings	Management should implement adequate controls to ensure that the accruals and payables are reported accurately.	Nnesana Matladi	30-Jun-2024	Management need to ensure that the llistings of Accruals and payables reconcile tio the General ledger
VAT input & output declared on the VAT 201's does not match the municipalities records.	During the audit of the VAT compliance, it was noted that the VAT declared as per the municipalities VAT 201 returns vs the Input VAT analysis (being the general ledger report that summarizes the input vat paid by the municipality for the various tax periods) and the auditors recalculated output vat based on receipts received by the municipality, did not match. The municipality has an obligation to ensure that their VAT 201's reflect the VAT charged on supplies and the VAT paid when goods/services are purchased by the municipality. The following differences were noted while testing if the VAT account in the general ledger (Input VAT analysis) correspond with the VAT 201's: The following differences were noted while	Management failed to implement monthly internal controls to ensure complete and accurate annual financial statements.	Management should ensure that the VAT 201's reflect VAT charged on supplies and the VAT paid when goods/services are purchased by the municipality. Management should ensure that they comply with VAT Act regarding how VAT should be accounted for & declared.	Nolien Van Staden	30-Jun-2024	Management should ensure that there are monthly reconciliations and that all items in respect of VAT output, Vat Input and VAT control are complete and accurate.

ACTION PLAN

	testing if the auditors recalculated output vat based on receipts received by the municipality correspond with the VAT 201's: Receipts received by the Municipality (As per the cashflow workings) Collections: Water, refuse & sewerage R 17 967 391,74 Other Income (License & permits & Discount & early settlements) R 2 571 633,00 Agency Fees R 10 613 681,00 Total receipts inclusive of VAT R 31 152 705,74 Output VAT R 4 063 396,40 Output VAT paid over to SARS as per VAT 201's R 2 009 400,93 Underpayment to SARS for the 2023-year end R 2 053 995,47 Therefore, based on the above the municipality has failed to comply with the obligations imposed by SARS to vendors.					
VAT receivable incorrectly classified as an expense.	While auditing travel expenses, it was noted that VAT amount of the invoice was incorrectly classified as an expense. The municipality entered into an agreement to purchase goods and services from a VAT vendor. The municipality is therefore entitled to a deduction as per the VAT Act and therefore should	FInancial system was not cottect;ly aligned wiith Vat coding.	Management should ensure that there are adequate monitoring and review controls in place to ensure correct classification of VAT. Management should	Nnesana Matladi	30-Jun-2024	Management will ensure vat code is correctly implemented on the financial system

	recognize a statutory receivable.
