THEMBISILE HANI LOCAL MUNICIPALITY 2024/ 2025 SPECIAL REVISED SDBIP

2. INTRODUCTION

The Special Revised Services Delivery and Budget and Implementation Plan interprets the five-year Integrated Development Plan and three-year Budget into twelve-month contract between the Municipality and the Community thereby expressing the goals and objectives set by the Municipality as quantifiable outcomes to be implemented by the Municipality. The Revised Service Delivery and Budget Implementation Plan is an expression of the objectives of the Municipality, in quantifiable outcomes that will be implemented by the administration for the financial period from 01st July 2024 to 30th June 2025.

The Special Revised Service Delivery and Budget Implementation Plan is in essence the management and implementation tool which sets in-year information such as quarterly service delivery and monthly budget targets and links each service delivery output to the budget of the Municipality. It further indicates the responsibilities and outputs for each of the senior managers and the top management team, the resources to be used and the deadlines set for the relevant activities.

3. LINKING THE IDP AND THE BUDGET

Integrated Development Planning requires many different planning processes to be brought together. In terms of linking service delivery and budget implementation plans of the individual directorate in the Municipality with the other planning processes in the IDP, the departments routinely produce operational plans, capital plans, budgets, institutional and HR plans, etc. to take the IDP forward. Clearly it is not feasible to include all this detail within the IDP document.

The budget is allocated against the different departments within the Municipality and the thematic areas as contained in the IDP of Thembisile Hani Local Municipality. Corporate objectives with measurable key performance indicators and targets are identified. The operational planning process undertaken at department levels yields objectives with indicators, targets, and resource allocation (includes budgets) at these various levels.
